- Memo - The proposed School Building, at Babine,
is facing the lake to the east, and thus
forms less resistance to the gales raging
at times from north to south through the gap
of the mountains in the course of the Babine
river.

The site is an ideal one, and readily can
be improved upon by the planting of poplars lopped
off on top to give them breadth.

The building, on the lines
proposed, can be made perfect, and in compliance with
Departmental instructions its doors are given as
opening outward.

- Memo - A log building would be much cheaper and more desirable than one of frame. To prevent such to get out of shape, it must be made to rest on blocks sunk below the depth of frost. According to sketch, thereupon are made to rest the foundation logs overlapping and mortised.

In the mortises are made to fit the 6 perpendicular logs with grooves of 3" wide and 3" deep wherein to receive those of horizontal line, fitted with tongue, by being slid from the top down in the grooves.

Moss is to be used as packing between each successive log going on in this wise, and the pressure will make the walls as tight as they can be made.

The log plates are fitted to the top in mortises, as such at the bottom, and render the building perfectly solid of construction by being thus practically keyed together.

Sir:-

Referring to your letter of the 29th of November last in reference to a communication from Mr. Agent Loring of the Babine Agency in regard to the establishment of a Roman Catholic Day School for the Babine Indians, I have the honour to enclose herewith for the information and consideration of the Department a report in the premises dated the 8th ultimo today received from the Agent with enclosures therein referred to.

Upon looking over the enclosed correspondence from Mr. Agent Loring it is perceived that he has been at great pains to make the matter as plain as possible to the Department concerning the requirements of the Indians referred to. Considering the locality and the excessive cost of living there his estimate of \$3335.95 for the cost of the proposed building seems to me quite reasonable as it must be borne in mind that much of the material will have to be imported at a heavy cost of transport, while for the material procured locally, such as logs, etc., require in their manipulation much skilled labour which is necessarily high in that portion of the Superintendency.

As these

As these Indians are making every endeavour to better their condition and as it is necessary in view of the rapid settlement of the country in that portion of the Province, ^{to provide the children with educational facilities} I would earnestly recommend that authority be granted at the earliest possible date for the commencement of the structure so that the same may be completed and utilized for the purpose intended before next Fall.

Hazelton, B. C., January 8th 1910.

Sir,-

In result of a conference, on the 19th of July last, between the Assistant Secretary of the Department, yourself, Chief Tsach William and other Indians of both Forts Babine and myself, at this Agency, attending, and according your letter # 204, R-5, dated the 8th of October last, concerning inter alia a school being established, at Fort Babine, I have the honour to enclose herewith plans of ground floor, elevation and estimates and specifications, in duplicate, respectively.

In discrimination to all submitted, many of the most profitable and practical features, adapted to local conditions, etc., etc., were derived consequent the erection of the salmon hatchery building on Babine lake.

The delay in this matter was occasioned by corresponding with the Revd. Fathers Bunoz, O.M.I., and N. Coccola, Stuart Lake Mission, Stuart Lake, B.C.

Thereafter, I had to await the latter's arrival here, on the 13th ultimo. Then, in endeavouring to get at the cost of the material, interviewed the Manager of Hazelton Post, Hudson's Bay Company, and found that he could not give me the price of a pair of hinges, at the selling price, at Babine.

And, since the lumber has to be whipsawed by the Indians there, and they have no conception of running feet, but only according arrangements by the piece, I finally had to resort to get all my information by corresponding with the Manager of the Hudson's Bay Company's Post of that locality.

The main body of the proposed school building there is desired to be of logs for reasons of avoiding as much as possible the high

high cost of lumber there, and have a warmer building for the winter and much cooler for the extremely hot weather during the summers.

On estimating the cost thereof, complete, it will amount, in summary, to \$3,335.95. This amount may seem large, but such is not the case, considering that the material has to be whipsawed and dressed by hand; also, primarily, the material is for some distance to be brought; besides the cost of hardware, imported at a high rate, etc., is considerable.

Aside of the foregoing, but appositely in connection with the establishment of the said school by the Department, I here beg leave to recommend that the Teacher's salary should be no less than \$500.00, or better \$600.00 per annum, for reasons of extraordinary costs of subsistence in the locality referred to.

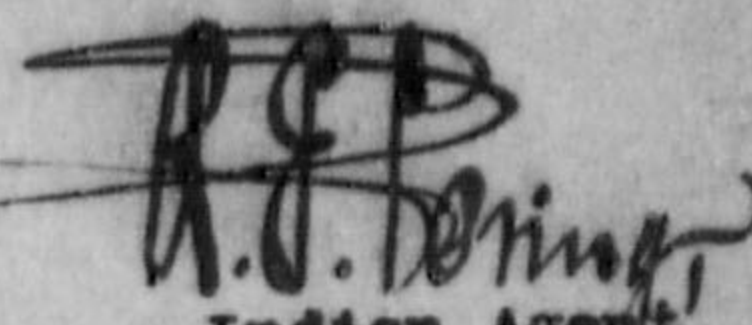

The building will afford the Teacher's residence.

Upon the establishment of this school, it is calculated to serve for the attendance of children of Fort Babine and Old Fort Babine alike, of whom there are, of school age, 48, collectively, or about 24 belonging to each.

Sir,—

I have the honour to enclose herewith voucher No. 62, for \$15.00, in favour of Babine Post, Hudson's Bay Company, for transport furnished Mr. Joseph F. Morrissey, teacher of the Fort Babine Indian Day School, from here thither, upon my request.

In regard thereto, I beg to state that with Departmental letter, dated the 27th of August, last, I received simultaneously one of the 4th ultimo from the Right Revd. Father E. M. Bunoz, O.M.I., Prince Rupert, and at their receipt, the said teacher presented himself in person, at the same time, to boot.

By the tone of the said correspondence, I thought myself called upon at once, and hastened to Rocher Deboulé (same day, 9th ultimo) to interview Revd. Father Godfrey in behalf of the teacher, but the former was absent in the Bulkley valley.

Mr. Morrissey confided ~~SENSELESS~~ to me that he had neither the means to stay here, go forward, or to go back on; thereat I found myself in a quandary what to do.

Through my personal interposition with Mr. Leslie Laing, Manager of Fort Babine Post, who happened to be here at the time, I made the aforesaid arrangements, or otherwise Mr. Morrissey would not have been able to get in for less than \$50.00 with no end of hardship, or, perhaps, not at all, since then already one heavy snow storm was had on the Babine Range of Mountains.

And beg likewise to add that all this antedated the Departmental letter of the 26th ultimo (received on the 13th instant) wherein thereafter I found it quoted,
to wit:—

"I may say that the Department does not pay the charges for transport of teachers. You will be good enough to make a note of this."

I have the honour to be,
Sir,
Your obedient servant,

H. P. King
Indian Agent.

Dear Sir:

Dear Sir: Enclosed please find receipt and account in duplicate for Thirty Six Dollars paid Daniel Flinn for rent of building for School purposes for Janry. Feby. and March.

Before recommending an increase of rent I would suggest that he be ordered to place a window in the North and South side of the building to permit a current of fresh air; - as it is at present the windows and door are in one end which gives no ventilation, and further that a new floor be put in from end to end including the space occupied by Mr Morrissey.

With kind regards

Very truly Yours
Leslie Cairns.

Sir,

In regard to the rent for the school building at Babine, I have the honour to attach hereto two (2) letters from Mr. Leslie Laing, of Babine, and dated the 6th and 21st instant, respectively, and addressed to me, to the effect that the lesser, Daniel Leon (Indian) asks to have the same at \$12.00 pro month increased to the sum of \$15.00 pro month.

I would strongly recommend that from a hygienic point of view the authority, at the latter amount be granted, and the work carried out according Mr. Laing's suggestion, in that it be insisted upon that one window be placed at the north side of the said building, and another at its southern end, and additionally a new floor be put in from one end of the building to the other, inclusive of the space occupied by the teacher.

Sir,-

I have to acknowledge the receipt of your letter of the 27th, ulto., enclosing letter from Daniel Leon requesting an increased rent for the building in which the Fort Babine School is conducted.

The Department is willing to pay the increased rent, namely,- \$15.00, per month, - provided that a new window be placed in the north side of the building, another at the south side and also that a new floor is put in the whole building.

Kindly notify the Department when these repairs are finished and the increased rent will be paid from that date.

#602
re - Lunches to Children of Fort Babine
Indian Day School.

*Mr
Dec
from
Gib
Mortimer*
With reference to my letter of 21st August last, S-1G-242, I respectfully request that lunches be provided to the children of the Fort Babine Indian Day School from November 1st to May 31st, amounting to not more than \$7.50 per month.

Many of the children's parents are away on their traplines during the hunting season and it is a great help to these children in having a hot luncheon given them.

I am attaching Voucher No. 339 for lunches during November and I trust the Department will kindly approve same.

Encl.

Sir:

With reference to your letter of the 6th instant, I beg to say that the account which you have submitted for midday meal supplies for the month of November for the Fort Babine Indian Day School is being paid.

Owing to the reduction in our Appropriation, it will only be possible to allow a sum not exceeding \$6 for the months of December, 1933, and January, February and March, 1934.

Your obedient servant,

A. F. MacKenzie,

Provision is made in the 1946-47 Babine Agency estimates for midday meals for pupils at the Fort Babine Indian Day School. An amount of \$8.00 per month during the winter months was provided for but as the enrolment has increased to 45 children, this amount will not be sufficient. Mr. Boys has recommended that the amount be increased to \$15.00 per month and I concur in his recommendation and suggest that the amount be allowed for the months of November, 1946 to March, 1947 inclusive, a total of \$75.00.

Major D.M. MacKay, Indian Commissioner,
P.O. Box 70, Vancouver, B.C.

With reference to your letter of the 26th instant, it has been decided to allow an amount of \$10.00 a month for the period Nov. 1, 1946 to Mar. 31, 1947 to assist in providing a midday meal for the pupils attending the Fort Babine Indian Day School.

At those schools where the Department has previously allowed funds for midday meal purposes, we are continuing that practice. However, in view of the payment of family allowances, we feel that there is no great necessity for any heavy increase on the part of the Department as it is fair to presume the children are receiving better food at home and in many cases should be able to provide part at least, of the food required for their midday lunch.

OK
Mr. Indian Agent Boys has recommended the supply of two new blackboards complete with chalk rail, and a teacher's desk and chair for the Fort Babine Indian Day School. The blackboards are required to replace two existing boards which are damaged beyond repair and apparently the school has never been supplied with a teacher's desk and chair. These articles are obtainable in Vancouver at an approximate cost of \$85.00 and I would recommend that authority be granted to place the order.

Indian Commissioner for B.C., Box 70, Vancouver.

With reference to your letter of March 4th, your file 1-11-4 & 1-11-6, concerning purchase of school and manual training supplies for the Fort Babine Indian Day School, please be advised that this is not a duplicate purchase on the same authorization. On May 11th, 1946 a requisition was submitted from this school for, among other items,

2 Brooms
1 Dustpan
100# Dustbane

On September 25th, under file 151-5-4 (WT1) authorization was received for local purchase of these three items from Chief, Training Division. Mr Barwick, teacher was so advised.

On October 19th a requisition was received requesting, in part

2 brooms
75# Dustbane.

In accordance with instructions contained in your letter of October 26th, file 1-11-4, Mr Barwick was asked to submit quotations from the Hudson's Bay Co., Fort Babine, but apparently made the purchases instead. In short, Voucher #323, submitted December 18th, 1946 should have shown as authority Ottawa letter 151-5-4 (WT1) instead of your 1-11-4 of October 26th.

MEMORANDUM:

Mr. B. W. Waugh,
Surveyor General.

I am enclosing Branch File 151-5-5 and wish to direct your attention to Major MacKay's letter of December 18th in connection with a small parcel of land the Department wishes to purchase for school purposes on Babine Indian Reserve No. 6.

If you will refer to the reverse side of the Council resolution, you will note that Mr. Boys, the Indian Agent, has prepared a rough sketch of the area required. It would be appreciated if you would prepare a description and prints to be attached to surrender documents, as it will be necessary to have a surrender of this land before a sale can be arranged.

Your File 151-5-5

I wish to refer to Mr. Phelan's letter of March 7th, 1946, and related correspondence in connection with the proposed construction of a new teacher's residence at Fort Babine; also to my letter of September 23rd last regarding the 1948-49 day school building program wherein reference was made to the construction of a one room day school with teacherage at Fort Babine.

In anticipation of construction being proceeded with early next year I have been corresponding with Mr. Indian Agent Boys regarding a suitable site for the school. His letters of November 3rd and December 5th and enclosures referred to, are enclosed for your information. You will note that an area of approximately 3.55 acres is plotted on a sketch of Babine I.R. No. 6 on the reverse of the Band resolution. Mr. Boys has been unable to tie the area in to a survey point without instruments and consequently without a survey it will be difficult to adequately describe the parcel for surrender purposes. I should appreciate being advised if the Department will require a surrender from the Band before payment is made to John Baptiste Lowley, Indian locatee, for his improvements, and if the description in the resolution would be acceptable for surrender purposes in this case seeing title is to remain in the Crown.

Kindly refer to your letter of November 14th, your File 1-11-3.

Enclosed herewith you will find an Agreement of Sale for the parcel of land on the Babine Indian Reserve, No. 6 which I have selected as a satisfactory School Site. You will note that John Baptiste LOWLEY the owner, has agreed to accept the sum of \$75 per acre and I would suggest that a deposit of say \$200 be paid to LOWLEY pending Survey following which a final settlement might be made. I would suggest that plans be sought for a School Building with Teacherage attached, plus a separate room, with an outside door to be used as accommodation for visiting officials to this remote reserve, or alternatively as a Dispensary.

I feel that the need of new accommodation at Fort Babine is very urgent and I should dearly like to see a new building erected in 1948. You will note that the sum of \$16,000 was set aside in the 1947-48 Estimates for this building.

AGREEMENT OF SALE

I, John Baptiste LOWLEY, otherwise known as Baptiste Tom do hereby agree to sell and surrender to the Indian Affairs Branch all my right, title and interest in and to that piece of land situate on the Babine Indian Reserve, No. 6, more properly described as follows:

Commencing at a point on the East bank of the Babine River, about six chains south of the bridge, thence approximately seven chains east, thence approximately five and three quarter chains south, thence approximately five chains west to the river bank, thence following the river bank northerly to point of commencement; containing three and one half acres more or less.

I agree to sell this land for use as a School Site at a price of seventy-five dollars (\$75) per acre. The full amount of land to be determined by survey.

Indian Commissioner for B.C.,

VANCOUVER,

Replying to your letter of October 25th your file 1-11-3 regarding a site for the Indian Day School at Fort Babine I note that it is required to tie in the plot to be surrendered with one of the corner posts of the Reserve.

Discussing the matter with you at Hazelton a few days ago I pointed out urgent need of a new school at Fort Babine and the fact that I have just returned from what will probably be my last trip to Fort Babine in 1947. You suggested that I should return the file to you and asked that the purchase be considered pending survey of the property.

It is understood that having no instruments that I can tie this lot in only very roughly and it is felt that until a further survey is made that the bridge might serve as a point of commencement.

As to the value of the land the suggestion of \$100 per acre is purely tentative and I would suggest that an offer be made to Baptiste Lowley on the basis of whatever value the Director may feel is proper. I trust that this matter may be completed before the opening of navigation on Babine Lake next spring.

RE: Accountable Advance - Repairs to Schools Babine Agency

On September 12th an Accountable Advance for \$70.00 was received to affect minor repairs to the Schools of this Agency. Of this amount a balance of \$4.75 remains, which will be returned by Receiver General payment under separate cover.

It would be appreciated if a similar Accountable Advance in the sum of \$100.00 for the same purpose might be made available for the 1948-49 Fiscal Year.

With reference to Voucher No. 526 attached.

In making repairs to desks in the 10 schools of this Agency it has been necessary to provide $\frac{1}{2}$ " lumber. This size lumber is not readily available in this area and the work has frequently been held up, and I therefore asked the Hudson's Bay Co. to procure about \$20 worth of lumber so that I might have some on hand for future repairs.

re your letter Jan 9/48

I am forwarding Superintendent Boys' letter of October 7th, and forms referred to therein covering surrender of a parcel of land in Babine I.R. #6 for a school site.

Construction of a school at this point is being given priority in our building program for next year.

I enclose herewith completed forms of surrender for the new school site at Fort Babine.

A well attended meeting was held at that point on September 15th. I sincerely hope that the decision as to the size of school to be built at Fort Babine may soon be arrived at and that we may proceed with erection of the building early next summer.

The teacher at this point is urgently in need of better teacherage accommodation.

Re: School Construction Projects
in British Columbia
Your file 1-1-5 (E)

I refer to Mr. Neary's letter of November 1st concerning the provision of school facilities at Old Fort in the Babine Agency as included on our priority list submitted to the Department some time ago.

This point is located on Babine Lake about 30 miles S.E. of Fort Babine. A school survey indicates that there are 79 children 16 years of age and under at this point. Of this number 46 are in the age group 6 to 16. The pre-school age population is 33. Although the number of school age children would appear to warrant the construction of a two room school, due to the nomadic life of many of the families it is felt that a one room would probably meet the actual need.

I might say that a school was operated at this point up until March of 1940 when the present teacher at Fort Babine was transferred from Old Fort. At the time of his transfer there were 23 pupils enrolled in the Old Fort School, with an average attendance of 11.3. The school apparently remained closed, partly because of the acute teacher shortage.

The building in use was an old structure rented from one of the natives belonging to the reserve. It is quite unsuitable for school purposes and is in very poor repair.

Fort Babine Indian Day School.

Under separate cover we are today forwarding you the documents required in connection with advertising for tenders for the construction of this school.

These advertisements will appear in the near future and the documents you will require, now being sent to you, are as follows:

- (a) Drawings and specifications for plan 889
- (b) General instructions to tenderers.
- (c) Tender forms.
- (d) Tender envelopes.

These documents are all self-explanatory and I believe a sufficient number have been forwarded to yourself, Mr. Boys and Mr. Anfield. However, you can arrange between yourselves if additional copies are required.

May 27, 1949.

Mr. W. S. Arneil,
Indian Commissioner for B.C.,
P.O. Box 70, Vancouver, British Columbia.

Day School Building Programme - British Columbia.

Dear Bill:

I am still waiting anxiously for the final prints of plan 891, as I told you in my previous letter of May 16.

I have decided not to wait much longer for these plans but would suggest the action outlined below:

Fort Babine Indian Day School

As this is a school without hydro, I would suggest that we proceed immediately to advertise for the erection of this two-room school with teacherage, plan 889. Please find attached the draft advertisement which I would like you to check over and if satisfactory, we will arrange to run this advertisement at once. I would suggest that it be advertised in the two main Vancouver papers, the Prince Rupert Daily News and the Interior News at Smithers, B. C. I have marked this advertisement No. 1 and would welcome an early message indicating if advertisement No. 1 is satisfactory or any changes which you would wish to have made in it.

Hartley Bay Indian Day School
Lakelse Indian Day School
Kincolith Indian Day School.

As you are aware, a two-room school with electricity and running water is being designed and will be termed plan 891. I am sending you a draft advertisement marked No. 2 but we cannot

proceed with this advertisement until the plans are in your hands and deemed to be satisfactory. The one thing that concerns me is that the electricity is designed for hydro alternating current and I presume that the power supply at Hartley Bay, Kincolith and Lakelsep will be from a D.C. village lighting plant. I have spoken to Miss Walton about this and will get details of the lighting plants at these three villages from her if possible. I can then advise the electrical engineer accordingly.

I would welcome your comments on advertisement 2 and will hold this in readiness until you have seen the plans and wired your approval to proceed with advertising. As recommended by Mr. Anfield, this advertisement should appear in both Vancouver papers and in the Prince Rupert Daily News.

Douglas Indian Day School

Chehalis Indian Day School

These are one-room schools and teacherages and we have yet to receive the information reports. I presume that plan 888 will be followed and that both these schools could be advertised together. I have therefore drafted advertisement No. 3 which I think would cover these two projects. We should of course have the information reports first and a definite indication that water is available and that the site is satisfactory. However, I will expect a letter from you covering these two schools.

Uelualet Indian Day School

Glacose Indian Day School

We will write a separate letter about this based on the information on Inspector Davey's recent report.

To conclude, therefore, I feel that we can take the following action immediately:

- (a) Advertise for tenders for the Fort Babine School
- (b) Advertise for tenders for the Douglas and Chehalis Schools.

Indian Affairs. (RG 10, Volume 6390, File 808-5, part 5)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

- (c) Be prepared to advertise for Hartley Bay, Lakelse and Kincolth Schools as soon as the plans are ready and seen by you.

I sincerely hope that the above meets with your approval and that the advertisements will draw tenders. So far we have been quite pleased with the response received to date in answer to our advertisements on the Prairies and in Eastern Canada.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

TENDERS, to be entitled to consideration, shall,

- (1) Be made upon the form provided therefor, and shall be forwarded, duly sealed, and in the envelope attached thereto, on or before the time above limited.
- (2) Be signed by the tenderer or tenderers as the case may be, in their respective handwritings, with the designated occupation and post office address. In the case of a company, the President, or other official having authority to bind the company, shall sign, and the corporate seal shall be affixed.

In the case of a partnership, each and every partner in the organization shall sign the tender, and in the event that such partnership shall be awarded a contract for the work, the partners will be jointly and severally bound in the contract agreement.

- (3) Be accompanied by the required security deposit in amount stated in Tender Form. The amount of such security deposit will be returned to the unsuccessful tenderers as soon as the contract is awarded, or in case no tenders are accepted.

In the case of a Contractor's tender being accepted, the amount of the security deposit will be retained until such time as he has completed the contract work to the satisfaction of the Department.

- (4) Have all blank spaces completely filled in, and shall give all information requested.

Tenderers shall submit with their tenders a statement of such works as they have previously undertaken similar to that on which they are tendering, giving details of the type of building and construction, location and present ownership.

Tenderers shall state whether or not all materials are of Canadian manufacture.

Tenderers shall include in their tender price all sales or special taxes in force at the time the tender is submitted.

Tenderers shall investigate and examine the site(s), everything and every condition affecting the work, and shall base their tenders on their own examination, knowledge, information and judgment, and not upon any statement, representation or information made or given by any officer or representative of the Department.

Tenderers should communicate with

1. *Indian Superintendent, Hazelton BC*

GENERAL INSTRUCTIONS TO TENDERS

TENDERS will be received by:

THE DIRECTOR,
INDIAN AFFAIRS BRANCH,
DEPARTMENT OF MINES AND RESOURCES,
OTTAWA, Ontario, Canada.

Until noon on the 30th day of June
in the year Nineteen hundred and Forty-nine, A. D.

For the construction by contract of:-

1. Two-room Indian day school and attached teacher's residence, Fort St. James Indian Reserve, British Columbia.
2. Agency, British Columbia.
- 3.
- 4.
- 5.

In accordance with the accompanying plans and specifications
(Index No. 807) prepared by the

Engineering and Construction Division,
Lands and Development Services Branch,
Department of Mines and Resources,
Ottawa, Canada.

Plans and specifications may be obtained from any of the display points for the private use of a tenderer, upon deposit of an amount of Five Dollars (\$5.00) in the form of a certified cheque to the Receiver General of Canada. This deposit will be refunded upon return of the drawings and specifications in good condition to either

1. Indian Commissioner's Office, Federal Building, Vancouver, B.C.
2. Indian Superintendent's Office, Hazelton, B.C.
- or
3. Indian Superintendent's Office, Prince Rupert, B.C.

within one month from the date on which tenders closed.

TENDERS, to be entitled to consideration, shall,

- (1) Be made upon the form provided therefor, and shall be forwarded, duly sealed, and in the envelope attached thereto, on or before the time above limited.
- (2) Be signed by the tenderer or tenderers as the case may be, in their respective handwritings, with the designated occupation and post office address. In the case of a company, the President, or other official having authority to bind the company, shall sign, and the corporate seal shall be affixed.

In the case of a partnership, each and every partner in the organization shall sign the tender, and in the event that such partnership shall be awarded a contract for the work, the partners will be jointly and severally bound in the contract agreement.

- (3) Be accompanied by the required security deposit in amount stated in Tender Form. The amount of such security deposit will be returned to the unsuccessful tenderers as soon as the contract is awarded, or in case no tenders are accepted.

In the case of a Contractor's tender being accepted, the amount of the security deposit will be retained until such time as he has completed the contract work to the satisfaction of the Department.

- (4) Have all blank spaces completely filled in, and shall give all information requested.

Tenderers shall submit with their tenders a statement of such works as they have previously undertaken similar to that on which they are tendering, giving details of the type of building and construction, location and present ownership.

Tenderers shall state whether or not all materials are of Canadian manufacture.

Tenderers shall include in their tender price all sales or special taxes in force at the time the tender is submitted.

Tenderers shall investigate and examine the site(s), everything and every condition affecting the work, and shall base their tenders on their own examination, knowledge, information and judgment, and not upon any statement, representation or information made or given by any officer or representative of the Department.

Tenderers should communicate with

1. **Indian Superintendent, Hazelton, B.C.**
- or
- 2.
- or
- 3.

and arrange to inspect the site(s) concerned.

Should a tenderer fail, within fifteen days of the date of notification of acceptance of his tender, to execute the contract form, the tenderer's security deposit shall be forthwith forfeited absolutely to His Majesty.

The Minister reserves the right to reject any or all tenders and the lowest tender will not necessarily be accepted.

Dear Sir;

Enclosed please find tender for the supply and erection at the site of Fort Babine, B.C., a two classroom Indian Day School with teachers quarters. The remoteness of this location necessitates extreme precaution of the contractor as we are informed there are absolutely no facilities at Fort Babine.

Precision Housing would, due to the above, be prepared to supply and erect this building on a cost plus 15% basis or for the firm tender of \$67391.00. We feel that considerable saving could be made on a cost plus basis.

Yours truly,

Fort Babine Indian Day School

Dear Bill:

The tenders for the erection of this school have been opened, and I am rather disappointed with the results. In the first place, only one tender was received and this was from Precision Housing Co. Ltd., in Vancouver in amount of \$67,391.00. Their letter read as follows:-

"Enclosed please find tender for the supply and erection at the site of Fort Babine, B.C., a two classroom Indian Day School with teachers quarters. The remoteness of this location necessitates extreme precaution of the contractor as we are informed there are absolutely no facilities at Fort Babine."

Precision Housing would, due to the above, be prepared to supply and erect this building on a cost plus 15% basis or for the firm tender of \$67391.00. We feel that considerable saving could be made on a cost plus basis."

As you are aware, this is much higher than any price we have been called upon as yet for a two-room school, and I would doubt very much whether authority could be obtained for its acceptance.

Do you think we could obtain a firm tender for a quonset type building for Fort Babine? If so, I could

suggest to the Director that we recommend to the Minister's Office that this Precision House Company Limited Tender be rejected as too high and that you be requested to approach the Quonset people in Vancouver for a firm price tender for the erection of a two-room school on their plan at Fort Babine.

If you wish to reply by Army Signal that you agree with this suggestion, then I will be pleased to take action immediately in making this recommendation.

With best good wishes,

Yours sincerely,

Memorandum:

DEPUTY MINISTER

Fort Babine Indian Day School.

Included in our Main Estimates is the sum of \$30,000.00 for the erection of a two-room school and teacherage at Fort Babine, in the Babine Indian Agency, British Columbia.

In accordance with the provisions of the Public Works Act, we advertised for tenders in Vancouver, Prince Rupert and Smithers newspapers.

Only one tender was received, from the Precision Housing Company, Limited, of Vancouver, B.C. Their tender was accompanied by a letter which read as follows:

"Enclosed please find tender for the supply and erection at the site of Fort Babine, B.C., a two classroom Indian Day School with teachers quarters. The remoteness of this location necessitates extreme precaution of the contractor as we are informed there are absolutely no facilities at Fort Babine.

"Precision Housing would, due to the above, be prepared to supply and erect this building on a cost plus 15% basis or for the firm tender of \$67391.00. We feel that considerable saving could be made on a cost plus basis."

This price for the erection of a two-room school is considered to be very high, even in a place as relatively

isolated as Fort Babine. An airmail letter was therefore sent to Mr. Indian Commissioner Arneil, advising him of this fact and suggesting that he approach the Stran-Steel Company, builders of the Quonset hut type schools. This firm's Eastern representatives have been anxious to bid on our schools, advising that they could build them for a much lower price than we are paying by standard construction. Several of the provinces have been building these Quonset type schools and we feel that if their prices are lower than standard construction, they should be tried as a mode of construction. This is particularly applicable in isolated regions where the transportation costs on the packaged steel panels are much lower than on the usual building materials.

There are two other schools on which we contemplate approaching the builders of the Quonset type schools as in these cases also tendered prices have been much higher than anticipated. Please find attached photographs and a bulletin dealing with these buildings. It is felt that our intentions in this regard should be brought to your attention as we intend to recommend the erection of some of these Quonset schools if standard building proves too expensive.

Your file 8-8-5 (E)

With reference to Mr. Neary's letter of July 10th, we have now secured the quotation attached herewith from National All-Steel Buildings Limited, covering the supply and erection of a 40x52 two room school with teacherage, at a cost of \$22,825.00 complete as per plan attached, less plumbing and wiring.

You will note that the Company's tender is for acceptance in time for the work to be started by the end of August, 1949.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

The undersigned has the honour to report:

THAT the Indian Affairs Branch of the Department of Mines and Resources has provided for the construction of a two-room Indian Day School and attached teachers' residence on the Fort Babine Indian Reserve, in the Babine Indian Agency, Province of British Columbia, for the education of the Indian children living there;

THAT, in accordance with the provisions of the Public Works Act, tenders have been advertised for in local and trade newspapers;

THAT we have received, as a result of these advertisements, the following single tender:

Precision Housing, Limited,
Ft. McLean Drive, Vancouver, B.C. \$67,391.00.

THAT this company is also prepared to supply and erect this building on a cost plus 15% basis;

THAT our officials feel that this tender is too high for the erection of a two-room school and teacherage, even on such an isolated reserve;

THAT Departmental officials have, therefore, approached National All-Steel Buildings, Limited, 1768 Hastings Street East, Vancouver, British Columbia, with the request that they tender on a Quonset type school for this reserve;

THAT such Quonset type schools are being erected by provincial departments of Education and local school boards for white children where standard school building costs are felt to be too high;

THAT National All-Steel Buildings Limited has submitted a tender for a Quonset type school with two classrooms and a teacherage on the Fort Babine Indian Reserve in the firm amount of \$22,825.00;

THAT Departmental officials have examined the plans and specifications for this Quonset type school and recommend

the acceptance of the tender of National All-Steel Buildings Limited, of Vancouver, B.C., in view of the fact that it is only one third the amount required for a school of standard construction and should provide a satisfactory school for these children;

THAT funds are available for this purpose in Vote 230, 1949-50, Indian Affairs Branch, Department of Mines and Resources.

The undersigned, therefore, recommends the acceptance of the tender of National All-Steel Buildings, Limited, of Vancouver, B. C., for the erection of this Quonset type two-room school and teachers' residence for the amount of \$22,825.00 which, with contingencies, may amount to \$25,000.00.

Dear Sir:

With reference to your letter of the 3rd of September advising us that our tender for the Fort Babine Indian School had been accepted, we regret that due to the early freezing in that area, we are unable to accept the contract at this time. Our tender stated that acceptance must be made by the end of July, 1949.

National All-Steel Buildings, Limited has been bought out by Maple Leaf Distributors Limited, who have Maple Leaf Construction Company, Ltd. as a subsidiary Company.

On behalf of the new company, the writer will be pleased to give a new tender early next year for the Fort Babine School.

We will also be pleased to tender on any other type of construction should we be unable to fulfill your needs with our Quonset buildings.

We regret that we are unable to provide you with the urgently required school at this time, but hope that we will have the pleasure of serving you next year.

Yours very truly,

Re: Fort Babine Indian Day School
Your file 808-5 (E)

With reference to Supt. Boys' letter of Sept. 21st attached, we are still awaiting a decision from you with regard to the erection of prefabricated schools in the Skeena River and Babine Agencies.

With regard to acquisition of a site for the above-mentioned school, I note from our files that a surrender of the area was secured and forwarded to the Department on October 13th, 1948. Having in mind, however, that the Department cannot acquire title to school sites on Indian Reserves will you please advise if in this case we should arrange a transfer of the Indian locatee's interest to the Band and permission from the Band to use the area for school purposes for so long as it is required, subject of course to payment of the amount agreed upon to the locatee, John Baptiste Lowley.

Mr. Boys has prepared a voucher, No. 759, payable to Mr. Lowley in the amount of \$225.00 and this is enclosed.

Fort Babine Indian Day School

I have copy of your letter of 12th September to the Department; I agree that it would be a very wise step to purchase a pre-fabricated building out of the funds available in this fiscal year and I feel sure that satisfactory arrangements can be made for erection of the building next summer. This should give us the early start so necessary in view of our short season.

Kindly refer to my letter dated 5th December 1947, we have not yet paid John Baptiste Lowley for the proposed site. I do not know if the Department is going to insist upon a survey before passing the voucher, but I am submitting voucher herewith in favour of this Indian on the basis of three acres of land at \$75 per acre, in accordance with the agreement he signed dated 27th November 1947 and supported by the Bands' resolution proving ownership. If it is found following survey that a further sum is due the owner we could submit a second voucher at that time.

If towards the end of the current fiscal year it is found there is a surplus of funds for the school building programme in this Province I would suggest that the same procedure might be followed, namely purchase of a pre-fabricated building for some of the points in this Agency urgently requiring a new school building, and we have several, so that we may get under way with their erection at a much earlier date next spring.

I have just returned from an inspection trip
to find your two letters of September 2 and September 12.

We have an Order-in-Council accepting the
tender of National All Steel Buildings, Limited, and regret
that we cannot proceed with the erection of this school at
the present time. We did not receive the firm tender from
this company until August 8 and it was forwarded immediately
for the necessary Order-in-Council. We cannot understand
Mr. Byng-Hall's statement that their tender stated that
acceptance must be made by the end of July, 1949. It is
presumed that this should read by the end of August, 1949.

Re: Fort Babine Indian Day School

Further to my letter of September 2nd, I am enclosing a letter dated September 9th, from the Maple Leaf Construction Limited (formerly National All-Steel Buildings Limited) confirming that they are unable at this time to accept the contract for the erection of the above-mentioned school building and advising that they would be prepared to submit a new tender early next year.

Presumably it will be necessary to re-advertise for tenders for the construction of this building next year, but in view of the isolated location, I doubt whether we will ever receive any great response. It appears to me that the solution to our problem at Fort Babine would be to purchase immediately, or prior to the end of the fiscal year, a prefabricated two-room school with teacherage, for shipment to Fort Babine as soon as the lake is open in the spring, for erection on a day labour or contract basis as soon as funds are available next year. It is quite likely that the Maple Leaf Construction Limited would tender on the erection of a prefabricated building and if not, it should not be too difficult for us to arrange for erection on a day labour basis, under the supervision of Mr. Boys.

If this suggestion is approved, we will obtain from Prefabricated structures a tender on the building, and prior to March 31st, endeavour to secure tenders on erection, or otherwise make plans for erection on a day labour basis. If

Re: Fort Babine Indian Day School

Following receipt of Mr. Neary's Army Signals message with regard to acceptance of the National All-Steel Buildings' tender on construction of the above-mentioned School, the Company was advised but informed us that they could not possibly undertake construction at this late date, which attitude, I might mention, we anticipated would be taken. It is now of course too late to consider construction by any other means and there would appear to be no alternative but to leave construction of the Fort Babine School until next year.

In a separate communication I am writing to you with regard to prefabricated school buildings and feel that, in view of our experience this year in the matter of the construction of schools by contract, using standard methods, we should seriously consider the use of prefabricated buildings.

MEMORANDUM

November 9, 1949.

Re: Fort Babine Indian Day School

It will be noted that the new submission of the Maple Leaf Distributors Limited for the supply of a quonset type school for the above mentioned is completely different from the original plan. The reason for this is that the Company feels that this new plan is much more suitable than the original design and I am in complete agreement. The increase in cost is not altogether due to the change in design. Increases in cost of steel and freight rates are also contributing factors. The price of steel, I am informed by the representative of the Maple Leaf Distributors has increased 12% and freight rates 8%.

It will be recalled that we are using the original Fort Babine design at Ucluelet and although this building is not at present completed the faults in the plan are now becoming evident. There is only one means of egress from the two classrooms which is considered a fire hazard. The lighting in the main corridor between the two classrooms is inadequate. The general appearance of the building is not in its favour. The new submission overcomes the first two mentioned difficulties and will provide a much more attractive structure. Since visiting the Provincial school at Alexandria, which is based on similar design, I am convinced that the natural lighting in the classrooms will be much superior to the Ucluelet building.

Re: Fort Babine Indian Day School

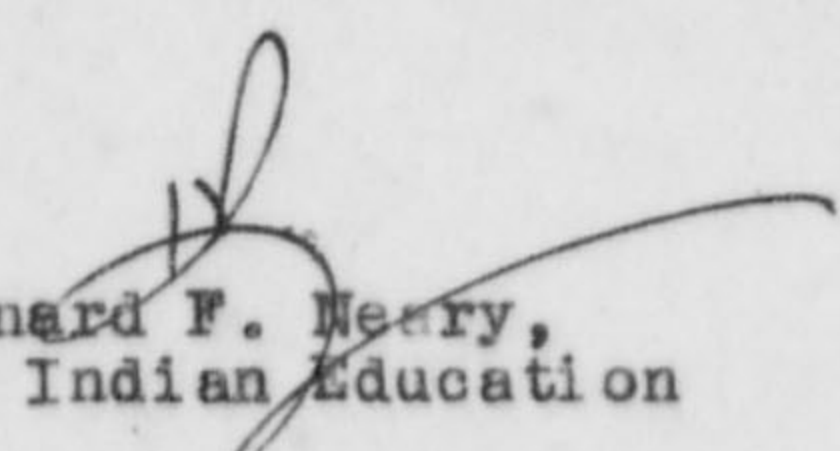

Reference your 1-11-3 (151) of October 18th.

By now you will have received my army message of October 22nd concerning this school. I would recommend that it be considered a separate item from other two-room schools in Mr. Anfield's superintendency, because we already have an Order-in-Council covering its erection.

I am sending you a copy of this Order-in-Council, so that you will be entirely clear as to the responsibility of the National All-Steel Buildings, Limited.

As I indicated in my army message, I would appreciate hearing from you as to whether it will be possible for National All-Steel Buildings to provide this building now and to have it erected next spring. This, of course, brings up many problems as to storage, either in Vancouver or in the Babine district.

If the Maple Leaf Construction Company does not agree to provide the building now, then we will have to seek cancellation of this Order-in-Council.

Subject: Quonset 25' x 72' - two roomed School with Attached 24'x 25'
Teacherage for Fort Babene Indian Reserve.

Dear Sirs:

In response to a verbal request from your office, we are pleased to submit the enclosed plan and specifications for the two roomed school and teacherage as outlined above.

Our firm price is \$31,970.00, subject to the contract being signed by May 15, 1950 so that the school could be constructed during the months of June and July, 1950, and subject to present freight and labor rates.

The material less freight, fares, lodging and labor would cost \$16,000.00 and we would be pleased to co-operate in any way possible regarding the purchase of materials this year with the actual erection taking place next year.

We hope that this quotation will meet with your approval and should any additional information be required please do not hesitate to call on us.

Re: Fort Babine Indian Day School
Your File 808-5 (E)

I have to refer to Colonel Neary's letter of October 24th, wherein it is suggested that, in order to take advantage of the Order-in-Council already secured, National All-Steel Buildings provide the building now and have it erected next spring. We have endeavoured to reach an arrangement with the Maple Leaf Construction Company in this connection, not only to avoid the necessity of having the Order-in-Council cancelled, but to take advantage of the funds available this year.

Since the Company first tendered on this school construction project steel prices have increased 12% and freight rates, 8% and the Company find themselves in the position of being unable to supply the building quoted upon at the price mentioned in the Order-in-Council. They have, therefore, submitted a new tender dated November 9th, which is attached hereto, covering revised specifications and plans, a copy of which is being forwarded to you under separate cover. You will note that their firm price is \$31,970.00 subject to the contract being signed by May 15th, 1950, so that the school could be constructed during the months of June and July. The material costs for this particular building are estimated at \$16,000.00 and, reference their tender, the Company are prepared to cooperate in any way possible to effect purchase of the materials this year with the actual erection taking place next year.

It is difficult to see how this can be arranged, as the Company cannot provide storage in Vancouver and there are no storage facilities at Burns Lake or Fort Babine. The only suggestion I can make is that a further submission be made to Council for acceptance of this new tender, on the understanding that the Company will secure and bill us for the full value of the materials prior to March 31st, payment to be made to them up to 90% of the value of the materials by means of a Progress Payment as

normally provided for in construction contracts. This will enable us to take advantage of the funds available this year and will reduce the expenditure required from next year's appropriation to \$15,970.00.

For your further information a memorandum dated November 9th, from District School Inspector Davey, with regard to the improved design of the building, is attached. I might also mention that the Company are prepared to carry out the minor changes suggested by Mr. Davey without extra cost and will, in addition, increase the size of the basement as shown on the plan to include the unexcavated area between the front steps and the furnace room as shown, to provide space for fuel storage.

Re: Fort Babine School Construction

With reference to Mr. Neary's Army Signals of February 23rd, I would recommend that Order-in-Council P.C. 4186 awarding a contract to the Maple Leaf Distributors Limited for the erection of a Quonset school at Fort Babine be cancelled for the reason that the Company, reference their letter of September 9th, was unable to accept the contract at that time and also because we are not entirely satisfied with the Quonset building erected for use as a school at Ucluelet.

In a separate letter recently I recommended the immediate purchase of a two room prefabricated school with teacherage for erection at Fort Babine during the coming fiscal year.

Col. Neary,-

The enclosed is returned to you. I have discussed the matter with Mr. Cory who informs me that a Submission to Council to rescind P. C. 4186 is not necessary at this time.

When you decide on what means will be taken to construct the Babine Day School and Teacherage, a Submission to Council will be necessary containing whatever recommendations you intend to make, and when this is done the Submission can contain a request that P. C. 4186 be rescinded. Even this is not actually necessary, Mr. Cory stated, but for the records of the Privy Council would be advisable.

The above information was secured at the request of the Director.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT the Indian Affairs Branch of the Department of Citizenship and Immigration has provided in its Education Vote, 1950-51 Estimates, a sum for the construction of a two-room Indian day school and attached teachers' residence on the Fort Babine Indian Reserve in the Babine Indian Agency, Province of British Columbia;

THAT tenders were called for last year in accordance with the provisions of the Public Works Act;

THAT Order-in-Council P.C. 4186 of 24 August, 1949, authorized the acceptance of the tender of National All-Steel Buildings, Limited, Vancouver, British Columbia, for the erection of a Quonset type two-room school and teachers' residence on this reserve in an amount of \$22,825.00 which with contingencies might amount to \$25,000.00;

THAT this company was unable to accept the contract due to the possibility of an early freeze-up;

THAT our officials have recommended the purchase instead, of a prefabricated two-room school and attached teacherage from Prefabricated Structures, Limited, Post Office Box 489, Vancouver, British Columbia;

THAT this company has agreed to provide such a school for the sum of \$10,475.00 f.o.b. Vancouver, plus additional charges for freight, erection supervisor's wages, fare and expenses, the total amount of such charges being estimated at approximately \$4,500.00.

The undersigned, therefore, recommends that authority be granted to expend a sum not exceeding \$15,000.00 in purchasing from Prefabricated Structures, Limited, Post Office Box 489, Vancouver, British Columbia, a two-room Indian day school with attached teachers' residence, laid down on the Fort Babine Indian Reserve in the Province of British Columbia.

Respectfully submitted,

Minister of Citizenship and Immigration.

Memorandum:DEPUTY MINISTERFort Babine Indian Day School.

Please find attached a Submission to Council recommending the rescinding of P.C. 4186 of 24 August, 1949, and the purchase of a prefabricated school for this reserve.

This Order-in-Council authorized the acceptance of a tender received from National All-Steel Buildings, Limited, 1768 Hastings Street East, Vancouver, British Columbia, for the erection of a two-room school and teacherage on the Fort Babine Indian Reserve, British Columbia, in the firm amount of \$22,825.00.

When this company was advised that their tender had been accepted they replied that they were unable to accept the contract at this time. You will note their attached letter stating that acceptance was to be made by the end of July, 1949. This is an error on the part of the company as their tender specifically stated acceptance by August, 1949, (see tender attached). I also attach copy of the letters sent by the Superintendent of Education concerning this matter, on September 19, and October 24, 1949.

After further correspondence we have received a recommendation from Mr. Indian Commissioner Arneil, reading as follows:

"With reference to Mr. Neary's Army Signals of February 23rd, I would recommend that Order-in-Council P.C. 4186 awarding a contract to the Maple Leaf Distributors

"In a separate letter recently I recommended the immediate purchase of a two room prefabricated school with teacherage for erection at Fort Babine during the coming fiscal year".

You have already been sent the pictures and descriptions of the prefabricated schools which we have purchased previously from Prefabricated Structures Limited, Post Office Box 489, Vancouver, B. C. I would concur in Mr. Arneil's recommendation that a similar school be purchased for the Fort Babine Indian Reserve.

Dear Sir:

With reference to your letter of the 3rd of September advising us that our tender for the Fort Babine Indian School had been accepted, we regret that due to the early freezing in that area, we are unable to accept the contract at this time. Our tender stated that acceptance must be made by the end of July, 1949.

National All-Steel Buildings, Limited has been bought out by Maple Leaf Distributors Limited, who have Maple Leaf Construction Company, Ltd. as a subsidiary Company.

On behalf of the new company, the writer will be pleased to give a new tender early next year for the Fort Babine School.

We will also be pleased to tender on any other type of construction should we be unable to fulfill your needs with our Quonset buildings.

We regret that we are unable to provide you with the urgently required school at this time, but hope that we will have the pleasure of serving you next year,

By now you will have received my army message of October 22nd concerning this school. I would recommend that it be considered a separate item from other two-room schools in Mr. Anfield's superintendency, because we already have an Order-in-Council covering its erection.

I am sending you a copy of this Order-in-Council, so that you will be entirely clear as to the responsibility of the National All-Steel Buildings, Limited.

As I indicated in my army message, I would appreciate hearing from you as to whether it will be possible for National All-Steel Buildings to provide this building now and to have it erected next spring. This, of course, brings up many problems as to storage, either in Vancouver or in the Babine district.

If the Maple Leaf Construction Company does not agree to provide the building now, then we will have to seek cancellation of this Order-in-Council.

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 12 April, 1950.

The Committee of the Privy Council have had before
them a report dated 31st March, 1950, from the Minister of
Citizenship and Immigration, representing:

THAT the Indian Affairs Branch of the Department of
Citizenship and Immigration has provided in its Education Vote,
1950-51 Estimates, a sum for the construction of a two-room
Indian day school and attached teachers' residence on the
Fort Babine Indian Reserve in the Babine Indian Agency,
Province of British Columbia;

THAT tenders were called for last year in accordance
with the provisions of the Public Works Act and Order in
Council P.C. 4186 of 24th August, 1949, authorized the acceptance
of the tender of National All-Steel Buildings, Limited, Vancouver,
British Columbia, for the erection of a Quonset type two-room
school and teachers' residence on this reserve in an amount
of \$22,825.00 which with contingencies might amount to \$25,000.00;

THAT this company was unable to accept the contract
due to the possibility of an early freeze-up;

THAT officials of the Department have recommended
the purchase instead, of a prefabricated two-room school and
attached teacherage from Prefabricated Structures, Limited,
Post Office Box 489, Vancouver, British Columbia;

The Committee, therefor, on the recommendation of
the Minister of Citizenship and Immigration, advise that authority
be granted to purchase such a school, laid down on the Fort
Babine Indian Reserve, British Columbia, from Prefabricated
Structures, Limited, for the sum of \$10,475.00 f.o.b. Vancouver,
plus additional charges for freight, erection supervisor's wages
fare and expenses, the total amount of such charges being
estimated at approximately \$4,500.00.

DEPUTY MINISTER

Fort Babine Indian Day School.

Please find attached a Submission to Council recommending the rescinding of P.C. 4186 of 24 August, 1949, and the purchase of a prefabricated school for this reserve.

This Order-in-Council authorized the acceptance of a tender received from National All-Steel Buildings, Limited, 1768 Hastings Street East, Vancouver, British Columbia, for the erection of a two-room school and teacherage on the Fort Babine Indian Reserve, British Columbia, in the firm amount of \$22,825.00.

When this company was advised that their tender had been accepted they replied that they were unable to accept the contract at this time. You will note their attached letter stating that acceptance was to be made by the end of July, 1949. This is an error on the part of the company as their tender specifically stated acceptance by August, 1949, (see tender attached). I also attach copy of the letters sent by the Superintendent of Education concerning this matter, on September 19, and October 24, 1949.

After further correspondence we have received a recommendation from Mr. Indian Commissioner Arneil, reading as follows:

"With reference to Mr. Neary's Army Signals of February 23rd, I would recommend that Order-in-Council P.C. 4186 awarding a contract to the Maple Leaf Distributors

Limited for the erection of a Quonset school at Fort Babine. be cancelled for the reason that the Company, reference their letter of September 9th, was unable to accept the contract at that time and also because we are not entirely satisfied with the Quonset building erected for use as a school at Ucluelet.

"In a separate letter recently I recommended the immediate purchase of a two room prefabricated school with teacherage for erection at Fort Babine during the coming fiscal year".

You have already been sent the pictures and descriptions of the prefabricated schools which we have purchased previously from Prefabricated Structures Limited, Post Office Box 489, Vancouver, B. C. I would concur in Mr. Arneil's recommendation that a similar school be purchased for the Fort Babine Indian Reserve.

The Committee of the Privy Council have
had before them a report, dated 12th August, 1949, from
the Minister of Mines and Resources, representing:

That the Indian Affairs Branch of the Department of Mines and Resources has provided for the construction of a two-room Indian Day School and attached teachers' residence on the Fort Babine Indian Reserve, in the Babine Indian Agency, Province of British Columbia, for the education of the Indian children living there;

That, in accordance with the provisions of the Public Works Act, tenders have been advertised for in local and trade newspapers and the following single tender received:

Precision Housing, Limited,
Ft. McLean Drive, Vancouver, B.C.....\$67,391.00

That this company is also prepared to supply and erect this building on a cost plus 15% basis;

That officials of the Department feel that this tender is too high for the erection of a two-room and teacherage, even on such an isolated reserve;

That Departmental officials have, therefore, approached National All-Steel Buildings, Limited, 1768 Hastings Street East, Vancouver, British Columbia, with the request that they tender on a Quonset type school for this reserve;

That such Quonset type schools are being erected by provincial departments of Education and local school boards for white children where standard school building costs are felt to be too high;

That National All-Steel Buildings Limited has submitted a tender for a Quonset type school with two classrooms and a teacherage on the Fort Babine Indian Reserve in the firm amount of \$22,825.00;

That Departmental officials have examined the plans and specifications for this Quonset type school and recommend the acceptance of the tender of National All-Steel Buildings Limited, of Vancouver, B.C., in view of the fact that it is only one third the amount required for a school of standard construction and should provide a satisfactory school for these children;

That funds are available for this purpose in Vote 230, 1949-50, Indian Affairs Branch, Department of Mines and Resources.

Indian Affairs Branch, Department of Mines & Resources,
Ottawa, Ontario.

I enclose herewith Requisition received
from Mr. Indian Agent Mallinson for Manual Training
Tools and material for the Fort Babine Indian Day
School.

Quotations obtained on the tools in Vancouver
indicate that the approximate cost will be \$36.00
depending on the items available from stock when the
order is placed, and from the factory within a reasonable
time. Lumber required will cost \$9.00 at Fort Babine,
and I would recommend that an expenditure of \$45.00 be
authorized for this purpose.

Re Moricetown Indian Day School

Kindly refer to your letter file 1-11-1 of 27th September 1947, authorizing employment of Mr. M. Buddrus as manual training instructor of this school at the rate of \$8.00 per week. I omitted to ask renewal for the 1948/49 school year and Mr. Buddrus taking it for granted that such an arrangement still existed has been teaching ten senior pupils manual training. In the hope that the arrangement may be authorized for this year a voucher is enclosed for payment to Mr. Buddrus for his services during the period 7th September to 17th December.

Mr. Buddrus also informs me that he requires a few additional tools for this class, namely three heavy jack knives for carving and a small block plane with 1½" blade. Would you kindly arrange to have these items sent from Vancouver in my care.

Re: Mr. Max Buddrus -

Moricetown Indian Day School
Your File 151-22-11 (WT.1)

With reference to your letter of September 4th, 1947, authorizing the employment of the above-named at a rate of \$8.00 per week, I would draw your attention to the last paragraph of my letter of August 14th, 1947, in which I stated that services of the above-named would terminate at the end of the 1947-48 academic year. In this connection, I am forwarding Superintendent Boys' letter of January 30th, 1949, requesting authority for renewal of Mr. Buddrus' services during the 1948-49 academic year and I would so recommend. You will note that Mr. Davey has concurred with Mr. Boys' request.

Babine Agency Voucher No.95, in the amount of \$120.00, covering Mr. Buddrus' salary from September 7th to December 17th, 1948, is enclosed and I would recommend payment.

The items referred to in the last paragraph of Mr. Boys' letter, are being ordered by this Office.

Re: Fort Babine Indian Day School
Manual Training Supplies

Attached is a requisition from the teacher at the above mentioned school for manual training supplies, the cost of which would amount to approximately \$90.00.

It is recommended that the Department authorize the purchase of this material and equipment.

It will be noted that the teacher has included on this requisition two books which should have been placed upon the normal book requisition. It is thought that the titles intended are:

- (1) Square Knot, Tanning, Fringe and Needle Work
- (2) Working in Leather

Both of these titles appear in copies of the Indian School Bulletin. It will be appreciated if these can be forwarded to the teacher concerned.

My dear Mr. Lorenz,-

Aiyansh, 70 miles up the Naas River in a rich agricultural valley, is another place where I should like the Day School strengthened by the application of the Hon. Mr. Oliver's new policy. The Aiyansh Indians are willing to set apart a small reserve of 170 acres for school purposes if something could be done to teach them farming. Here again the need is for an increased grant. The time is past to expect to take missionary money to teach farming. Our Church will most heartily co-operate with the Government.

ADDRESS REPLY TO THE
SECRETARY DEPT. OF INDIAN AFFAIRS
OTTAWA.

Ottawa, February 15th., 1909.

Right Reverend Sir,-

The Department was furnished some time ago by Mr. Supt. Vowell with a copy of your letter to Mr. Agent Lorens regarding the possibility of affording better educational facilities for the Indians of the North West Agency B.C. In your communication you suggested the improvement of the Day School on the Aiyanish Reserve and stated that the Indians were willing to set apart 170 acres of their Reserve for school purposes if something could be done to teach them farming. The Department will be willing to carry out a plan for extending the usefulness of the day schools when it is assured that the time is ripe and the conditions favorable for doing so. Full information should be forthcoming as to whether there would be a sufficient number of children permanently on the Reserve to justify the expenditure of the amount necessary to properly conduct a new type of school.

When this fact is established there is still the question of securing the services of a teacher with the necessary qualifications to carry on such a school, and the Department would like you to suggest the name of a

Married man for Teacher, whose wife would be able to assist in carrying out the scheme, which includes improvements in the domestic habits of the women on the Reserve; the aim being to educate the Indian children amid their native surroundings and while inculcating principles of thrift and self dependence to improve at the same time the conditions of life in their homes. It need hardly be pointed out that the success of the proposed plan depends largely on the persons selected to inaugurate it; they should be capable beyond all doubt of carrying on the work in which they are to be engaged. The Department is of the opinion that only such persons as are well versed in the usages of the country and have the welfare and improvement of the Indian at heart should be employed in this work.

May I ask that you will give this matter careful consideration and report to the Department at your early convenience, for it would be advisable to have the new arrangements made at an early date so that any field or garden work may be taken up in good time. Would you also be so kind as to state what would be considered a fair salary for this service.

In your letter you also mention Massett as being a suitable place for improving the Day School, and as the Department's remarks with reference to a suitable teacher, &c. for Aiyanish apply equally to this locality, we would be glad

Sir,-

Absence from the mainland at Massett, B.C.I. has delayed my answering your letters of Feb 13 and 19, No 67,340-1, and 125,342-1 which awaited my return.

I take these letters as asking for my candid opinion upon what we all feel to be a most difficult problem. Let me say first that I am most anxious to assist the Department in every possible way in carrying out their new policy of improved Day Schools. I have thought the matter over long and carefully and discussed it with some of our missionaries. I am quite willing to sacrifice denominational pride for the best interests of the Indians. Allow me to express my views freely in hope of helping the cause.

1. No one policy will suit all parts of Canada. It is necessary to modify a general policy according to local conditions. The policy of an improved day school as outlined by the Department seems to suggest the Prairies rather than British Columbia.

2. Speaking for the Church of England in Northern British Columbia let me try and explain the local conditions.

We began Christian work among the Coast Indians over fifty years ago. Our 2,300 Christianized Indians have their homes in villages, most of them live in modern houses, dress well &c. In almost every village there is a clergyman and his wife and family. The clergyman is practically a doctor.

Without

Indian Affairs. (RG 10, Volume 6390, File 810-1, part 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

Without any remuneration he is constantly tending the sick, gives practical advice, tells them the danger of evil germs, urges them to keep their houses clean, his wife (like Mrs. Collison of Kincolith) is constantly giving the women hints in domestic matters, there is a day school in the village, usually taught by a white woman, a single lady who lives with the missionary and his wife. It would be impossible for a single lady to live elsewhere in the village. The cost of reaching these villages up the rivers &c is considerable. The freight on food &c. is excessive, and yet the Department only allows \$300.00 a year, subject to reduction, to keep up this Day School, pay travelling expenses and teacher's salary. I have inspected the Day Schools at Metlacatla, Kitkatla, Massett, Kincolith, Lakkalzap, Aiyansh, Gitwagak, Hazelton &c. and found, not as I have found east of the Rockies, three or four children in a school, but from fifteen to forty five. The younger generation of our Indians have all passed through these Day Schools and the result is far beyond what the Department could possibly expect from such inadequate support. I have heard a young Indian man read the lessons in Church in English better than many white men could and yet he had had no other education than that obtained at the village day school. Viewed in the light of relative expenditure I have no hesitation in saying that there has been far greater returns from the Day School than the so called Industrial School which on the per capita ^{grant} system could not afford to keep first class trades instructors. It is on this ground that I appeal to the Department to use some of the money saved from the closing of our Metlacatle Industrial School and strengthen these Day Schools which under great disadvantages have accomplished so much good.

It seems

Indian Affairs. (RG 10, Volume 6390, File 810-1, part 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

It seems invidious for me to name two of these Day Schools and leave the others out. I mentioned Massett because it is the largest Day School, 50 on the roll, and the place is 80 miles from the mainland, and Aiyansh because a school midway between Aiyansh and Gitlakdamiks would answer both villages and give a good number of children but all these Day Schools should be considered and an increased grant made.

Accepting the policy of the improved Day School and applying it to our local conditions here what are the modifications necessary?

From the description given of our villages it will be seen that a nurse is scarcely needed. Some one should have authority to inspect the Indian houses and order a thorough disinfecting once or twice a ~~month~~ year.

Except in the case of a school midway between Aiyansh and Gitladamiks a mid-day meal does not seem necessary. Many of our Indians are adopting our food. They all have kitchen stoves. They know how to cook. They are not in want. It is mistaken policy for the Government to relieve the parents ^{from} ~~of the~~ duty of providing for their children.

In regard to industrial training, very few of the children attending day school are old enough to profit from a course of industrial training.

The very best thing the Government could do for our Indians is to employ a first class carpenter and boat-builder and have him visit our villages in turn forming classes of young men from 16 up. Most of our Indians are very quick with tools, the Massett men build fine schooners. A skilled white man could teach them much that would be most useful in a short course. It would not be necessary to visit each village

village each year.

Let me now mention the one great difficulty in the way of making the Day School meet the need of the ordinary Indian child. Absence from home at certain seasons. If our Indians lived all the year round in their villages there would be no need whatever for Boarding Schools or Industrial Schools except one central undenominational one for a few of the most promising and perfectly sound children, but this is not the case. The cannery season from June 15 to Sept. 1st. does not seriously interfere as most of this is vacation time, but in most of our villages there is another season which comes in March or April when the parents go off and take their children. They would gladly leave them behind them if we could in any way house and feed them for a few weeks. I have thought much over this and talked it over with our leading missionaries. They all agree that this is the problem.

Meet this difficulty and the Day School is all that the ordinary child needs, and the parents will not feel the separation as in the case of a distant Boarding School. "My child might as well be dead" said one mother bitterly when she found she could not get her child back for eight years.

In some cases only a few of the people go away at one time. If we had a man and his wife in charge, a tent that would hold a dozen children, with blankets &c might meet the need. I think the parents would be willing to provide food for their children during their absence. Our Missionaries are willing to co-operate as they see the importance of keeping the children at school. The difficulty is that an equipment is needed for a short time.

To come to details. Masett has 50 children on the roll.

If anythin

If anything in the way of an improved Day School is attempted, this school should stand first. If the Department takes up the proposal to have a joint school midway between Aiyansh and Gitladamiks, giving a midday meal I understand that the Aiyansh people will give 1 and 1/2 acres, and Gitladamiks the same on the boundary. There is a good road winter and summer. Distance from each village about one mile. As the Department has promised new school houses there should be economy in combining buildings, salaries &c.

As to Hazelton we have a splendid teacher there, Miss Soal, who also is a deaconess and visits the native people in their homes. I have heard that the Methodists are pressing for a Boarding School there. The Church of England has in Hazelton and neighbourhood about 600 Indians, the Methodists none in Hazelton but in the vicinity (10 miles north and 10 miles south) about 270, the Salvation Army a few dozen, the Roman Catholics have a village 3 or 4 miles away.

Plainly the only way to have a successful Boarding School is for us all to unite upon an undenominational school with the privilege of giving religious instruction to our own flock. So far as our Indians in Hazelton are concerned an improved day school on the line indicated would, I think, meet the need. Why should the Government take children away from their parents and clothe and feed them, when these parents live in good houses, earn good wages &c.?

As I have already pointed out travelling expenses are high, the cost of living much greater than in the East, it is necessary to offer a man and his wife a good salary

to make it worth their while to go to an out of the way place and live among Indians. I earnestly trust that the Department will recognize the fact that the Day Schools cannot be made efficient on \$300.00 a year. Until I know how much the salary is to be I cannot very well secure capable teachers but I shall be looking out for such.

I have the honor to report that when visiting the Naas on a trip of inspection in April, I did not go up to "Aiyansh" School, as I met the teacher, Mr. Priestly, who had come down the river with his wife who was sick, on his way to Port Simpson Hospital, where she could obtain treatment. He informed me the school would be closed for a month.

The "Kitla-damex" School, Naas River was also closed, as Mr. George, the teacher, left the school last fall, and they had failed to secure another teacher, so I did not therefore visit the school.

MEMORANDUM.

Mr. Scott,-

With reference to the personal request made to you by two of the Nass Indians, who were here today, for compensation for an Indian who is said to have conducted school at Aiyansh for short periods during the years 1913-14 and 1914-15 I beg to say that the Aiyansh School was closed at the end of the March quarter, 1911. No returns have been received since then until the December quarter, 1915.

Mr. Inspector Tyson in his report on the schools in the Nass Agency for the year 1914 states as follows,-
"At Aiyansh and Gitladamicks conditions are very unsatisfactory. The new schools which were to be erected at these places have, as yet, not been built, owing to the fact that the Indians want industrial schools established in place of the ordinary day schools, and although part of the lumber and other materials have been provided for the new schools work has not been commenced." Again, when he visited the schools with the Royal Commission, in speaking of Aiyansh he states that "visited the 9th of October. School has been conducted here by an Indian named Mercer, who

who receives a small remuneration from the Indian people. They are, however, very anxious to have a qualified teacher appointed and ask that if it is possible to have one sent in at once, arrangements will be made to secure a temporary school building."

Judging by Mr. Tyson's report there was no school conducted during the year 1913-14, but you will see from his second report that an Indian named Mercer had been conducting a school there and received a small remuneration from the Indians. This Indian never received any authority to open the school from the Department and no returns were sent in and the Department had no knowledge of it until Mr. Tyson's report was received in November of last year. As the school was apparently not in operation no notice was taken of this report. The Department does not know how much the Indians paid Mr. Mercer, what benefit the children received from his teaching or how long he conducted the school and the only way to find out would be to obtain a report from Mr. Agent Perry.

We have no reports from either the Agent or the School Inspector regarding this school since it was closed. Rev. Mr. Green, late School Inspector, visited Aiyanah in May, 1912, in company with Agent Perry, and found the school closed and he recommended that it be not re-opened until there was a proper understanding with the Indians in regard

regard to school matters and until the church authorities obtained a qualified and suitable teacher approved by the Department.

Nothing was done about re-opening the school until late last fall, when Miss Vera A. Chasteney was appointed teacher. The school was again opened at the end of December, last.

Sir,-

I beg to inform you that Duncan C. Scott, Esq., Deputy Superintendent General of Indian Affairs, after a full discussion of school matters on the Nass River, has given authority to make appointments of teachers to take the places of the Misses Chastenay and Bowen, of Aiyansh and Gitlakdamiks, respectively, and Miss Freeman, of Gwinoha, who has resigned. The two first named teachers have been given a month's notice to vacate their school.

Consent has also been given to discontinue the Field Matroncy at Gwinoha and to the appointment of a male teacher who will be able to minister to the needs of the small Gwinoha population, so that it will be no longer necessary to have a second person appointed simply for company for the teacher.

I would inform you that in accordance with instructions of the Deputy Superintendent General I have taken steps to have suitable appointments made jointly by the School Inspector and Inspector of Agencies, at Vancouver, who will have any assistance I can give.

I trust that the steps proposed to be made will have the effect of producing more efficient and effective work, and that the schools of these villages will be in operation under good teachers when the Fall session commences.

The Acting Deputy Superintendent General.-

Regarding the dismissal of Miss Chasteney, teacher of the Aiyansh Indian School, Nass River, by Mr. Inspector Tyson, as stated in her letter of the 5th instant, I beg to say that this is the first intimation the Department has received that Miss Chasteney's services have been dispensed with and there is nothing on file to show that Mr. Tyson consulted the Department before dismissing her.

The school was opened in December, last, and the only reports received are two from Mr. Agent Perry for the months of April and May, last. In the April report he states that the school is being conducted with apparently satisfactory results. There is nothing to show, however, that he visited the school since it has been opened. In the May report he states that the children are all leaving for the canneries at Port Nelson and that Miss Chasteney is taking her holidays during the months of July and August, as he had been unable to arrange with the cannery management to have a summer school there.

In this report he calls attention to the friction which

which exists between the field matron and the two young teachers. He says that Miss Royds, the field matron, is doing well at Aiyansh and her work is fully appreciated by the Indians. It has been reported to him that the school is often closed when it should be open. The teacher and matron are living apart and there is no co-operation that would have a tendency to make the work of the school effective. He thinks that the trouble lies in the fact that the teacher, who is young and just from the Normal School, together with Miss Bowen, who is also a young girl straight from Normal School, looked to Miss Royds to do all the housework, cooking, etc., and were unwilling to do their share in the housework and other domestic duties. Instead of getting Indian help they quarrelled and separated. The Indians are ready to see that friction exists and the effect is not good from any point of view. He recommends the appointment of a more experienced and older person to take charge after the vacation, if one can be secured.

Possibly Mr. Inspector Tyson had received a similar report and acted on it. Apparently Miss Chastenev was not suitable for the position and the interests of the school called for the appointment of another teacher.

Her services practically ceased on the 30th of June and Mr. Tyson's notice of dismissal was to take effect on the 31st of July. This is giving her one month's notice, which is all that is required, while she claims that she should be paid until the end of August.

Dear Sir:-

You will remember my name in connection with the Aiyemsh Indian School, Naas River, where I have been in charge since the opening of the school in December last. As you know, I started under great disadvantage owing to the desertion of the person who was sent up as field matron, thus leaving me the house duties as well as my school work, in the severity of a northern winter. However, I did my best and fulfilled my school duties conscientiously and I believe, very successfully. I had many expressions of satisfaction and gratitude from the Natives.

It was arranged by Agent Perry, Metlakatla, that I take as my holiday the months July and August. In arriving in Vancouver I was requested to call at Mr. Tyson's office, where I

Indian Affairs. (RG 10, Volume 6390, File 810-1, part 1)

was handed a notice signed by Mr. Tyson, dated July 3rd. saying that my services would not be required after July 31st, giving no reason for my dismissal. I believe under school law that I am entitled to an inspection, which I have not had, also to a full month's notice from the first of the month. I therefore consider that I am entitled to my salary until the end of August and above all a reason for my dismissal, if this crude notice is official.

I have been unable to send in my report for the June quarter, having no report forms, for which I have asked Agent Perry repeatedly during the past seven weeks. I understand that the forms are essential to acceptance.

My cheque for the March quarter which I ^{report} received late in June in spite of the fact that the ^{report} left Aiyansh promptly at the close of the quarter, did not include the Physical Drill Bonus to which I am entitled under Athlona Trust. This also I have mentioned to Mr. Perry

but have received no reply whatever, either to this or to my request for report forms.

I am sorry to trouble you personally with this but will you kindly take the matter up and see what can be done. I feel particularly hurt and discouraged at such neglect and bad treatment after putting my best efforts against such odds into my school work, single handed, with forty-eight pupils.

Trusting you will give this your immediate attention,

I have the honor to transmit herewith the returns of the Aliyansh Indian Day School, Nass River, for the June quarter, 1917.

I beg to report also that Miss Hayes has tendered her resignation, giving as her reason that the school is too far away from her home. It will be remembered that the last teacher appointed to this school was just from Normal School. Miss Hayes is young and I can quite understand the position. I think it is not wise to have young girls go to these places.

I would here mention that Rev. Walter Rushbrook and Rev. Mr. Gillatt, both of the Church of England, have recommended to me a very refined and capable lady teacher (married)-a Mrs Bromley. She has a State certificate which is said to be equivalent to a B.C. Certificate. I have interviewed this lady and think she will be willing to go there. Her husband is not strong, and he would go with her. He cannot do much work and Mrs Bromley is earning for both. If appointed for Aliyansh, I think Mrs. Bromley would do well.

Miss Hayes asks for holiday salary. Please advise me as to this.

I have the honor to be,

Sir,

Your obedient servant

Sir,-

I have to acknowledge the receipt of your letter of the 11th ultimo transmitting returns from the Aiyansh Indian Day school for the June quarter, last, and stating that Miss Hayes has tendered her resignation and that the Rev. Walter Rushbrook and Rev. Mr. Gillatt have recommended to you a very refined and capable lady teacher, a Mrs. Bromley, for this school.

In reply I beg to say that Miss Hayes' resignation is accepted.

In reference to your remarks that Miss Hayes asks for holiday salary I beg to say that there is no balance of salary due her. She commenced her duties at this school on the 1st of October, 1916, and was allowed a salary at the rate of \$75.00 a month. She taught this school for nine months and was paid nine months salary or \$675.00.

In view of your remarks the Department will approve of the appointment of Mrs. Bromley as teacher of this school and she will be allowed a salary at the rate of \$75.00 a month for the ten teaching months. She should begin her duties when the school re-opens after the summer holidays.

Sir,

I have the honor to transmit to you for your perusal a letter received from Mrs Bromley, an applicant for a vacant school in my agency. Mrs Bromley has been strongly recommended by some of the clergy of the Church of England in this Diocese.

Miss Hayes, Indian day school teacher at Aiyansh, Nass River, having resigned; I have appointed Mrs Bromley to the Aiyansh school, subject to the Department's approval.

I would inform you that I have met Mrs Bromley, and consider her to be just the person to fill the vacancy at Aiyansh, more particularly because, in addition to her teaching qualifications, she is a member of the Church of England, and also that she has a fine physique and commanding, yet pleasing, personality. Mrs Bromley's husband is not strong and does not work. He would accompany Mrs Bromley and would be company as well as a protector for her in that remote settlement.

I will be glad to have your approval of this appointment at your earliest convenience. Mrs. Bromley will not accept any other position until she hears from me.

SCHOOLS BRANCH
NOV 20 1917

Sir;

Miss Lydia Hayes taught the Day School at Aiyansh on the Skeena River from October the 1st. 1916 to June 30th. 1917. Had Miss Hayes taught a Public School in the Province of B.C. for that time she would have received salary for the month of July. The School Law provides for that.

Through some misunderstanding she has been notified by the Indian Agent, Mr. C. C. Perry, that she is not to be paid for the holidays.

In all fairness, she is entitled to pay, at least, for the month of July. Therefore, I recommend that she be paid the sum of \$75.00. I think she would be satisfied with this.

Had she taught ten months she would have had two months holidays for which she would have received pay. According to that way of looking at it she is entitled to nine tenths of \$150.00 for the holidays.

Sir;

I beg leave to acknowledge the receipt of your letter of October the 12th. no. 299590/1.

Concerning the salary which the teachers at Gwinoha, Aiyansh, and Gitlakdamiks were to receive, there is, it seems, some misunderstanding.

These teachers were appointed in response to a letter from D.C. Scott, Esq., Deputy Superintendent General of Indian Affairs.

Mr. A.M. Tyson, Inspector of Indian Agencies and I were authorized to confer and make the appointments. Nothing was said about the salary to be paid when we received our instructions.

Miss S. Sturges, teacher at Lakalzap, was appointed by us two years ago at a salary of \$75.00 per month, twelve months the year.

We naturally supposed the same salary would prevail for the upper ^has. These teachers have gone to work with that understanding. There will be much dissatisfaction if the holidays are cut off.

On my recent trip north, I was delayed at Skidegate waiting for a boat to carry me to the Mainland. I visited a Public School located at Sand-pit. The enrollment was sixteen and the salary \$90.00 per month for twelve months in the year. Our Provincial educational Dept. finds it impossible to get teachers for the isolated schools unless the salary is increased. The salaries for these small out-lying schools under the Public School system runs from \$80.00 to \$100.00 per month, twelve months in the year.

These teachers that have been sent north to the Nass River are all trained teachers, and would not have gone had we stated the salary was for ten month in the year

Ottawa, June 20, 1918.

Sir,-

Referring to official letter of the 12th of April, last, in which you were informed that the Department would accept the services of Mr. and Mrs. Gray as teacher and field matron for the Lakalsap Indian school after the return of the Indians to the reserve in September, next, I beg to say that since then the resignation of Mr. and Mrs. Oliver, who were teacher and matron respectively at Kitkatla, has been received, and Mr. Agent Fougner now recommends that the Rev. Walter A. Gray and his wife should be sent there to succeed Mr. and Mrs. Oliver. It is presumed that this is the Mr. Gray referred to in your letter of the 28th of March, last, and who was recommended by Bishop DuVernet for the Lakalsap school.

As it is not the wish of the Department to dispense with the services of Miss Sturges and Miss Capper, who hold the positions of teacher and field matron at Aiyansh, where there is at present no building available for school purposes, owing to the owner having decided to remove it, the Department agrees with you that it would be well to transfer them to Lakalsap, where there will be vacancies if the Grays are sent to Kitkatla, and Mr. Agent Fougner is being informed that the Grays may be placed in charge at Kitkatla, where they are anxious to go. He is being requested to advise you of their acceptance of these positions, at the same rate of salary as was paid the Olivers. As

Sir,-

I have to acknowledge the receipt of your letter of the 23rd ultimo enclosing the returns of the Lakalsap Day School for the month of October and those of Aiyansh for the months of November and December last.

In reply I beg to say that the salary of Miss Sturges was sent you by telegram on the 5th of December last covering the months of October, November, December and January 31st.

The Department is now forwarding under separate cover, a cheque for \$150.00, being the salary of Miss Sturges for the months of August and September last. As owing to the agreement made her salary is to be paid for a full year instead of for 10 teaching months. From the quarterly ^{returns} forwarded by you it is shown that Miss Sturges has only taught a period of 30 days since July last, namely, 15 days at Lakalsap during the month of October and 15 days after her transfer to Aiyansh during November and December.

It is recognized that Miss Sturges was put to considerable inconvenience on her way to Aiyansh and by the floods at that place after her arrival. It is hoped, however, that she and the matron are both comfortably settled and that the school will be kept open regularly each

4. Number and dates of holidays to be inserted in the column for remarks.
5. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be paid for.
6. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed.
7. No names other than those of Indian children are to be included in this Return.
8. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the Department through the Local Indian Agent or other authorized official.
9. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
10. The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.
11. No teacher's salary will be paid until this Return has been received by the Department.
12. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
13. The school must be opened and closed punctually at the hours approved of by the Department.
14. This form to be used for Day Schools only.

Dear Mr. Hanson:

I desire to refer further to your letter of
January 11 addressed to ~~the Honourable~~ the Minister
in connection with the erection of an Indian day
school near Aliyansh, B.C.

From information received from the Indian
Agent, I believe that you refer to what this Depart-
ment calls the Gitlakdamix Indian day school which is
approximately one mile from Aliyansh, B.C.

Provision has been made in the main estimates
for the fiscal year 1939-40 for a new building to
replace the present Gitlakdamix school and this building
will be erected during the coming summer.

Yours sincerely,

W.J.F. Pratt,

DEPUTY MINISTER

I desire to refer to Mr. Pratt's memorandum of March 3 and my reply of March 8 with reference to an inquiry received from Mr. Olof Hanson, M.P., in connection with the erection of a school at Aiyansh, B.C. On communicating with the Agent I find that Mr. Hanson refers to the Gitlakdamix school which is located approximately one mile from Aiyansh, B.C.

Provision has been made in the main estimates for the fiscal year 1939-40 for the erection of a new school to replace the present Gitlakdamix school.

I, therefore, enclose a draft reply to Mr. Hanson.

Under separate cover you are being forwarded a memorandum in connection with the erection of the Gitlakdamix school.

I have received a copy of a petition in connection with this matter from Chief Councillor Arthur Mercer of the Gitlakdamix Band of Indians at Aiyansh, B.C., which was forwarded to your Department by Major D. M. Mackay, O.B.E., Indian Commissioner for British Columbia.

They have requested me to support their petition or application, and if they have the number of children which the petition states they have I think that perhaps this is a subject which should be looked into and given consideration.

I trust that you will investigate and give me your findings, and thanking you in anticipation, I remain,

Sir, -

I have to acknowledge the receipt of your letter of the 9th instant, addressed to Mr. Benson, enclosing quarterly returns showing the period taught at the Underleaf Indian Day School during the quarters ending March 31st, 1919, and March 31st, 1920. In reply, I beg to inform you that Mr. Benson is not now in the service of the Department, having been superannuated two years ago.

We have no record of any authority having been granted you to conduct an Indian school at this point. You were informed on a previous occasion when you forwarded returns for a school which you conducted at Aiyansh during the years of 1913, '14 and '15 that the Department would not pay salary for any unauthorized work done by you. If you consider that you have any claim to be remunerated for your services, you should take the matter up with Mr. W. E. Collison, Indian Agent, Prince Rupert, B.C. The Department cannot, from the information on hand, pay you any salary for the above mentioned quarters.

The Honorable

The Superintendent General Of Indian Affairs,
Ottawa.

Sir:-

I have the honor to report that when I was on the Naas River inspecting the Schools, the Chiefs from the Kitlaoakmax Reserve requested me to attend a meeting of the people in their village in regard to a school for their children.

I reached Kitlaoakmax at 2:30 P.M. The Chiefs were gathered in the Chief's house and I listened to them for two hours. They referred to the letters and petition they had sent in some months ago praying for a school for their children. They explained that in past years they had opposed Schools and wished to be left to their old way of living. But that two years ago Mr. Superintendent Vowell and Mr. Indian Agent Morrow visited them and advised them to give up the Potlatch, Indian Dances, Whiskey making and all old Heathen customs; that they accepted the advice, gave up their practices and settled down to civilized life.

He also stated that the Superintendent and the Agent assured them that if they would do so, the Department would help them, and wish the Government now to give them a School for their children and they desire a white teacher to be engaged by, and under the control of the Department. I found that there were two children of school age in the village. I never saw them anxious for a School. They said they would give the land for a School House for the present if a teacher was engaged and that whenever the Department should consent for a school they would give all the work and make a good job of it if the Department would furnish the material. They are young progressive men and I am sure they mean

As these Indians acted so quickly on the advice given by

well, I respectfully but strongly recommend that a Day School
teacher, a male white, be given them.

Sir,-

I have the honor to enclose herewith two letters, each dated the 3rd instant, received from the Rev. A. E. Green, Inspector of Indian schools in British Columbia, in the matter of a request made of him by the Chiefs and people of the Kitlacadamax village for the erection and equipment of a day school building at the payment of the salary of a teacher therefor at the rate of \$50.00 per month, or \$600.00 per annum. The Department will perceive on a perusal of the enclosures that the people decided as a result of a visit made to their reserve by the local Indian Agent and myself to abandon for all time their old heathenish customs, including the celebration of the potlatch, dancing and indulgence in intoxicants. The people are evidently in earnest to better their condition as well as that of their children. They having determined to settle down to a civilized mode of life are anxious to make a good beginning by having the benefit of the services of a teacher constantly in their midst to instruct their offspring as well as to stimulate them from day to day in their new mode of life and to afford them

the benefit of his advice in the many matters confronting them from time to time.

As to the erection of the school the matter can be left in abeyance for some little time, provided the Department have not the funds on hand at present to commence the work of building. It is essential, though, that action be taken at the very earliest date possible to provide a good teacher for the school as the people are now enthusiastically looking forward to the Department's meeting their wishes in this respect. To delay matters would perhaps only tend to discourage the Indians and result probably in their gradually drifting back into their old heathenish customs and practices. I trust, therefore, that provision for the payment of the salary of a teacher at the rate named be made as soon as the Department can secure the funds.

The agent has been instructed to report upon the matter.

Referring to your letter of the 25th of October last with reference to the proposed establishment of an Indian day school at Kitladamax, I have the honor to enclose herewith for the Department's information thereon a communication of the 24th ultimo received from Mr. Agent Merrew, of the North West Coast Agency, from which it will be seen that up to the time of writing the Agent states that he was unable to visit the locality and in consequence is not in a position to report fully in the premises. As he suggests, I think it advisable to wait until the return of His Lordship Bishop DuVernet to Metlakatla when Mr. Merrew will fully discuss the matter with him before writing further thereon.

Sir:-

I have the honour to acknowledge receipt of your letter No 215-A. dated October 5th/06 enclosing report of Mr School Inspector Green as well as his personal note, with reference to the establishing of a Department Indian day school at Kitlaodamax on the Nass River.

I have delayed answering in the hope that I might have been able to visit that distant village, but up to the present time this has been impossible.

Mr Green sets forth however, the absolute necessity of a day school, and as he has visited the Reservation, saw the people, and held a meeting with them, he certainly is beyond question of doubt, the best judge as to what should be done.

These Indians are supposed to have joined the Church of England during the last year, and I have been given to understand that they are mostly all members of that body. I may say in this connection, as it appears to be the policy of the Department to work in harmony with the various churches engaged in Missionary work in this Agency, that if these Indians are found to be members, or adherents of that Church, that it might be well to ask his Lordship Bishop Du Vernet to have a white teacher placed there, if he fails to do this or the people reject such a proposal, then it would be in order for the Department to supply the teacher.

Again the question arises, if a teacher is sent there by the Department, independent of any Church or Society as an ~~an~~ employee of the Indian Department, at the twice the salary ^{will} allowed the Churches for day school teachers, what the effect be, more particularly as we now request the Churches to provide white teachers. These are points that I think should be taken into consideration, at the same time Kit-lacdamax people ask for a school, and teacher, claiming them on the grounds set forth in Mr Green's letter, and I assure you that I am fully alive to the necessity of endeavouring to meet their request, but think it advisable for all concerned to try and arrange for same without any friction, however, it is for the Department and yourself to decide.

His Lordship Bishop Du Vernet has been away for some time, and I have been unable to take this school question on the Nass river up with him, but will do so immediately on his return, and ascertain if these people are claimed by him as members or adherents of his Church, and if they are, what steps will he immediately take to provide them with a white teacher.

To the Secretary of the Dept of Indian Affairs,
Ottawa.

Dear Sir,

I am in receipt of your letter No. 343016, dated Feb 5th, in which you sat that the Department will be glad to hear from me a in regard to several matters relating to Indian Schools.

Will, you allow me to say first of all that the Government's long delay in giving a decided answer to the Indians in regard to the land Question is having a most disastrous effect upon our educational and religious work among the Indians. Our Church of England missionaries in this Diocese of Caledonia (Northern B.C.) have steadily counselled the Indians to be law abiding. In consequence of this the Indians say that we are servants of the Government trying to get their land from them. Our Indians have been stirred up by agitators. They have been asked to raise a large sum of money to carry their case to the Privy Council. Money is being freely given for this purpose. Our Missionaries hold aloof from this telling the Indians that if they will only wait patiently the Dominion Government will see that they are treated fairly. Not very long ago Indian Delegates from all parts assembled at Vancouver to arrange to carry their claims to England. I think the Department should inquire who presided at this meeting. I am informed that it was an official of the Indian Department. Since then the attitude of our Indians towards our Missionaries is more marked. Our missionaries are loyal to those in authority while at the same time telling the Indians what will be best for them in the end.

To give a specific example of what I mean:-

Our Massett Indians were not in the least agitated about the land question, they were quite contented in mind until they received a letter from Rev. Mr. Tait a Methodist Missionary more than 500 miles away. He and the Rev. A.E.Green seem to be the chief movers in this matter. Rev. A.E.O'Meara, Church of England, does not belong to this Diocese, and has no authority from me. No doubt some of our missionaries think that the question of the Indian Title should be authoritatively settled but as a Body we hold that the Indians being wards of the Dominion Government, this Government should have the question settled without this most unwise stirring up of the Indian mind. This is by way of introduction to what I have to report.

1. With great difficulty and at much expense I secured a male teacher for Gitladamiks, the uppermost Indian village on the Nass river. Mr. R/ J. George has an expert knowledge of gardening and farming & has an earnest desire to show the Indians of this village how to cultivate their rich lands. Accompanied by Arch-deacon Collison, who knows the language well, I took him up the river last summer and introduced him assuring the people that he was not after their land, but only wished to teach them and do them good. They received him most kindly until the delegate from this land conference returned from Vancouver. Now Mr. George writes me as follows:- "At a Council meeting at Gitladamiks to consider the matter of setting apart a piece of land for the Mission house they were so undecided that they came to no decision. I inquired the cause and was told they considered me the thin end of the wedge. They summed up the situation thus. The Bishop, the Archdeacon, Mr. McCullagh and myself are the servants of the Government and are seeking to deprive them of their land. Seeing that I am regarded as a traitor by them

I have concluded after prayerful consideration that the only thing for me to do is to leave the river".

Mr. A. E. Smeath, our School teacher at Lakkalzap on the same river, writes by the same mail in much the same strain. I shall endeavour to persuade these men to hold on, but you will see how this land agitation is upsetting all our work. The feeling up the Skeena has been intense but is a little easier now. Our Missionaries urged the Indians to wait patiently till the Commissioner came from Ottawa. He came but only to repeat the same message which had so often been given before-"I will report to Ottawa all you have to say". The Indians have great respect for authority. All that is needed is a decided answer.

2. In regard to Massett a new industry has developed at North Island a fishing Company is erecting a station there with a steamer carrying fish to Prince Rupert. In consequence of this large numbers of the Massett people have gone from the Village. What Rev. Mr. Hogan recommends is that Miss Edenshaw should continue teaching the little ones at Massett and that Mr. Sherwood should follow the bigger children to North Island and teach school there. If the Department will make a grant of rough lumber 3,000 ft at \$17.50 per thousand, with shingles &c the natives will put up 30 x 20 with a "Lean-to" at back for teacher to live in.

I wrote about this to the Indian Agent, Queen Charlotte Islands, but as Mr Perry was leaving about that time the letter may be waiting for the new agent, whoever he may be to arrive. I hope the department will make this small grant. It will be seen from this that owing to this new move on the part of so many of the people the question of tents must be deferred for another year. This will show the Department what we have to contend with in trying to carry out any plan.

3. I asked Mr. Fuller the Carpenter to whom I referred to in my previous letter if he would undertake the work of teaching the Indian young men & older boys carpentry but he sees too good an

opportunity for work in prince Rupert to accept such a position.
I think that this is a matter which the Indian Agent should take
in hand.

Let me say in closing that I fully appreciate the diffi-
culty in connection with the Indian Title and the dispute between
the two Governments but there is no denying the fact that our
whole Indian work is suffering because of the lack of a decisive
answer from those who represent "The King"

Dear Sir,

As there was no communication with Aiyansh when I received your letter No 299590/r. it was impossible for me to reply.

As Mr. Perry, the Indian Agent, visited Aiyansh & Gitladamiks and conferred with our missionary Rev. J. B. McCulloch, shortly before your letter was written, regarding the Proposal of a union School I thought it best not to express an opinion without being able to hear what Mr. McCulloch had to say.

I gather from Mr. Perry that the Scheme does not seem to be practicable at present.

The Indians cannot be driven into accepting any plan however wise it may be. Local rivalry between two adjacent villages is not easily overcome. We find it most trying in our church work. Because Aiyansh has a resident clergyman. Gitladamiks wishes one also. Because Aiyansh has a school teacher Gitladamiks must have one also. Whereas the total population of the two villages is too small to justify such expenditure so far as the Church is concerned. However Mr. McCulloch feels that the 3 villages, Gitladamiks, Aiyansh & Gwinda are rallying round with better than ever. Yours faithfully
+ H. A. K. Bishop of C.B.

I have to acknowledge the receipt of your letter of the 21st ultimo reporting the opposition of the Indians of Aiyansh and Kitladamax to the erection at the present time of school buildings on the reserves.

In reply I beg to say that, in view of the attitude of the Indians, it is considered wise to defer building operations, but in this connection I would ask you to state whether all the material previously purchased by you for the erection of these two buildings is still stored at Lakalsap. You will recollect that arrangements were made to store this material at Prince Rupert and presumably it was moved from there to Lakalsap in the spring. I would also ask you to state whether you kept the material for the three schools on the Nass River separate.

REPORT ON KITLAKDAMOX VILLAGE MATTERS, NAAS AGENCY.

413318

I have the honor to report that on May 2nd. I visited the Indian village of Kitlakdamox with Mr. Indian Agent Perry. Many of the Indians were away, but I saw those that were home, including the head Chief. I enquired of them the reason of their objection to the erection of the school house in their village by the builder who was under instructions from the Department and who had a lot of material on hand; after, they, the Indians, had for years asked for such a building. They said that they wished to have a school, and to have their children taught, but that the Rev. Mr. McCullough of Aiyansh had told them it would not be wise to have a day school, but to wait a little and then they would have a large boarding school, or an industrial school, half way between the villages of Kitlakdamox and Aiyansh, where the children would be fed and clothed by the Government.

I would respectfully recommend that no further steps be taken re school in this village until the Indians are in a more settled condition.

Sir,-

Mr. Green in his report recently received on the Kitladamax and Aiyansh villages states that he has ascertained that one of the objections of the Indians of each of these villages to the continuance of day schools was the fact that a promise had been held out to them by Rev. Mr. McCullough that a boarding school to accommodate both villages would be erected and maintained by the Department.

I may say that Rev. Mr. McCullough had no authority for making any such statement and you should take the first opportunity to inform the Indians that the Department has no present intention of taking such a step. There would not appear to be any reason why day schools with efficient teachers would not provide adequate educational facilities for the children of these Indians.

I beg to inform you that since the Royal Commission has visited the Naas River and held meetings with the Indians of the several villages, it is deemed advisable to recommend the appointment of a Government teacher and Field Matron for service at Aiyansh and the upper Naas.

I have, therefore, pleasure to make this recommendation. I would advise that a teacher be secured at a salary of \$75.00 per month; and a Matron at the same salary. If two suitable persons can be found who will live together and work in the same manner as do Miss Copper and Miss Sturges at Lak-kalzap, the Field Matron's salary could be \$50.00 instead of \$75.00.

The Field Matron's duties should include periodical visits to Gitlakdamiks Reserve, and Gitwanshiltqu, and also to the several fishing camps on the upper river, when convenient.

The school building already provided for can be erected in the spring. The teacher could find convenient quarters both for school and residence in the meantime.

Fuel and light should be provided for these officers, and their transportation up the Naas should be paid by the Department.

Schools

The Indians of Aiyansh, Gitladamike and Gwinaha have requested that teachers be appointed and schools established at their respective villages, but as there are no white people resident at these places, it might be somewhat difficult to procure a teacher who would be willing to undertake this work single-handed. The arrangement followed out at Lachalzap where Miss Sturgiss has been appointed as teacher and Miss Capper as Field Matron seems to be giving satisfaction, and I would respectfully suggest that this idea be carried out at the above villages. On interviewing Miss Sturgiss and Miss Capper as to the treatment received by them from the Indians, they both spoke most highly of the Indians and stated that they had received every courtesy from them. The Indians in turn expressed their appreciation of the services rendered by these two ladies. Should the Department consider it advisable to carry out some such arrangement at Aiyansh, Gitladamike and Gwinaha, I would suggest that Mr. Inspector Cairns, Mr. Perry and myself be authorized to go into the question more fully. The estimated cost of such appointments would be from \$5000. to \$6000. per annum. This to include three teachers and three field matrons, together with rent of buildings, fuel etc.

I met Mr. Perry and discussed with him the educational problems of his agency.

There is a village on the Naas River called Aiyansh which has a large number of children of school age but for several years there has been no school.

The Royal Commission visited the Naas Agency in October going up the Naas river in gasoline launches.

It is Mr. Perry's opinion that something could, perhaps, be done for these people after his visit. It appears that for some time these people have refused to have a school erected in their village. However, I met some of these people at Prince Rupert and had conversation with them. From the tone of their conversation I think these people are prepared to be sane and reasonable.

We also discussed the subject of trained teachers. The greatest factors in any educational system is the teachers. I would, therefore, recommend that avigorous effort be made to have trained teachers appointed to fill any vacancies that may occur.

TO DATE OF THIS LETTER

Sir,-

435332

I have the honor to acknowledge receipt of your letter of the 6th instant, No. 299,590/1, having reference to the proposed appointment of a field matron for Aiyansh and Gitlakdamiks.

Having received your telegram of the 28th ultimo, and acted thereupon by asking Inspectors Cairns and Tyson, Vancouver, to seek suitable teachers, in the absence of His Lordship Bishop Du Vernet who was away from home, on the basis of my original recommendations.

I surely assumed that the telegram mentioned authorized me to offer the salaries I had recommended. I am therefore much surprised to receive your letter stating that the Department is prepared to pay only three hundred dollars a year for a field matron. I am sure the Department will not get a competent field matron for such a meagre consideration. A woman would deserve that amount as a bonus for being willing to isolate herself in a place like Aiyansh.

Meanwhile the Inspectors are busy trying to engage suitable officers for the Naas River. In fact, they may have already engaged a field matron at \$50.00 or \$75.00 a month. I took the precaution, however, to request Mr. Tyson to wire final arrangements to Ottawa before sending the teachers forward. The Department will be able then to decide upon its course.

I

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

I informed Mr. Tyson of my recommendations. In reply to my suggestion that if an arrangement be made for Aiyansh and ~~Lak-kalzap~~ Gitlakdamiks as for Lak-kalzap, where two ladies could share the same home and arrangements, the salary would be fifty dollars, Mr. Tyson stated that the salary for a field matron should be seventy-five dollars.

If the Department's decision as given is final, then arrangements for the village of Aiyansh will have to be held in abeyance, as I am doubtful if it will be possible to get a teacher to go alone, at this time of the year.

I have the honor to be,

Sir,

Your obedient servant,

NASS AGENCY.

485295

Sir:-

Re Schoolteachers and Field Matrons appointed to
Nass Agency.

As per my telegram, Mr. Perry requested Mr. Cairns
and myself to select three schoolteachers and Field
Matron for the Nass Agency. We appointed the following
teachers: at a salary of \$75.00 per month:-

Miss Bowen to Gitladamike, Miss Chesteney to Aiyansh
and Miss Freeman to Gwinaha. All the young ladies hold
B. C. second class certificates and are graduates of the
provincial normal school.

Miss Royds was appointed Field Matron at Aiyansh and
Gitladamike with a salary of \$75. per month and Miss
Cleveland at Gwinaha with a salary of \$50. per month.

The ladies left on Friday evening the 19th per S. S.
Chilosin, and Mr. Perry was instructed to meet them at
Prince Rupert and see that the necessary arrangements were
made at the different villages for the work in which they
would be engaged, and that the teachers were well equipped
with the school supplies required.

As these ladies are all well qualified for the work
in question I look forward to good results, not only in
the schools but from the work of the field matrons as well.

I have the honour to be,

Sir,

Field Matron sent up as housekeeper and chaperone to two young teachers we were obliged to ask Constable Phillipson who escorted us in to leave the house on account of his conduct. He returned and persuaded Matron to leave. She is now living by herself in village. We are alone. Find it impossible both teach school and keep house as in temperature of twenty three below too much to bring wood fetch water from river keep fires especially as we walk two miles to school we cannot cook. Above all we value our good name, as chaperone considered necessary on leaving Vancouver. Cannot understand why ordered to live independently of Matron now we are here in village. Wired Tyson who wired to keep school open. This impossible under present conditions. May we close school until satisfactorily arrangements are made? If this is granted could live temporarily with nearest neighbors seven miles distant until accommodated with housekeeper. Have already been two weeks alone cannot stand strain of double work longer. Wire immediately.

I am informed that the teachers and field matrons recently sent by the Department to Gwinlha, Aliyash and Gotlakdamiks arrived safely at their destinations, and are now conducting school and otherwise attending to the needs of the Nass Indians. Up to the present date, Dominion Constable Phillipson has not returned to head-quarters. He has, however, as well as the teachers and matrons, reported to the office. His full report is awaited, and I will give the Department more satisfactory details as soon as the Constable arrives.

In the meantime, the ladies were well equipped with supplies and forms, registers etc., in order that they may lose no time in getting down to business.

I am confident that the Indians will have accorded them a warm and welcome reception to their villages.

Ottawa,

Dear Mr. Scott

Last January 22nd, Miss Chatterley and Bowen school teachers Ojigamsh, sent a telegram to Mr. Tyson at Massett. Payment of \$2.23 was refused by Mr. Tyson, teachers refused to make payment as well, so charges were covered by me.

Teachers claimed this was to be collected from Ottawa and that they would write you about it.

If not already done, wish you would kindly investigate matter, as so far have not received payment nor any word yet.

Yours Very Truly,

for the month of April, 1916. Original on 299590-7

=====

The progress of these pupils has been slow in consequence
of their having been no teacher here for some time.
Miss Bowen is working at a disadvantage, particularly as
it becomes necessary for her to walk the distance from
Aiyansh to Gitladamicks. The teacher should rightly re-
side in Gitladamicks. The Indians themselves object to
the present arrangement, but Miss Bowen insists that she
must live with the teacher and field matron at Aiyansh.
If, in the near future, a change can be made by putting
in a person of wider experience, the interest of this
school will be better served.

Sir,-

I beg to inform you that Duncan C. Scott, Esq., Deputy Superintendent General of Indian Affairs, after a full discussion of school matters on the Nass River, has given authority to make appointments of teachers to take the places of the Misses Chastenay and Bowen, of Aiyansh and Gitlaxdamiks, respectively, and Miss Freeman, of Gwinoha, who has resigned. The two first named teachers have been given a month's notice to vacate their school.

Consent has also been given to discontinue the Field Matroncy at Gwinoha and to the appointment of a male teacher who will be able to minister to the needs of the small Gwinoha population, so that it will be no longer necessary to have a second person appointed simply for company for the teacher.

I would inform you that in accordance with instructions of the Deputy Superintendent General, I have taken steps to have suitable appointments made jointly by the School Inspector and Inspector of Agencies, at Vancouver, who will have any assistance I can give.

I trust that the steps proposed to be made will have the effect of producing more efficient and effective work, and that the schools of these villages will be in operation under good teachers when the Fall session commences.

Dear Sir:-

Attached, you will find a copy of a letter written to Mr. Perry in answer to his of July 13th:

While on my vacation in Vancouver, Mr. Perry saw fit to discontinue my services without assigning any other reason than that he had decided to appoint a resident teacher at Gitladamiks, and it was only quite natural that there should be two or three unpaid accounts left behind, for when I left, it was with the understanding that I was to go back. For this reason I cannot understand why he should write stating that it was an offence for any one in the employ of the Indian Department to buy anything from the Indians, when both he and Mr. Tyson both assured me it would be quite permissible to buy what little souvenirs I might wish for my own use.

I wrote to Mr. Perry regarding my return fare, which I understood the Department would pay, but he has not had the courtesy to answer, and I would like to have you advise what will be done in this matter.

My pay cheques for the second quarter is now overdue, and as the pay cheques for all the teachers on the river have been held up last winter for at least three weeks each time, I would like to see some action taken to correct this, and not make it necessary for the various teachers to write to Mr. Perry to forward the cheques.

You will see in the copy of letter attached, that several other little matters are touched upon, and I will be pleased to have you advise regarding them, for I think that I am at least entitled to fair treatment, and it is my intention, if I do not get it, to go to the right quarter, and demand an investigation into the various little irregularities of the Naas River Agency.

Hoping to be favored with a reply, I beg to remain,

Yours very truly,

Olive C. Bowen

Dear Sir:-

Referring to your letter of July 13th, your file C.3.:

I am indeed surprised to receive such a letter from you, after being told both by you and Mr. Tyson, that it would be quite all right for me to buy such little things as souvenirs from the Indians.

It is my understanding of this act, that it is meant to stop employees of the Indian Department from dealing with the Indians for their own personal gain, and while on this subject, would say that it is a matter of common knowledge that Constable Philipson does a regular trading business in furs with the Indians, and this is a matter easily proved.

Regarding the accounts you mention as being due, would state that I have itemized them below, and it is only due to the various Indians' own special request that they were not paid before, as they specifically asked that the amounts be paid after they had returned from the cannery.

The amounts are as follows:

Rent.	\$8.75.
Felix	
Wright,	7.00
Alice	
Woods	6.25.

These amounts will be paid in September by me, as originally requested.

Mr. Tyson was quite surprised at the way that the pay checks were held up all winter, and I have not yet received my June check, which I trust will come by return mail.

On account of the irregular manner in which things are being handled in your department, I consider it necessary to write to the Ottawa authorities, and also to the member for this district in the House of Commons.

I might add that you have not given the customary month's notice in advance discontinuing my services at the summer school at Port Nelson, and I held your telegram and letter employing me for the summer months of July and August.

Now, Mr. Perry, the whole transaction looks like a frame-up, and I hope, for your own sake that you will be able to finish it, for I am certainly going to be fairly treated.

Trusting that you will see this matter in the proper light.

I beg to remain,

CC-Mr Scott

Sir:-

In accordance with your wish as expressed in a letter to me from Prince Rupert in July, three teachers have been sent to take charge of the Indian Day Schools at Gwinoha, Aiyansh, and Gitlakdamiks.

All three are trained and experienced teachers and will, I am convinced, give faithful and efficient service.

At Gwinoha Mr. Frank Vangorder has charge. He has taught for years. He has just completed a two years term at Kitsalas where he did good, faithful work. He showed a marked interest in his pupils and was very kind and patient with the Indian children. He also cultivated a small garden and in this added a new interest in the lives of the pupils. Mr Vangorder has had Normal School Training. He is fifty years of age. I expect that he will do excellent work.

Mr. and Mrs. R. R. Johnson have gone to Aiyansh. Both are teachers. Mr. Johnson was trained as a teacher in Ireland where he taught two years before coming to Canada. He has been in Canada six years and for five years was in charge of the Mail Order Department in Woodward's store, Vancouver. He supplied for a few months in British Columbia Schools. He is thirty years of age. Mrs. Johnson was also trained and taught six years with success. She is a musician both vocal and instrumental. They will give faithful service. Miss Lydia Hayes who is twenty-four years of age has gone to Gitlakdamiks. She has had a full course of training in the Normal at Vancouver. She has taught two and one half years in a rural school. Miss Hayes is a quiet and patient young woman. She gave me the impression that she would do good, conscientious work.

Herewith, I enclose vouchers covering expenses of the teachers from Vancouver to Kincolith. As I am leaving Vancouver on Monday for a month in the North, could the Cheque be sent direct to the Union Steamship Company.

Sir;

I beg leave to acknowledge the receipt of your letter of October the 12th. number 299590/1 .

Concerning the salary which the teachers at Gwinoha, Aiyansh, and Gitlakdamiks were to receive, there is, it seems, some misunderstanding.

These teachers were appointed in response to a letter from D.C. Scott, Esq., Deputy Superintendent General of Indian Affairs.

Mr. A.M. Tyson, Inspector of Indian Agencies, and I were authorized to confer and make the appointments. Nothing was said about the salary to be paid when we received our instructions.

Miss S. Sturges, teacher at Lakalzap, was appointed by us two years ago at a salary of \$75.00 per month, twelve months the year.

We naturally supposed the same salary would prevail for the upper Naas. These teachers have gone to work with that understanding. There will be much ~~understanding~~ dissatisfaction if the holidays are cut off.

On my recent trip North, I was delayed at Skidegate waiting for a boat to carry me to the Mainland.

I visited a Public School located at Sandspit. The enrollment was sixteen and the salary \$90.00 per month^w for twelve months in the year. Our Provincial educationⁿ⁻al Dept. find it impossible to get teachers for the isolated schools unless the salary is increased. The salaries for these small outlying schools under the Public School system runs from \$80.00 to \$100.00 per month, twelve months in the year.

These teachers that have been sent North to the Naas River are all trained teachers, and would not have gone had we stated the salary was for ten months in the year.

The Department is in receipt of reports of inspection made by Mr. Agent Perry on the Indian day schools at Aiyansh and Gitladamiks.

He informs the Department that Miss Hayes, who was appointed to the school at Gitladamiks, has been sent to Aiyansh, where she will have company, which she would be deprived of were she stationed at Gitladamiks, and that, on account of there being no white residents at Gitladamiks, Mr. and Mrs. Johnson have been sent there. He states that these teachers understood from you that they were to receive a salary of \$75.00 per month for the whole year, and not for the ten teaching months only. The former teachers at these schools were only paid for the ten teaching months in each year and I may say that the Department, when engaging teachers at a monthly salary, only agrees to pay for the ten teaching months. Extract from report of Agent Perry on the
Gitlakdamiks Indian Day School for the month of February,
1917. Original on 299590/7.

Mr. Johnson, the teacher, has pointed out that
the price of sugar is \$13.00 per 100 lbs. flour \$14.00
per barrel; butter 55 c per pound and milk \$7.50 per
case; and has requested that the Department meet the
cost of rental of his residence at \$10.00 per month. The
Department, by letter No. 299290/1 dated Feb. 27th, 1917,
has not given encouragement in this direction. Mr.
Johnson has written lately to the effect that he will be
obliged to leave the Nass River at the end of the year
in consequence of financial pressure.

In a conversation two days ago with Mr. Tyson,
Inspector of Agencies, Mr. Tyson expressed the opinion
that the Department should be asked to reconsider its
decision and commence immediately to pay rental—in fact
to pay rental since Mr. Johnson took charge, for which
the Indian owners are waiting. I feel the same conviction
in the matter.

Sir,—

I beg to inform you that
Mr. Redmond R. Johnson, Indian day school teacher at
Gitlakdamiks, Nass River, has informed me that he finds
the expense of living in the Nass Valley so great that
he finds great difficulty in meeting his rent account
of ten dollars per month for his residence. He has
asked me to ascertain if the Department would be will-
ing to pay the rent for him.

I am of the opinion that the Department
will find it necessary to undertake the payment of rent
or furnish a residence for teachers in these remote places,
if teachers are to be retained for any length of time.

In the case of a married man like Mr.
Johnson, who is doing well and is a gentleman in every
respect, and whose wife (also a fully qualified teacher)
is sacrificing a possible salary in order to keep home
for her husband at Gitlakdamiks (the remotest village
on the Nass River), I would recommend that the Department
assume payment of the rental for the teacher's residence
at Gitlakdamiks.

I have the honor to be,

REPORT OF MISS S. STURGES ON THE AIYANSH DAY SCHOOL.

510528

I have not much to say about this place. except to remark that after the flood of Nov. 1917., the so-called school and teacher's "ledging-house" is no longer fit for habitation and are to be demolished in July this year.

The whole village is moving to Kitladamicks, so that a new school is expected by the Indians. What will happen is unknown to me. The only way to make progress up here is to have a nice new school building where a teacher can enforce all the usual school laws etc. The children and people are far behind those of the other reserves on this River owing to their want of education. I have never seen such an antiquated way of teaching even in Turkey. It is money thrown away with no results.

I have the honor to transmit herewith the returns of the Gitlakdamike Indian Day School, Nass River, for the September quarter last.

I would inform you that Mr. Johnson has reported that the Indians have only within the past few days returned from their fishing camps.

I would further report that I have just returned from the village of Gitlakdamike and that Mr. Johnson has resigned in order to accept the head-mastership of the Lytton Boarding School where he and his wife will both teach.

Miss S. Sturges, teacher of the Aiyansh Day School, in her report for the year ended the 31st of December, last, states that the whole village is moving to Kitladamicks, so that a new school is expected by the Indians.

As there is no school at present at Kitladamicks, it is presumed that Miss Sturges will go there when the Indians move. Kindly let the Department know whether the building at that point in which the school was held is still available and, if not, whether any other building can be obtained and on what terms.

Sir, -

I have to acknowledge the receipt of your night lettergram of the 28th ultimo, in which you inform the Department that Inspector Cairns, Agent Perry and Rev. McCullagh recommend the appointment of Capt. Jackson as teacher of the Gittladamicks Indian Day School, to begin duties the 1st instant and to teach until the end of March next.

In reply I have to confirm the following telegram which was sent you on the 29th ultimo, "May engage Capt. Jackson as teacher Gittladamicks at terms mentioned your telegram."

In view of the above recommendation the Department will approve of this school being re-opened during the winter months and will allow a salary at the rate of \$75.00 per month and will also pay for the fuel and light required and rental of the school building and teacher's residence at \$10.00 and \$5.00, respectively. You should give Capt. Jackson every assistance you can in carrying on the work at this school. It is hoped that there will be a good and regular attendance and that the teacher will meet with every success in the work.

W. E. Collison

You should forward properly certified vouchers, in duplicate, for the salary due each month and also for the expenditure incurred in supplying the fuel and light required and for the rent of the school building and teacher's residence. The teacher should forward a return showing the attendance, etc. on the proper form for that purpose at the end of December and again at the end of March next.

Ottawa, November 29, 1919.

MEMORANDUM.

Mr. MacKenzie, -

The school at Gitlakdamiks has been closed since November, 1917.

When this school was in operation the teacher received a salary of \$75.00 per month and \$100.00 a year for rent of teacher's residence. He was also allowed fuel and light.

At the time this school was in operation there was an enrolment of 18 children, with an average attendance of 10. In a report to the Department dated March 31st, 1918, from Miss Sturges, who was teaching at Aiyansh, stated that, after the flood of November, 1917, the whole village of Aiyansh was moving to Gitlakdamiks and that a new school was expected by the Indians at that point.

I am unable to ascertain the number of children of school age there are at present at Gitlakdamiks, but no doubt there are sufficient to warrant the re-opening of the school.

The terms under which Agent Collison wishes to engage Capt. Jackson are the same as were allowed the former teacher of this school.

Sir,—

I beg to transmit the enclosed Returns of the Gitlakdamiks Indian Day School for Quarters ended December 31st., 1919 and March 31st, 1920.

Owing to the continued cold weather which has interfered very much with mail communication from the upper Nass, it has not been possible to get the School Returns in earlier.

Mr. D. B. M. Jackson, the school teacher, has been obliged to resign his position as teacher of the Indian Day School, as he finds that indoor work does not agree with his health. His resignation dates from the 31st of March. As there are no children at Gitlakdamiks just now, the people being away hunting and fishing, I am not doing anything to fill the position until I can visit Gitlakdamiks and see for myself the requirements of the place. The school situation at Gitlakdamiks has not been satisfactory, and will continue so, until a proper school building can be erected and better arrangements made for housing the school teacher. I shall look thoroughly into the matter during my next visit and submit a report to the Department on the situation.

Mr.Priestley commenced his duties on the 1st of November. The same house as was used last year is again being used as a school room and the rent will be the same viz., \$15.00 per month.

During my recent visit to the upper Nass I personally inspected the temporary school premises and found the rooms very clean and suitably furnished for school purposes. A large box stove in the school room gives all the heat necessary.

Whilst Mr.Priestley has no professional qualifications as a teacher, he has had some experience in teaching, having had charge of the Aiyansh Indian Day school during the years 1909-1910. He is also acquainted with the children which will be a help in his work.

Re appointment Mrs. Gertrude Thorne, teacher,
Gitlakdamiks Indian Day school. Letter #299590-I.

Sir,—

I have the honour to acknowledge the receipt of your telegram authorizing the appointment of Mrs. Thorne to the charge of the Gitlakdamiks Indian Day school, also letter ~~letter~~ of September 23, confirming the appointment.

Mrs. Thorne has assumed her duties, and school was opened on the 3rd of October.

Owing to unsatisfactory conditions which attended the use of the Indian house formerly rented for school purposes, I arranged for the use of a large public room in the Mission house instead. This room is better adapted for school use as it is much warmer and at the same time well ventilated. For the present no rent will be charged. Arrangements were made, however, that all necessary repairs resulting from wear and tear would be paid for and new stove pipe supplied. Fuel and light will be provided as before. An out-house for the boys and one for the girls were necessary and arrangements for the erection of these buildings were completed before I left Gitlakdamiks. The whole cost will not exceed \$15.00 and I trust the Department will sanction this expenditure.

Mrs. Thorne is a thoroughly capable teacher of wide experience having taught in Manitoba before coming to the coast. Her qualifications are as follows,—
Public School Certificate, Second Class, Manitoba, 1910.
Diploma for Agriculture, Manitoba Agricultural College, 1909.
Certificate for Basketry and Sewing, Manitoba School of Handicrafts, 1914.
Dominion Certificate of Physical Training for Public School Teachers, 1914.

The qualifications which Mrs. Thorne possesses have been noted.

It is noted that you have arranged for the use of a room in the Mission House for classroom purposes and that no rent will be charged.

Mrs. Thorne, teacher of the Indian Day
School at Gitlakdamix has informed me that she will be
unable to take on the school work next fall. It will
therefore be necessary to appoint another teacher from
the outside to take charge of the school for the entire
teaching year at full salary. There has always been a
difficulty in obtaining teachers for isolated places
like Gitlakdamix, and unless an arrangement like this
can be made, I am afraid it will not be possible to
secure the services of an experienced teacher to take
up the work for six months only. In the past the
Department had teachers at Gitlakdamix and also at
Aiyansh on full salary. Now these two villages have
amalgamated, the Aiyansh Indians having moved to
Gitlakdamix and there should be no difficulty in
securing a school attendance throughout the teaching
months of the year.

Sir, -

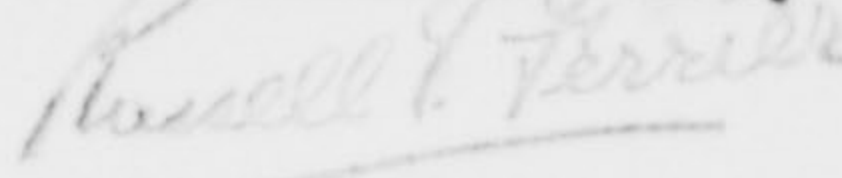

I beg to refer to that portion of your Daily Journal for the month of April, last, regarding the services of a teacher for the Gitlakdamiks Indian Day School. It is noted that Mrs. Thorne will be unable to resume duties as teacher when the school re-opens next Fall. Your suggestion that this school be conducted throughout the ten teaching months of the year, as there will be no difficulty in securing a school attendance for that period, is also noted.

The Department would consent to have this school in operation during the full number of teaching months in the year if the attendance would warrant the same, and would be prepared to pay salary for the full year. If you consider that these Indians will reside permanently at Gitlakdamiks, and that there would be a sufficient and regular attendance of Indian children throughout the year, you may take the necessary steps to engage the services of a teacher to continue duties for the full ten teaching months in the year. The salary allowed a teacher having the necessary qualifications would be at the rate of \$750 per annum, plus any bonus provided by law.

The name, qualifications and experience of any applicant received by you for this position should be submitted for the consideration of the Department.

You should give this matter your attention, and, if possible, endeavour to secure the services of a teacher to begin duties on or about the 1st of September, next.

Sir,—

I beg to acknowledge the receipt of your favour #299590-I, dated June 6, in reply to mine of April 15 last, recommending that a teacher be secured to take charge of the Gitlakdamiks Indian Day school for the full teaching months of the year. I am afraid the salary viz, \$750.00 per annum with legal bonus, which is offered by the Department would not be sufficient inducement for a teacher with proper qualifications to take the position, especially when it is known that the school teacher at Lakgalzap - an Indian village on the Nass River more conveniently situated - is receiving a salary of \$900.00 per annum with bonus and allowances for fuel and light. It has always been most difficult to obtain teachers for the Indian Day schools of the Upper Nass River chiefly on account of the trying isolation, and the difficulty and expense of reaching these out of the way Indian villages. Gitlakdamiks is about 60 miles from the nearest point of steamer call, which is Mill Bay cannery at the mouth of the Nass River. From Mill Bay cannery to Gitlakdamiks the journey has to be made by Indian canoe or boat. Under these circumstances, I would suggest that the same salary and allowances be granted for a teacher at Gitlakdamiks as is allowed for the teacher at Lakgalzap. It has been my constant endeavour to follow the strictest economy in all matters where any expenditure is involved, but judging from past experience in connection with securing teachers for the Upper Nass River, I feel sure it would be most difficult to secure the services of a qualified teacher for Gitlakdamiks unless sufficient inducement can be offered.

Trusting the Department may give this matter further consideration,

I remain,

Your obedient servant,

Sir:-

I have to acknowledge receipt of your letter of the 14th instant, with reference to securing the services of a teacher to take charge of the Gitladamicks Indian Day School for the full teaching months of the year.

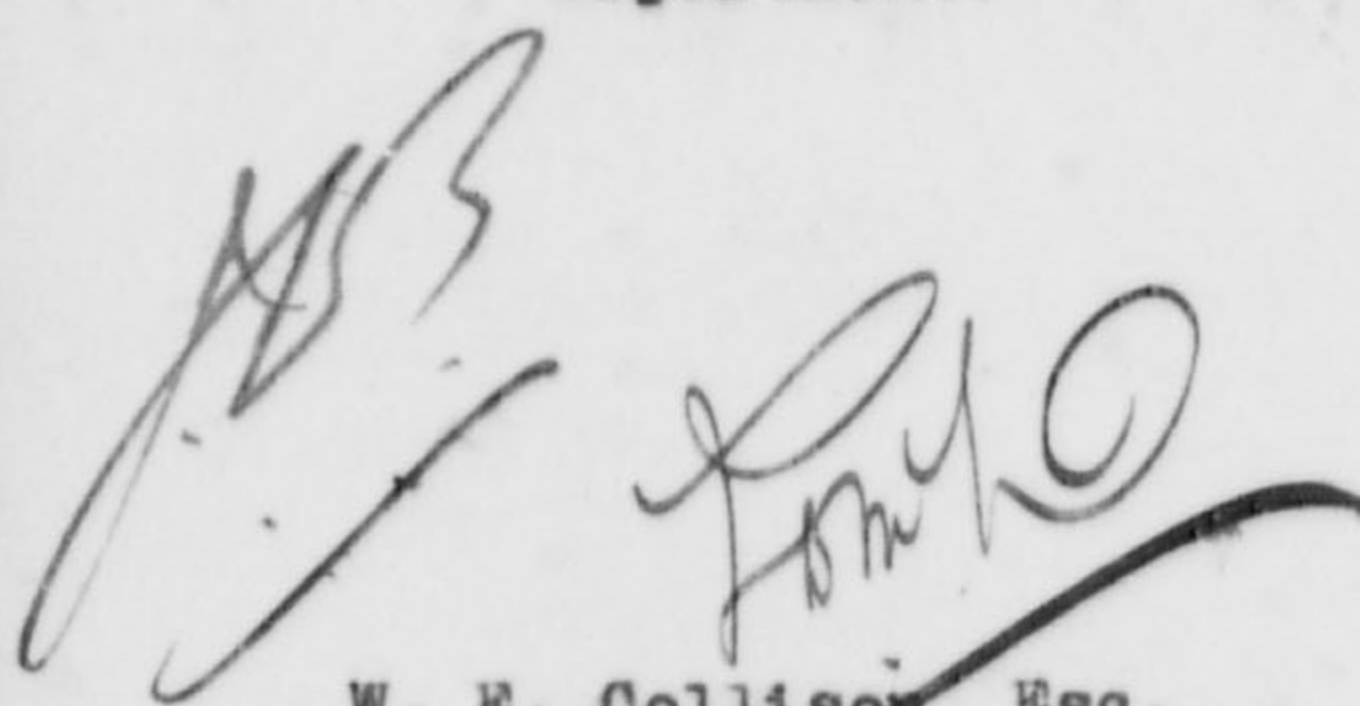

In reply I beg to say that, if a teacher with proper qualifications is obtained for this school, we will be prepared to pay the same salary as is allowed at Lakalsap, viz.: \$900 per annum plus any bonus provided by law. We will also provide the fuel and light required, and accounts for this purpose will be paid upon receipt of properly certified vouchers.

We hope that you will be able to obtain the services of a teacher in time to begin duties on or about September first, next. The names, qualifications and experience of any applicants received by you for this position should be submitted for the consideration of the Department.

Sir:

I have to refer to that portion of your letter of the 18th instant, enclosing the June quarter return of the Gitladamicks Indian Day School, regarding the request made by Miss Winstone, the teacher, that she be permitted to remain away until the 15th of September, next. It will be satisfactory, under the circumstances mentioned, for the school to be re-opened after the summer holidays on or about the 15th of September, next. We note that Miss Winstone is being married to the Dominion Constable, and it is hoped that this change will not interfere with her work as teacher at this school. You may inform Miss Winstone of the permission granted for the extra leave until the above named date.

Sir:-

I have to refer, further, to official letter of the 26th ultimo, regarding the appointment of Miss Mabel Winstone as Teacher of the Gitladamicks Indian Day School.

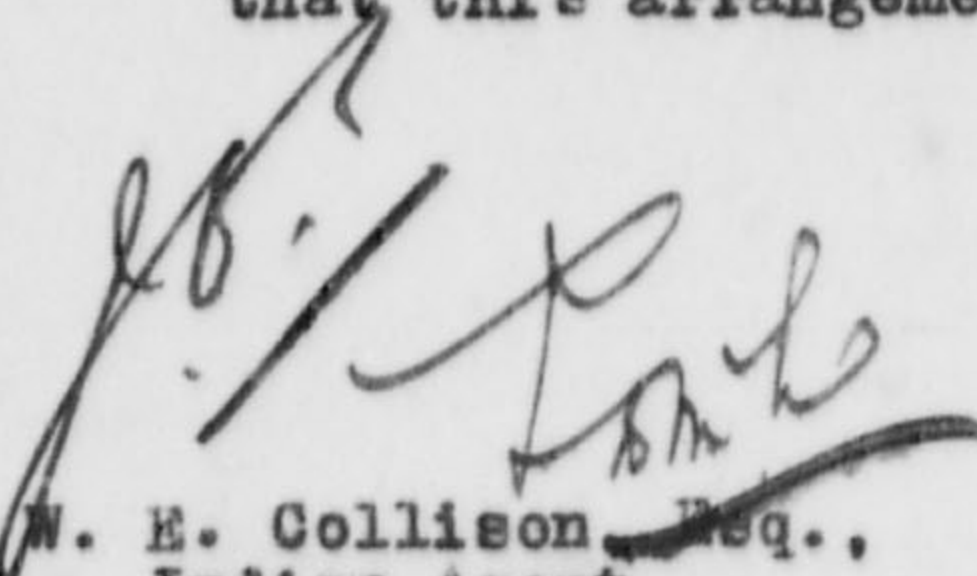

We have received a communication from Mr. Ferrier, Superintendent of Indian Education, regarding Miss Winstone's appointment. He has recommended that, besides the salary of \$900 per annum plus any bonus provided by law, she be allowed fuel and light and that the sum of \$30 be allowed towards her expenses for transportation to the school.

I have, therefore, to inform you that, besides the salary stated, fuel and light will also be allowed, and the sum of \$30 will be paid towards travelling expenses, upon receipt of properly certified vouchers in duplicate covering the expenditure for the purpose, which should not exceed that amount.

A communication has been received from Miss Winstone, accepting the appointment, and she states that she would prefer to commence duties about the second week in September, as the Missionary from Gitladamicks would be able to meet her in Prince Rupert at that time. We are informing Miss Winstone that this arrangement will be satisfactory.

Sir,—

I have the honour to submit for the Department's approval, the application of Miss Mabel Winstone for the position of teacher for the Gitlakdemiks Indian Day school.

Miss Winstone holds a second class professional certificate and has had five years experience as a school teacher. In her application she refers the Department to Inspector Peach, Swan River, Manitoba, in whose inspectorate she has been teaching for the last three years. I would add that Miss Winstone is a sister of Mrs. Thorne who had charge of the Gitlakdemiks school last winter. This fact should make the matter of providing a place of residence an easy matter as Mrs. Thorne is prepared to give board and lodging to her sister should the application receive the approval of the Department.

Miss Winstone's present address is,—

Sir,

I have the honor to acknowledge the receipt of your letter #168-32A-1, dated Nov. 6th. informing me that owing to the marriage of Miss Winstone, she can no longer be retained in the service of the Department, as teacher of the Gitlakdamix Indian Day School.

I regret this very much, as Miss Winstone (now Mrs. Newnham) is a very capable teacher, and it will be a difficult matter to replace her.

I would point out, however, that it would be impossible to make any change now, as the Nass River is closed to all navigation for the next six months. Even if Mrs. Newnham were to resign her position immediately, she could not get away nor could a new teacher reach Gitlakdamix, until next spring. Under these circumstances, and in view of the difficult situation, I should be glad if the Department could possibly make some special arrangement, whereby Mrs. Newnham's services might be retained until the end of next May, when the River will again be open.

As school at Gitlakdamix generally closes on the 15th. of June, it would not be worth-while getting a new teacher until school re-opens in September.

Hoping the Department will be able to make a special exemption in this case,

regarding his visit to the GITLADAMICKS INDIAN
DAY SCHOOL on October 7th, 1931.

Noted
I do not believe that any great success can be attained by this school till we have a trained teacher working in a properly designed schoolroom quite separate from the Anglican Mission. This present plan of having an untrained missionary attempt to teach the school, as well as do his other missionary work is very unsatisfactory.

*Rev S. Kinley
Teacher
So far now*
I attended a village council meeting, after my inspection of the school. It was made quite clear to me that the people wish for the proper education for their children, and that they are very anxious to have a separate school building, better situated in the village.

I inspected several sites, and believe that one on open ground, to the back of and between the houses of Mrs. Brown and Mr. Wilkans, would prove very satisfactory for the small school which this village so badly requires.

Sir,-

The Department is in receipt of the June quarter return of the Gitladamieks Indian Day School.

It is noted that this return is signed by Rev. Samuel Kinley and states that he took charge of the school on May 13th. In preparing the return, he states that the school was open for thirty-three (33) days during the quarter and it would, therefore, appear that the return that has been forwarded only covers the period during which Rev. Mr. Kinley has been in charge of the school. As you will note from official letter of April 10th, last, the Department understood that Rev. Mr. Flores would continue in charge at Gitladamieks until June 1st, on which date he would be succeeded by Rev. Mr. Kinley.

Please let me know for what length of time Rev. Mr. Flores conducted the Gitladamieks School during the June quarter in order that the amount due both Mr. Flores and Mr. Kinley may be paid. If Mr. Flores was in charge until the date Mr. Kinley apparently arrived, it would appear that the fairest way to divide the salary would be to pay one and a half months to each. No payment will be made, however, until your reply is received.

Her resignation which was quite unexpected on her part was occasioned through the transfer of her husband, a telegraph operator, from Aiyansh to another district.

I beg to state that an application has been received from Mrs. Mae S. Studdy of Aiyansh, Nass River, for the position of teacher of the Gitlakdamix Indian Day School.

The husband of the applicant is employed by the Dominion Telegraph Service as operator at Aiyansh. Whilst she has not been teaching of recent years, she was trained as such, and held positions in the state of Washington, U.S.A., copies of her testimonials being enclosed for the Department's inspection.

On account of the difficulty of obtaining teachers for such places as Gitlakdamix, and the fact that there is no accommodation as yet in the Indian village, I would recommend the employment of Mrs. Studdy for the present, as I think she may be able to fill the position satisfactorily.

As her teaching may not be as up-to-date as a more recently trained teacher, I would suggest that her salary commence at \$85.00 per month. I shall be glad of an early answer.

Hundreds of good teachers from the west and middle west, as well as many from the eastern states, are registered with our agency, and we are in a position to recommend efficient instructors for any school position from the Kindergarten to the University. We make it a point not to notify teachers of vacancies until we have direct notification from the proper school authorities, and you will find us careful and conservative in our recommendations.

Because of our large enrollment we can fill emergency calls without delay.

If there are likely to be any vacancies in your school for the school year 1911-1912, will you please fill out and return to us the enclosed blank? We shall appreciate it if you will write us definitely as to the kind of teacher you desire, mentioning any such special qualifications as athletic or musical ability.

Very sincerely yours,

Dear Sir:-

Please consider me as an applicant for the position of teacher of the Gitlakdamix School for the coming year.

I hold certificates from Iowa and Washington in which states I taught successfully for six years, my last position being that of principal of the public school at Orin, Washington.

Having been a resident here for some time, I perhaps understand local conditions among the Indians better than an outsider would do, and I feel sure there would be no objection among the natives themselves. In fact, I have been asked by different ones among them why I did not apply for the position.

My own three children are of course, attending our white school, and I feel sure I could handle the Indian school and enjoy the work. I am enclosing letters of recommendation etc. to prove my statements in regard to my qualifications.

Hoping you will consider my application favorably and let me know as soon as possible, I am

Sincerely yours,

Mae Seely Studdy

Sir:-

I beg to transmit herewith, report of the Gitlakdamix Indian Day School for the quarter ended June 30th. School was closed on May 27th. as most of the children had left the village by that time.

Whilst Paul Mercer is not a properly trained teacher and his education is more or less of an elementary character, he is giving good service and the school was kept open regularly during the time he was in charge. It is hoped that when a new school and teacher's residence are erected, it will be possible to obtain the services of a proper teacher.

I would recommend payment of Mercer's salary for the months of April and May at the rate of \$50.00 per month as approved in your letter of November 24th last, #168-32A.1.

Sir,-

I have your letter of the 15th instant, informing the Department that you have appointed Paul Mercer, a native, as teacher of the Gitlakdamix Indian Day School and that he commenced duties on the first instant. The Department will approve of the appointment of Mr. Mercer temporarily until such time as it is possible to secure the services of a qualified teacher.

We note that the salary to be paid will be at the rate of \$50.00 per teaching month without allowances. The Department approves of the arrangements made by you in securing this teacher to carry on the work at Gitlakdamix. You will be good enough to see that he prepares returns showing the attendance, days taught, etc., at the end of the present month and, subsequently, at the end of each quarter during the period of his engagement. These returns he should forward through your office, to be certified by you and transmitted to the Department when payment of salary due him at the above rate will be made.

I have your letter of the 16th instant, informing the Department that you have been unable to find a suitable man to take charge as teacher at the Gitlakdamix Indian Day School, and recommending that, rather than having the school remain closed, the services of a native teacher be employed to carry on the work until a competent teacher can be obtained.

In reply I beg to say that if you can obtain a suitable native worker, who would be able to conduct classes with some benefit to the Indian children, the department will approve of the appointment. The salary we would pay a native teacher would be at the rate of \$50 per teaching month, without allowances. If you can arrange to obtain a native teacher, you may have him open the school and carry on the classroom work until such time as a qualified teacher can be obtained. I shall be pleased to be informed of the name of the native worker whom you have been able to secure, and any particulars, also the date upon which he begins duties. You should endeavour to have the worker at this school commence at the earliest opportunity.

With reference to your recommendation that travelling expenses be allowed the teachers taking up work at this school and at Lakalsap, I beg to say that it will not be possible to pay travelling expenses of teachers proceeding to and from the schools.

Sir,—

In reply to your letter of the 5th inst. relative to the Gitlakdamix Day School, I beg to state that I have been unable to find a suitable man to take charge of this school although several enquiries were received regarding the position, and as there will be no other white person at Gitlakdamix during the coming winter months, it will not be advisable to send a lady teacher.

Rather than that there should be no school I would recommend that the services of a suitable native teacher be employed to carry on until a proper teacher is appointed. The salary required for a native teacher would be \$50.00 per month without allowances. If this is satisfactory to the Department, I shall endeavor to make the appointment at the earliest opportunity.

I have pointed out before that the Greenville and Gitlakdamix schools are the most difficult to find teachers for in the Agency, on account of the isolation during the winter months and the expense and difficulty of reaching these places. The river trip to Gitlakdamix in particular, a distance of 57 miles by Indian gasboat, is a dangerous journey, and most trying to those who are not accustomed to it.

Under the circumstances I would strongly recommend that travelling expenses be allowed as an inducement to teachers taking up work at either of these schools.

Sir,

Miss Helen Winstone, who was recently appointed to take charge of the Gitlakdamix Indian Day School, has written to ask whether the Department would favorably consider allowing a small grant to assist her with her travelling expenses from McCennell, Manitoba to the Nass River. These expenses were heavier than usual both on account of Miss Winstone having to wait over a week at Prince Rupert before she could get a steamer to take her to the Nass, and having to hire a launch to take her up the river to Gitlakdamix, a distance of over fifty miles.

The Department made a grant of \$30.00 for this purpose to Mrs Newnham, the former teacher, in October 1922. I think if a like amount were given to Miss Winstone it would be of great assistance to her.

I am glad to be able to state that Miss Winstone is proving herself a capable teacher and is doing good work.

EXTRACT from Inspector Barry's Report regarding
his visit to the GITLADAMICKS INDIAN DAY SCHOOL on
October 5th, 1932.

Original on File 168-32A-6.

The teacher reports to me that the parents are indifferent with regard to the school. This is certainly not true. The parents spoke to me individually and the leaders spoke in a Council Meeting requesting that they be given a proper school and a trained teacher. This has, I understand, been reported on by Mr. Collison, the Indian Agent, who was with me throughout my inspection and, of course, at the Council Meeting in the evening when the affairs of the schools- Day and Residential - took up several hours, and at which I spoke at some length.

The attendance at this Day School is poor and irregular BECAUSE IT IS NOT WORTH WHILE FOR THE CHILDREN TO ATTEND. The teaching for years has evidently been so bad that the better educated Indians are simply disgusted with the school. I can see no reason why any Indian would want to send his child to this very unattractive room in the Mission House, where the so called teaching is more or less hopeless. These people are, in my opinion, in the right and are certainly entitled to a proper school taught by a CERTIFICATED TEACHER.

X X X X X X X X X X X X X X X X X X

I have the honour to again inform the Department that no great success can be attained in the education of the Indian children of this village till we have a trained teacher working in a properly designed schoolroom. It was made clear to me that the Indian people wish for proper education for their children and that they are very anxious to have a school building erected in their village. They are perfectly ready to have the children attend regularly if they are given a teacher who knows how to teach, and who would be able to take a lead in the activities of the young people of the village.

The present plan of having an untrained missionary attempt to teach the school as well as to do his other missionary work continues to be most unsatisfactory. I should have recommended a change of teachers long ago, had there been any place for a trained teacher to carry on a school. The building of a proper school house with a small teacher's residence is a matter of the utmost importance to the life of this Indian community.

Mr. Collison is, I know, in agreement with my views on the situation and has, no doubt, reported to the Department with regard to the clearly expressed wishes of the Indians.

EXTRACT FROM REPORT OF MR. INSPECTOR BARRY
HIS INSPECTION OF THE GITLADAMICKS INDIAN DAY SCHOOL.
** DATE OF INSPECTION MAY 5, 1936.

Original on No. 168-32A-6.

Name of teacher: Rev. S. Kinley.

The Reverend S. Kinley is the local Anglican Missionary. He has had no Normal Training whatever. In 1934 he attended the summer school in Victoria and received the usual Provincial certificates in Primary Work as well as the usual Provincial certificates in Rural and Indian Problems. His Summer School work helped him during the following year. I have done my best to indicate and demonstrate the best methods to be followed in teaching these Indian children; but the result of all the effort expended here has been very disappointing in that very poor progress is being made by the pupils.

The Missionary is of course doing his best to instruct the children, as well as to carry on the other duties that fall to his lot, Missionary Work, care of the sick, Etc. Owing partly to his lack of professional training, but more to his natural lack of teaching ability, he simply is not able to get worth while results in this school.

In addition to again demonstrating methods and indicating the extent of work to be covered in each Grade and Sub Grade, I particularly asked the Missionary to be much stricter with the children, particularly the small girls, whose conduct in school leaves much to be desired. On several occasions during my tour up the Coast the Indians from this village complained to me that the children are permitted to play in school, talk when they should be working, and even carry on heated discussions on such subjects as witchcraft, making accusations that such practices were being carried on by members of the families of other children. All the above, I am informed, takes place in Indian and without the knowledge of the teacher, who appears to the Indians to be quite unable to control the children. I instructed the teacher to punish the children if necessary, but to get control in any case, and I informed him that the Indians were complaining, though he knew this as they had spoken to him also about the lack of discipline. The Indians like the Rev. S. Kinley as a Missionary but ask for a trained teacher in his place.

I would strongly recommend that as soon as possible a proper school be built in this village, and a trained teacher appointed who is also a trained nurse. Such Anglican teacher-nurses are available. A male teacher who had been trained at a Normal School and who had successful Provincial experience in some Province, with a wife who was a trained nurse, would also be suitable in this out-of-the-way village. I know that Doctor McQuarrie would like some one here who had regular training as a nurse, and I told him I was recommending a teacher-nurse in my report on the Gitladamicks School. Such a person could no doubt live with the Missionary and his wife in the Mission House. In any case the need for a proper Indian day school to accommodate at least forty children is urgent, and I hope that the Department will give favourable consideration to my recommendation.

** ** **

The Indians are quite well aware that the teacher is neither able to control the children or to teach them. They do not trouble to see that the pupils attend regularly. In fact the attendance is highly irregular. The Register, which is well kept, shows that many children only attend for half a day, and even that is not regular. The percentage attendance would appear to be well below 50% in the winter quarters and far less in the summer time when many of the people are probably out of the village.

EXD.

Ottawa, May 30, 1936.

Right Reverend Sir:

For the past three years Inspector Barry has reported that the services of Rev. S. Kinley, teacher of the Gitladamicks Indian Day School, are unsatisfactory. The Department has deferred bringing this matter to your attention, hoping that Mr. Kinley would gain by his experience.

However, the report of Mr. Barry's visit to this school on the 5th instant reads, in part, as follows:

"The teacher, Rev. S. Kinley, is the local Anglican Missionary. He has had no Normal Training whatever. In 1934 he attended the Summer School in Victoria and received the usual Provincial certificates in Primary Work as well as the usual Provincial Certificates in Rural and Indian Problems. His Summer School work helped him during the following year. I have done my best to indicate and demonstrate the best methods to be followed in teaching these Indian children, but the result of all the effort expended here has been very disappointing in that very poor progress is being made by the pupils. The Missionary is, of course, doing his best to instruct the children, as well as to carry on the other duties that fall to his lot - Missionary Work, care of the sick, etc. Owing partly to his lack of professional training, but more to his natural lack of teaching ability, he simply is not able to get worth while results in this school.

The Indians are quite well aware that the teacher is neither able to control the children or to teach them. They do not trouble to see that the pupils attend regularly. I would strongly recommend that as soon as possible a trained teacher be appointed who is also a trained nurse. Such Anglican teacher-nurses are available."

It is felt that you will agree that it would be in the best interests of the Indian children who should attend the Gitladamicks School to have a qualified teacher, and the Department would appreciate your nominating a qualified teacher to take charge of this school on September 1st, next.

THE MONTH OF MAY 1936.

GITLAKDAMICKS:

At the present time school is carried on in a room in the mission house under conditions which are not entirely satisfactory both as regards accommodation and location. The present teacher, Rev. S. Kinley, is not a trained teacher, and whilst he does his best to instruct the children, the school is not making the progress it should, with the result that the Indians are dissatisfied, especially as they know other villages on the river have fully trained teachers in charge of the schools.

I would strongly recommend, as I have done in previous reports, that a suitable school building be put up at the earliest opportunity, and that a fully trained teacher be appointed.

A married man would be preferable, especially if his wife were a trained nurse capable of dispensing simple drugs, and attending to the needs of the sick in the village. Being cut off completely from the outside from November to April in each year on account of the winter freeze-up, the people of Gitlakdamicks have a special plea in this regard, and the appointment of a nurse or field matron would go far in solving the problem of medical service for the Indians on the upper Nass.

EXTRACT

In reply to your letter dealing with the change of teachers at Kitkatla, I have already arranged this and have so informed the Indian Agent at Prince Rupert and in due time you will no doubt hear from him.

Re. No. 168. 32A-1.

I regret to read that the Indian School Inspector has reported unfavourably of the work Mr. Kinley of Aiyansh and Gitladamicks has been doing. Mr. Kinley has the highest respect of myself and of all who know him, the natives included. The children could have nothing but profit in their association with this most excellent man and this cannot be considered a small matter, but rather the most important feature of the work.

As the Inspector says, Mr. Kinley profited by his special summer training at Victoria and I am wiring him to go there again this summer, and I have no doubt but that he will again be helped and we shall see what will be the result at the end of another year.

He is such an outstanding man that I hesitate to lose him.

A couple of years ago the Inspector sent in a most unfavourable report of Mr. Flores at Gitwangah, but through my solicitation he was tried out further with the result that Mr. Barry's recent reports are quite favourable.

I believe the result will be the same in the present case if you will be good enough to let the matter continue as at present.

I am,

Yours faithfully,

Right Rev. Sir:

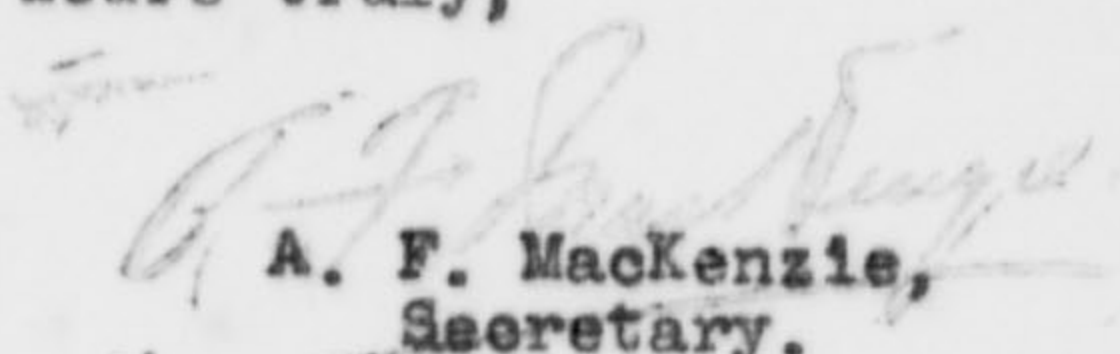

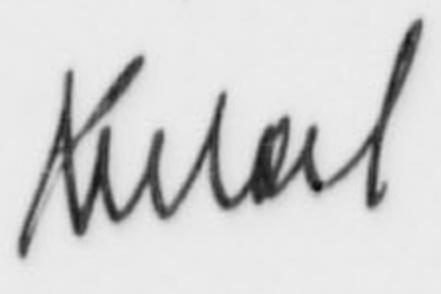

The Department is in receipt of your letter of the 12th instant, with reference to Rev. S. Kinley, teacher of the Gitladamicks Indian Day School. It is noted that Mr. Kinley will take another summer school course this year. Under these circumstances, the Department agrees to his remaining in charge of the school for the academic year 1936-37.

However, if on the occasion of his next visit, the Inspector does not find that there has been a decided improvement in the academic work at the Gitladamicks School, the Department will be unable to consider re-engaging Mr. Kinley after June 30th, 1937.

Ottawa, June 24th, 1937.

Right Reverend Sir,-

The Department has recently received our Inspector's report regarding his inspection of the Gitladamicks Indian Day School on the 5th ultimo. It appears from this report that progress during the past year has been very unsatisfactory and it is further stated that the teacher, Rev. S. Kinley, is quite unable to control the children.

With regard to Reverend Mr. Kinley's services as a teacher in this school, I would refer you to official letter of June 22nd, 1936, in which you were informed that, unless there was a decided improvement during the academic year just ending, the Department would be unable to consider re-engaging Mr. Kinley after June 30th, 1937.

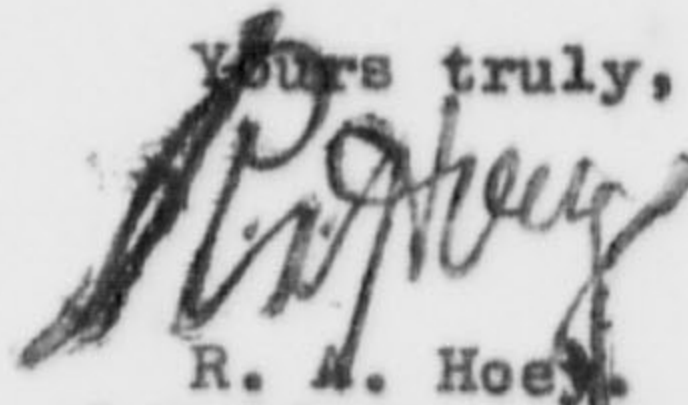

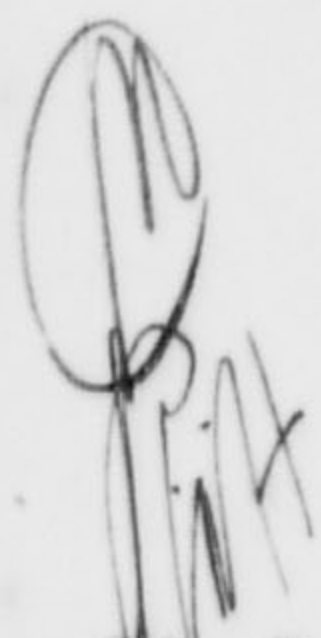

In view of the report now received from our Inspector, I trust that you will arrange to nominate a fully qualified teacher to take charge of this school on September 1st.

As Indian Agent Collison, Prince Rupert, B. C., is fully conversant with conditions at Gitladamicks, it would be advisable for you to select two or three qualified teachers and have them interview Mr. Collison. He will decide which is the most suited for the Gitladamicks Indian Day School and the name and qualifications of this teacher will then be forwarded for our approval.

Dear Sir:

"Re your letter of June 24th re teacher for Gittahamuck.
There must be some misunderstanding by the Department in connection
with the inspection report of this school.

He very expressly told Mr. Kinley that he intended to give

But further I know that Inspector Barry has said that
he would not suggest any change in teacher until such time

At present the school is held in a room in our

It is out of the question to send a successor to Mr. Kinley

I have discussed this matter with the Indian Agent - Mr. Callaghan and he entirely agrees with me, that until such time as a new school with quarters for 4 teachers are provided that it would be inexpedient to make any change in the teachers, and as I have said, the Inspector feels the same about this.

GITLAKDAMIX SCHOOL

The following day, Friday the 17th, most of the forenoon was taken up with interviewing Indians and dealing with disputes over estates, traplines, and other miscellaneous matters. In the afternoon a visit was made to the day school which is held in a room in the mission house. There were sixteen pupils present.

As has been previously pointed out, there is no school building at this village, and school conditions are not satisfactory.

The cost of a new school building has been placed in the Estimates for several years past and I would again strongly urge that this matter be taken up at the earliest possible date.

Right Reverend Sir,-

The Department is in receipt of your letter of the 2nd instant, with reference to Reverend Mr. Kinley, teacher of the Gitladamicks Indian Day School.

While the reports received by the Department indicate that Mr. Kinley's work improved somewhat during the past year, at the same time it is quite evident that he is not meeting with the success that might be expected. This is due, no doubt, to the fact that he is not properly qualified and, in addition, apparently lacks ability to properly control the children.

In view of the information contained in your letter, it has been decided to allow Mr. Kinley to remain as teacher of the Gitladamicks School until the end of June, 1938. An endeavour will be made to provide funds in our appropriation for the fiscal year 1938-39 for the erection of a new building at this point. However, it should be distinctly understood that, whether or not a new building is erected next year, Mr. Kinley's services will have to terminate on the date mentioned above.

I have your letter of the 6th instant in which you state that Mrs. Smiley does not wish to be transferred from Massett to Gitlakdamix. The second paragraph of your letter is not very clear. Are we to understand that Mrs. Smiley will remain at Massett?

I note the information contained in the first paragraph of your letter regarding Mr. Kinley. In this regard I have today received a telegram from Rt. Rev. G.A. Rix, Bishop of Caledonia, and enclose, for your information, a copy of our reply.

Will it be possible to secure a qualified teacher to take charge of the Gitlakdamix School during the academic year 1940-41 if we dispense with the services of Mr. Kinley? If it is not possible to secure a qualified teacher it may be necessary to continue him for another year. Dear Sir:

Your File 168-32A-1.

Replying to your letter of the 1st instant with reference to provision of teachers for Gitlakdamix Indian Day School, I would advise that I am informed by Mr. Inspector Barry that the services of Mr. Kinley have been considered unsatisfactory for a number of years as shown in the reports covering this school. Also, the Indians of the Reserve have raised considerable objection to not having a qualified teacher provided for them. There should be no difficulty in securing a qualified teacher for this point.

Mrs. Smiley now advises that she does not wish to be transferred from the Massett Indian Day School to Gitlakdamix. Consequently it will be necessary to find a new teacher for the Massett school.

The Inspector is of the opinion that one teacher will be sufficient for this school for the time being under existing conditions and the need for economy.

It will be necessary to furnish this school at a cost of \$200 plus freight and authority for this expenditure would be appreciated.

Dear Sir:

EXD.
I am in receipt of a letter dated the 25th ultimo from Rt. Rev. G.A. Rix, D.D., in which he writes as follows regarding the Gitlakdamix Indian Day School:

"I believe the Inspector urges that two teachers be provided for Aliyansh or, as it is sometimes called, Gitlakdamix. There are certainly two teachers needed here. The number of pupils warrants it and there is a house provided for one. Where such an extra teacher can be found I do not know. This year neither the Indian Agent or myself have had any applications from teachers. In case an extra teacher can be found and the Department consents to an appointment at Aliyansh, then my suggestion is that a qualified teacher be sent there as senior teacher and the present teacher, Mr. Kinley, be retained as junior. If a senior teacher is not sent, and I doubt if one can be found, then my suggestion is that Mr. Kinley be again left in charge. He at least does fair work as a teacher and has many other qualities of a most valuable nature."

You were written regarding the teaching services at this school in official letter of the 17th ultimo. It is apparent from the recent letter received from Bishop Rix that he is still insisting on retaining Rev. Mr. Kinley.

No reply will be sent to the Bishop until we hear further from you and I should appreciate an early answer.

Dear Sir:

I desire to refer to your letters of June 29, July 3 and July 5, in connection with the Gitlakdamix Indian Day School.

I note that in the letter from Bishop Rix, dated May 28, which you forwarded under cover of your letter of June 29, he was still insisting on retaining Mr. Kinley, although he mentions in his letter that he recently had a personal interview with you, when, no doubt, the situation at Gitlakdamix was fully discussed.

However, possibly by this time you have made arrangements for dispensing with Mr. Kinley's services at Gitlakdamix. Under these circumstances, the transfer of Mrs. E. I. Smiley from the Massett School, to take charge of the Gitlakdamix School, is approved, and she will be allowed the same salary, viz.: \$90.00 a teaching month.

It is not definitely stated in your letter whether, or not, you consider a second teacher necessary for the current academic year. We overlooked providing salary for a second teacher, but if you believe a second teacher necessary, I think it will be possible to provide the funds required. You should let me hear further from you on this point.

As recommended in your letter of July 5, the Department approves the operation of this school for an 8 month period, viz.: from October 1, 1940, to May 31, 1941.

REPRESENTATIVE OF THE TREASURY:

Re: Gitlakdamix Indian Day School, No. 810.

It has been decided to dispense with the services of Reverend S. Kinley as teacher of the above named school and no further salary should be paid to him without advice from this Branch.

To succeed him, the Department has approved the transfer of Mrs. E. I. Smiley from the Massett School to the Gitlakdamix School, at a salary of \$90.00 a teaching month.

This school will be in operation from October 1, 1940, to May 31, 1941. Salary should be paid monthly to Mrs. Smiley during that period.

I enclose copy of letter approving Mrs. Smiley's transfer. Another staff questionnaire will not be required.

Dear Sir:

I am in receipt of Departmental letter 168-32A-1 of the 25th instant with reference to the Gitlakdamix Indian Day School.

In my letter 15/6394, dated June 29, 1940, the transfer of Mrs. Isobel Smiley, at present teacher of Division 2 of the Massett Indian Day School, to take charge of the Gitlakdamix Indian Day School was suggested. Inspector Barry informs me that Mrs. Smiley is very anxious for a transfer from the Massett school where she has been highly successful and I consider her transfer to Gitlakdamix previously suggested would be in the best interests of the Indian children there.

With particular reference to paragraph 4 of the Departmental letter quoted above, the suggestion that the Inspector recommended a seven month academic year from October 1st to April 30th is obviously a mistake for in the covering letter of his last report on the Gitlakdamix school forwarded to the Department under my letter 15/8/5990 of June 5th, an eight month academic year from October 1st to May 31st was recommended. It is presumed that the Department approves of the reduction of the academic year at Gitlakdamix to one of eight months.

Should the Department approve of the transfer of Mrs. Smiley as recommended above, purchase of necessary furnishings for the teacher's quarters will be proceeded with.

Yours faithfully,

D.M. MacKay,

Dear Sir:

In your letter of June 5 you enclosed Inspector Barry's report on his inspection of the Gitlakdamix Indian Day School and it is noted that he again recommends that the services of the teacher terminate on the 30th instant.

In your covering letter you make no special reference to the Inspector's recommendation but from the information contained in your letters of January 10 and February 19 it is evident that you have been in communication with Rt. Rev. Bishop Rix with a view to securing properly qualified teachers to take charge of this school during the academic year 1940-41.

I should appreciate your advising me as soon as you can conveniently do so what the prospects are for obtaining new teachers as it is apparent from the Inspector's report that Mr. Kinley's services are not very satisfactory.

It is also noted from the Inspector's report that he suggests that this school operate on a seven-month basis only; namely, from October 1 to April 30. This recommendation meets with our approval.

In the event of new teachers being obtained I would refer you to the last paragraph of official letter of February 13 last authorizing an expenditure for the purchase of furnishings for the teacher's quarters.

Extract from Inspector Barry's report on the
Gitlakdamix Indian Day School inspected on May 15, 1940.

While Mr. Kinley, the Anglican Missionary, is doing all he can to teach the children the fact remains that progress is most unsatisfactory in this school. The Indian parents as represented by the local Council are insistent that a qualified teacher, married if possible, be provided for the senior room and another qualified teacher for the juniors. They do not wish for the Missionary as a teacher either of the Senior or Junior class.

The circumstances of this case were explained in my report to you dated October 9, 1938. Since then the new school has been erected, and Mr. Kinley has been permitted to continue for the time as teacher.

The services of the Rev. S. Kinley should in my opinion be terminated without fail as from the end of June, 1940, and the school equipped with proper desks and blackboards, teachers rooms simply furnished, and a married man appointed teacher as from October 1, 1940. An assistant lady teacher for the junior room will also be required in my opinion particularly if Coqualeetza is closed as a school, there being a number of children there from this village who have quite good homes and who could be educated in Gitlakdamix at less cost to the Department than were they to remain at a residential school.

I would recommend that this school in future operate on an eight months' basis, that is from October 1 to May 1 yearly.

A second teacher has not been thus far secured for Gitlakdamix, and Bishop Rix informed me yesterday that he is continuing to make inquiries for a suitable teacher but at the moment had no one whom he could nominate.

I may say that every effort is being made to secure qualified teachers for the existing vacancies in our Indian Schools, all of which happen to be in the Diocese of Caledonia. The Provincial Department of Education has been asked to assist but owing to the scarcity of fully qualified teachers the province is faced with a similar problem to our own and is not at present, at least, in a position to help.

Dear Major MacKay:-

As requested I have read with care
Departmental letter 168-32A-1 dated August 13th last.

The last two words of your letter of
August 6th 15/8/7074 addressed to the Department,
Paragraph 2 should read Gitlakdamix school. Mrs Smiley
wishes to remain at the Massett school.

The services of Rev. S. Kinley, the
former teacher of the Gitlakdamix Indian Day School should
not in my opinion be again made use of under any circumstances.
A number of more or less adverse reports have been made on
this man during the past five or six years. He has had no
Normal School training nor does he hold a teacher's certificate
in any Province in Canada. He is the Anglican Missionary
in Gitlakdamix and of course the Rt. Rev. G. Rix is anxious
that he be retained as teacher for in that way the Anglican
Church is saved by far the greater part of Mr. Kinley's salary
as Missionary.

I have explained in earlier reports that the
Indians as represented by their Council told the Indian Agent
Mr. Gillett and myself that they wished for an efficient trained
teacher. They wished in fact for two teachers, but I can not
see my way clear to recommend two teachers this year, partly
because of the need for economy and partly because I wish an
experienced trained teacher to organize the school properly
before the children are divided into two separate Divisions.
The second teacher will probably be needed next year. The
Indians told Mr Gillett and myself that in any case they did not
wish to have Mr Kinley even as the junior teacher. They consider
that they have not been treated properly in that they are not
given a certificated teacher when other schools have such teachers

Mrs Henderson, Age 42, widow of a returned man
and with some twelve years experience in Alberta schools is
willing to go to Gitlakdamix, and I consider she would do very
well there. She has an Alberta First Class Certificate.

Mr Noel Stewart wishes for a transfer from the
senior Division at Alert Bay where he has been such a very
great success. He would also do splendidly at Gitlakdamix.

I previously explained that there would be no
difficulty in finding a teacher for Gitlakdamix. The above
named candidates were instructed by me to write to Bishop Rix
which they did, and I do not see any reason for his statement
that teachers were hard to find or that he did not have suitable
candidates.

I certainly trust that the Department will not
permit the reappointment of Rev. S. Kinley. Rev. N. Green
has taken the place of a lay teacher at Kincolith and this
should satisfy Bishop Rix.

Yours very truly

Inspector of Indian

Dear Sir:

Your File 168-32A-1.

Replying to your letter of August 13th, I beg to advise that Mrs. Smiley has decided to remain at Massett and continue as our teacher there. It is also understood that Bishop Rix has nominated Miss Kate Smith, B.A., as senior teacher at Massett and I would appreciate being advised if the appointment has been approved. Miss Smith is a graduate of the University of Manitoba and holds in addition a B.C. Academic Certificate. She has had in all thirteen years teaching experience, the last eight of which have been as senior teacher at St. George's Indian Residential School, Lytton.

The services of Mrs. Jewel Henderson, who has an Alberta First Class Certificate, are available for Gitlakdamix. I have before me a letter from Mrs. Henderson applying for the position and I would recommend that her appointment as teacher there be approved.

The services of a second teacher are not considered necessary until after this school has been organized properly by an experienced teacher holding the requisite qualifications. I regret that I cannot see my way clear to recommend the retention of the Reverend Mr. Kinley as his services as teacher have not been satisfactory.

A copy of Inspector Barry's letter relating to the foregoing matter is attached and also a copy of a letter from the Rt. Rev. Bishop Rix, D.D., covering the Indian Schools in the Diocese of Caledonia.

Dear Mr. Hoey:-

I have recently visited Aiyansh and found that there were quite too many children there for one teacher. The natives themselves saw this and urged two teachers. Both the Inspector and the Indian Agent also realize the necessity of this. Especially is this true when through the closing of the Cocolitz School a considerable number of children will be added to the Aiyansh School and one room of the school will not be able to contain them and certainly one teacher will find it extremely difficult to handle them.

I hope that in this outstanding need the Department will find it possible to appoint two teachers. One of whom will be Mrs. Henderson and the other Mr. Kinley. This I find will be satisfactory to Commissioner MacKay, Inspector Barry and Indian Agent Gillett and certainly to myself and the natives.

Yours faithfully,

My dear Bishop Rix:

I have for acknowledgment Your Lordship's letter of the 28th ultimo, in which you express the hope that the Department will be in a position to supply two teachers for work at the Aiyansh Indian Day School.

I note that the enrolment at the Aiyansh School for the June quarter amounted to 43 and of course the average attendance was substantially less than this. This is a rather high enrolment but scarcely one that would justify the employment of two teachers unless the average attendance from day to day amounted to approximately 45 pupils. Unless the Public School Acts have been changed recently, public schools can only qualify for the payment of grants to two teachers when the enrolment exceeds 48.

 I regret to state that it was not possible to include in this year's estimates the amount necessary to provide two teachers at this school, regardless of what the enrolment might be. All Indian day schools are, as you know, operating on a nine month rather than a ten month basis and, in addition to this, we simply have been unable to secure the funds to open a number of our seasonal schools in the outlying districts. I can only express the hope that this critical and exacting period in which we find ourselves will pass quickly and thus enable us to make more adequate provision for the education of our Indian wards, particularly in the outlying sections of the Dominion.

Yours very sincerely,

Dear Sir:

I beg to advise that Mrs. Jewel Henderson who resigned from the position as teacher of the Gitlakdamix Indian Day School has advised Mr. Indian Agent Gillett that she is prepared to return for the coming term. Mrs. Henderson suffered a knee injury at the school last fall but appears to have fully recovered.

I would recommend that Mrs. Henderson be appointed as teacher at Gitlakdamix and would appreciate the Department's decision by air mail.

Copy of a letter from Rt. Reverend Bishop Rix consenting to the appointment of any applicant for any school in his diocese recommended by this office is enclosed.

Yours faithfully,

Re: Gitlakdemix Indian Day
School, No. 810.

In memorandum of May 13, 1942, you were advised of the resignation of the teacher, Mrs. Jewel Henderson. It has been decided to re-appoint her as teacher of this school for the academic year 1942-43 and she should be allowed salary at the same rate as previously; namely, \$85.00 a teaching month, plus bonus. Her appointment will date from October 1, 1942, and the school will be in operation to May 31, 1943.

Dear Sirs:

I am very sorry but, for the sake of my health, I feel I must resign from teaching school and rest, for at least a year, depending on Doctor's advice.

I have enjoyed working with the Indian children very much and I am sorry to leave, but in fairness, both to the children and myself, I think it is necessary.

I remain,

Yours very truly,
Jewel Henderson.

With reference to the vacancy at Gitlakdamix Indian Day School, I would advise that I have received an application for this position from Miss Louise Jane Brunton who is a fully qualified teacher of many years' experience and, although 60 years of age, appears to be extremely capable and is highly recommended by one of her former Inspectors, Major Manning.

Bishop Rix has given me authority to employ any suitable candidate for the vacant schools in his diocese, and as this woman is an Anglican there will be no difficulty about his confirming the nomination and I would recommend that she be appointed to the position.

The former teacher received \$85.00 per month, an amount that is entirely inadequate for this distant and isolated position as the cost of reaching the point from Vancouver is about \$100.00 and supplies are equally costly to take in. I would, therefore, have no hesitation in recommending payment of \$100.00 per month for the position.

It would be appreciated if you would kindly advise me by air mail if this application has your approval, subject to the confirmation of Bishop Rix, as owing to travel conditions it has been necessary for Miss Brunton to reserve a berth on a north bound steamer leaving here on the 8th instant.

Mr. J. Gillett, Indian Agent, Prince Rupert, B.C.

I have your letter of the 3rd instant, with reference to payments made to Miss J.L. Brunton, teacher of the Gitlakdamix School. I am informed by the Treasury Branch that the payments made to her since January 1, 1944, have been the same each month. Consequently it is difficult to understand the complaint that she has made to you. The monthly payment made to Miss Brunton is as follows:

Salary	\$100.00
Bonus (17% of \$100)	<u>17.00</u>
Gross amount	\$117.00
<u>Deductions</u>	
Retirement fund (5% of \$100)...	\$ 5.00
Income Tax	<u>16.50</u>
Total deductions	\$ <u>21.50</u>
Net salary	\$ <u>95.50</u>

In connection with the deduction of 5% for the retirement fund, this amount is kept to her credit and interest allowed and both principal and interest will be returned to her when she gives up duties as teacher of an Indian school.

Jan. - June inclusive

usually it reads:

Nov. reads:

Bonus	Gross earnings	Retained	Income tax	Net
\$11.90	81.90	3.50	17.08	\$ 61.30

Why so much more deducted for income tax in Nov. & Dec.

Income Tax Deductions at the Source.

We have for acknowledgment your letter of the 13th ultimo relative to the above-noted. In this connection we wish to advise that in accordance with the T.D.1, which you completed and submitted to this office, you are taxed on a monthly salary of \$118.42, as a married person with no dependents.

Circular letter C477039-1-3 of October 13, 1944, was directed to all employees to call their attention to the new form T.D.1A, Tax Deductions Exemption Claim, and advised that any employee claiming exemption under the provisions as noted on this form must file this form prior to January 1 in any year, to claim exemption for the following year, and that the relief given by filing this form would not extend beyond that taxable year. In order to stop tax deductions at the source effective January 1st, 1945, you should complete two copies of this form and submit same to this office immediately by air mail. We are enclosing herewith three blank forms. The third copy you should retain for future reference.

This office is unable to adjust any overpayment of tax which you may have made this year. You will have to request a refund of same from your local Inspector of Income Tax when filing your 1944 Income Tax Return.

Mrs. H. Henderson, who was the teacher at Aiyansh states that there will be at least 66 children of school age in that place this year. There were 54 on the roll during the last term and only 3 of these will not be returning in the fall. According to her records and ours there will be 15 beginners in September.

I recommend that a second teacher be appointed.

The Department is no doubt aware that the school is a two room building and there is sufficient room in the teacherage at the end of this building to accommodate another person.

Dear Major Mackay,

Having had a talk with Indian Agent Gillett I am making the following recommendations —

Miss Jane R. Younker and Miss Jean I Kirk,
both of 3454 Vaniamos St. Vancouver, to be teachers
at Gitlakdamix (Aiyahsh) School.

We had thought to send Miss Younker to Kitkatla but Miss Kirk desires to be with her. Aiyahsh requires two teachers and is not easy to reach in winter months and they are ready to go in Sept. As there are not sufficient teachers to fill all the schools it would be better to leave those within easy distance in the hope that later on there may be more applications.

Miss L. J. Bruntow, 2371 Palmerston Ave,
West Vancouver, to resume her duties at Massett.

Miss Freeman to be transferred from
Kitkatla to Greenville.

Rev Norman Green to continue as teacher
at Kincolith.

Trusting this will be satisfactory to you.

I remain,

Sincerely Yours,

J. B. Gibson.

I am forwarding herewith Mr. Indian Agent Anfield's letter of August 1st from which it will be noted that Miss Jane R. Younker and Miss Jean I. Kirk have resigned as teachers of the Gitlakdamix Indian Day School. Also enclosed is the Agent's letter of August 15th recommending the appointment of Mrs. Harold Henderson to the position as senior teacher at this school.

JK
Bishop Gibson is at present in the vicinity of Dawson Creek and it is not possible to obtain from him nominations, but he has advised that he is prepared to nominate any applicants for schools for which he has the right of nomination if they are acceptable to the Department.

I would recommend that the resignations of the Misses Younker and Kirk be accepted and that Mrs. Henderson's appointment to the position as teacher of the senior room at the Gitlakdamix Indian Day School be approved.

Further to Agency letter of July 30th, today's mail brought in the resignations of Miss Jane R. Younker and Miss Jean I. Kirk, as teachers at the Gitlakdamix Indian Day School.

These young ladies in submitting their resignations effective June 30th, 1946, informed me that they were both being transferred to foreign fields, which information would seem to bear out a report that has reached me to the effect that the Prairie Bible Institute which sent these girls out here are not anxious to continue the practice following the marriage of one of their trainees to a local Native.

It is thus recommended that these resignations be accepted with very real regret as these two teachers did an outstandingly good job at Aiyansh and news of their departure will be a very sad blow to the Gitlakdamix Indians. Would you please add these two positions to the list previously submitted and anything that you can do to assist in securing replacements will be appreciated.

Ottawa, Ont.

Herewith quarterly report of the Agent, Bella
Coola Indian Agency, also administering the Skeena River
Agency, for the period ending June 30th, 1946.

EDUCATION:- Skeena River Agency: schools were inspected at
Port Simpson and Kitkathia. At Simpson there should be a change
of teachers this fall. At Kitkathia there should be a two
room school and a detailed report on this has reached the
Department. The situation at the Crosby Girls Home at Port
Simpson is difficult but it is recommended that the school be
re-opened next term, and a new staff appointed. Schools at
Gitlakdani, Greenville, Kincolith and Essington appear to
have functioned with satisfaction. The seasonal school at
Sunnyside is being kept open through the summer. The one room
school at Port Edwards will become a two room school this fall.
The Great need is for a Departmental Inspector to co-ordinate
and supervise the schools. Agents have not the time required
to do this work in a worthwhile manner.

Attached is an application from Miss Violet Wishart for appointment as teacher at the Gitlakdamix Indian Day School, along with a letter in support of this application from Mr. Indian Agent Anfield. Although Inspector Davey was rather doubtful of the advisability of employing Miss Wishart in view of the recommendation of Mr. Anfield, who was associated with educational work both as a teacher and principal prior to his appointment as Indian Agent, the Inspector is prepared to support this application and recommends the transfer of Mrs. Lucy Wishart to the same school. Mrs. Wishart is a trained teacher and the mother of the applicant, and it is felt that she will be able to give assistance and direction to her daughter if they are both at the same school.

It is understood that Mr. Anfield has been able to secure an applicant for the position which will be created at the Port Edward Indian Day School by transferring Mrs. Wishart, and as soon as the application form has been received it will be forwarded to the Department.

Attached please find application of
Mr. Duncan de Kergommeaux for position of teacher at Port
Edward Indian Day School (senior room). His wife, the former
Miss Olive Wishart, will handle the junior room.

For your information, Mrs. Wishart and her daughter,
Miss Violet Wishart, were sent to Aiyansh on Thursday, October
18th, as teachers of the two room school at Gitlakdamix. The
transfer to be effective October 15th in the case of Mrs. Wishart
and the new appointments of Mr. de Kergommeaux and Miss Violet
Wishart also on October 15th.

Further to my letter of October 15th in connection with the employment of Miss Violet Wishart as teacher at the Gitlakdamix Indian Day School and the transfer of Mrs. Lucy Wishart to the same school from Port Edward and in particular the final paragraph wherein I intimated that Mr. Anfield would be recommending the appointment of a teacher to replace Mrs. Wishart, enclosed herewith is application of Mr. Robert Duncan de Kergommeaux who although not a certificated teacher is, following an interview with School Inspector Davey, recommended for appointment.

The position with respect to these various teachers at this time now is:

Mr. R. de Kergommeaux - recommended for appointment as teacher at the Port Edward Indian Day School (Senior Room). A letter received from Mr. Anfield indicates that Mr. de Kergommeaux in anticipation of the Department's approval of his appointment commenced duties Oct. 15th but confirmation of this will be forwarded at a later date together with questionnaire and TD 1 forms.

Mrs. Olive de Kergommeaux, nee Wishart - Port Edward Indian Day School (Junior Room).

Mrs. Lucy Wishart - transferred to Gitlakdamix Indian Day School effective Oct. 15th.

Miss Violet Wishart - appointed to the Gitlakdamix Indian Day School, reference Mr. Neary's letter of Oct. 20th (file 168-32A-1 WT). Questionnaire and TD 1

Re: Gitlekdamix Indian Day School

Further to my letter of December 9th wherein I advised that Mr. Anfield was being asked for confirmation of the date on which Miss Violet Wishart assumed her duties as teacher of the above mentioned school, I am enclosing for your information a copy of my letter of December 12th to the Agent and his reply of December 23rd.

You will note that Miss Wishart actually commenced duties on October 20th but in view of the remote location of the school and transportation and other costs which the teacher has had to meet, and inasmuch as she is receiving the minimum salary and will not have a full academic year of employment, I would recommend that she be assigned as from October 15th.

Re yours of December 12th, 1947, file 12-11-2, re Miss Violet Wishart, the date of October 10th given in my letter of December 5th was a typographical error. Miss Wishart's statement that duties commenced on October 15th had reference to the date on which she left Prince Rupert for Aiyansh. She actually commenced duties on Monday, October 20th. It is recommended however that in view of the heavy expense incurred by these teachers at Aiyansh in having to take in with them a winter's supply of food that payment of both Miss Violet Wishart and Mrs. Lucy Wishart be as from October 15th if at all possible.

- (b) Third Class Teaching Certificate issued by Department of Education, Province of Saskatchewan to Miss L. Leflar. Certificate dated March 1, 1912 and expired on June 30, 1913.
- (c) Marriage License for Miss Leflar to Sydney Wishart dated August, 1913.

In other words, Mrs. Wishart holds a Third Class Non-professional Certificate (not a license to teach) from the Province of Manitoba and a Third Class Certificate from the Province of Saskatchewan which expired some thirty-four years ago. It is also noted that she was given a temporary British Columbia Certificate which was extended to June 30, 1946.

If you will refer to article No. 47 of the April issue of the Bulletin, you will find that clause nine reads as follows:

"Teachers holding Third Class Certificates, Teaching Permits and similar licences based upon short teacher training courses and incomplete high school academic standing will be classified as Grade 1 Teachers only". This means that Mrs. Wishart would normally be entitled to a maximum salary of \$112.00 a teaching month. However, the salary schedule also provides "that no teacher in 1947-48 and thereafter, shall while holding the same position held in 1946-47, receive a lower salary than the total amount paid him in 1946-47". As Mrs. Wishart was receiving \$131.00 a teaching month previous to the inauguration of the salary schedule, the Department has continued to pay her at this rate and she is not entitled to any increase in salary until she produces evidence of holding a higher class of teaching certificate.

There is not much that can be added to this Signal other than that Mr. Shaffer is suffering from high blood pressure and seems to be under an emotional strain which would not be conducive to good work in this over-crowded school for one teacher.

Your instructions regarding the future of this school will be appreciated. As there has been frequent communication between Mr. Shaffer's parents, the Department at Ottawa, and this office, a copy of this correspondence is being forwarded direct to Mr. Neary of the Schools Branch.

Re: Gitlakdamix Indian Day School

As you are aware, Miss Sarah Freeman and Miss Martha L. Nichols have been appointed as teacher at the above mentioned school. I am in receipt of advice from Supt. Anfield that the Naas River is presently completely impassible and it will be necessary for these teachers to be flown in to Aiyansh from Terrace, B.C. A plane has to be chartered for this purpose as there is no other method of transportation at this time and Mr. Anfield has requested that, if possible, the Department pay some portion of this cost. As the usual boat transportation is not available I feel that consideration should be given to this request and would recommend that the teachers be required to pay half the plane charter, the Department to pay the other half. I have today written to Mr. Anfield asking him to advise what the fare will amount to and will forward this information on to you when received.

Miss Nichols left Vancouver last Wednesday to connect with the plane chartered by Supt. Anfield. However, just prior to her departure a wire was received from Mr. Anfield advising that due to icy conditions the plane would be unable to land at Aiyansh. We were unable to contact Miss Nichols in time to prevent her sailing and she is now at Prince Rupert awaiting improvement in weather conditions. Under the circumstances and as the delay is something over which Miss Nichols has no control, I would recommend that salary be paid her as from February 5th, the date on which she arrived in Prince Rupert.

Gitlakdamix Indian Day School

With reference to my letter of February 7th it will be appreciated if the Department will inform me as to whether or not my recommendation that the salaries for the teachers at the above mentioned school be paid as from February 5th.

As explained in my letter mentioned above these teachers were considerably delayed in Prince Rupert due to weather conditions, which also necessitated the use of a chartered plane to reach the Gitlakdamix school. However these teachers left by chartered plane on February 17th from Prince Rupert for Aiyansh. We have not had confirmation of their arrival but it is assumed that they have now taken over their duties.

As you are probably aware this is an isolated point and mail contact is most irregular. This has been however complicated by the adverse weather conditions.

Sir,

Referring to the returns received from the Kitla-
damicks school I beg to say that a cheque for \$87.50,
being the payment for the 63 days during which the school
was open in the March quarter, 1909, is being sent to Mr.
McCullagh in your care. This is another case in which the
returns should have been forwarded immediately after the
close of the quarter and, as you have already been advised,
in future payment cannot be considered unless they are more
promptly received.

The second returns shows that Mr. George was in
charge of the school for 138 days during the June, December
and March quarters, last, and The Department agreed to pay
him at the rate of \$500.00 per annum and a cheque for
\$319.44 is being sent according to instructions to His
Lordship the Bishop of Caledonia in your care.

Sir:-

On my appointment as teacher of the Gitlakdamiks Indian school, I was given to understand that my salary commenced at the time of leaving to take up my duties.

I left Vancouver on Sept 19th of last year, and after coming to this village, opened school on the 1st Oct. The reason for my not doing so before this date was that the Indians had not returned in full from the canneries.

As I have so far received no remuneration for the fraction of the quarter ending Sept 30th 1916, I would be glad if you would take it up with the Department with a view to having the matter adjusted.

Thanking you for any trouble you may take,

Sir,—

I beg to inform you that Mr.
R.R. Johnson, who recently vacated the Citlekdamike
Indian Day School, Nass River, has written stating that
he is entitled to salary for the months of August
and September. The Department paid him only \$75.00
for the September quarter.

I would remind you that the Department
decided to pay the Nass River teachers for the full
twelve months instead of for ten teaching months as
formerly.

Sir:

I have to acknowledge receipt of your letter of the 30th ultimo, enclosing an application from Miss Helen Winstone for the position as teacher of the Gitladamix Indian Day School, and stating the qualifications and experience which she possesses.

In reply I beg to say that the Department will approve of the appointment of Miss Winstone to succeed Mrs. Newnham. Miss Winstone should arrange to begin duties early in September, next. The salary allowed will be at the rate of \$900 per annum, supplemented by the bonus provided by law. Payment of both salary and bonus will be based on ten teaching months in the year. She will also be allowed fuel and light. Please inform Miss Winstone accordingly, and arrange with her to take up duties early in September. I shall be pleased if you will grant her any assistance you can in her work at this school.

Sir:

With reference to that portion of your report for the months of February and March, last, regarding the resignation of Miss Helen Winstone as teacher of the Gitlakdamix Indian Day School to take effect at the end of the present school year, June 30th, next, I have to request that you will arrange in due time to obtain the services of a qualified teacher to succeed her and to begin duties when the school reopens on or about September 1st, next. I may say that, if a teacher with proper qualifications is obtained, we will be prepared to pay salary at the rate of \$90 per teaching month. We will also provide the fuel and light required. We will, however, be unable to pay any transportation expenses for the teacher in travelling to the school.

It is hoped that you will be able to obtain the services of a teacher to begin duties on the date mentioned above. The name, qualifications and experience of any applicants received by you for this position should be submitted for the consideration of the Department.

Sir:

With reference to that portion of your report of the 26th ultimo on your Agency for the months of August and September, last, informing the Department that you have not been able to obtain the services of a teacher for the Gitlakdamix Indian Day School, I beg to say that this has been noted. Should you, however, be able to obtain a suitable teacher for this point before the river closes, I shall be pleased if you will forward the name, qualifications and experience of the person whose services you obtain.

It is also noted that, as there will be no resident missionary at Gitlakdamix this winter, it will be impossible to send in a lady teacher. It is hoped, rather than that the school work at this point be discontinued during the coming winter, it will be possible to obtain the services of a man with the necessary qualifications in order that the school work can be carried on.

Sir,-

I have your letter of the 15th instant, informing the Department that you have appointed Paul Mercer, a native, as teacher of the Gitlakdamix Indian Day School and that he commenced duties on the first instant. The Department will approve of the appointment of Mr. Mercer temporarily until such time as it is possible to secure the services of a qualified teacher.

We note that the salary to be paid will be at the rate of \$50.00 per teaching month without allowances. The Department approves of the arrangements made by you in securing this teacher to carry on the work at Gitlakdamix. You will be good enough to see that he prepares returns showing the attendance, days taught, etc., at the end of the present month and, subsequently, at the end of each quarter during the period of his engagement. These returns he should forward through your office, to be certified by you and transmitted to the Department when payment of salary due him at the above rate will be made.

Ottawa, July 22nd, 1927.

Sir:

I have your letter of the 13th instant, enclosing an application from Mrs. Mae S. Studdy, together with copies of testimonials, for the position as teacher of the Gitlakdamix Indian Day School, and stating the qualifications and experience which she possesses.

In reply I beg to say that the Department will approve of the temporary appointment of Mrs. Studdy, her retention in the position to depend upon the success she achieves as shown by reports from yourself and Mr. Inspector Cairns. It is noted that, on account of the difficulty in obtaining a teacher, and the fact that there is no accommodation provided, and also in view of your recommendation, the Department will consent to Mrs. Studdy taking charge of the teaching services at this school. The salary allowed her will be at the rate of \$85 per teaching month. I have to request that you will later inform the Department whether she accepts the position and also the date upon which she begins duties.

Your obedient servant,

Sir:

I beg to acknowledge receipt of your letter of the 25th ultimo in which you state that Mrs. Mae Studdy has tendered her resignation as teacher of the Gitlakdamix Indian Day School.

I note that you recommend the temporary appointment of Rev. Henry Flores, at a salary of \$75 per teaching month. The temporary appointment of Mr. Flores is approved, but, before making the appointment permanent, the Department desires a report stating whether he is prepared to conduct the school during regular hours. If, owing to his missionary duties, he would only be able to keep the school open irregularly, it is considered that it would be advisable for you to make immediate efforts to secure a teacher who would devote full time to the school work.

MEMORANDUM FOR FILE:

Re teacher for Gitladamix School.

In letter of April 10, 1931, on File 151-16-1, the transfer of Rev. S. Kinley as teacher of the Gitladamix Indian Day School, to succeed Rev. Henry Flores, who is being transferred to Kitwanga, is approved.

Rev. Mr. Kinley will take charge of this school on June 1st, and salary is to be allowed him at the rate of \$85 a teaching month.

Ottawa, July 23rd, 1931.

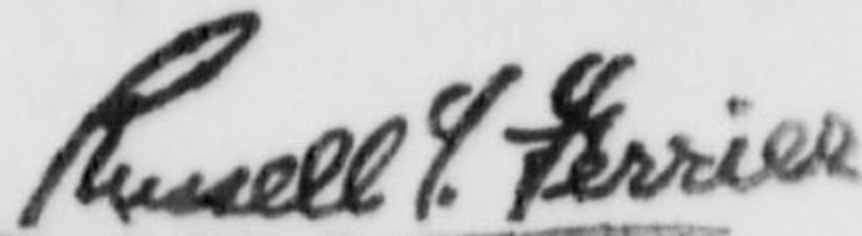

Sir,-

The Department is in receipt of the June quarter return of the Gitladamicks Indian Day School.

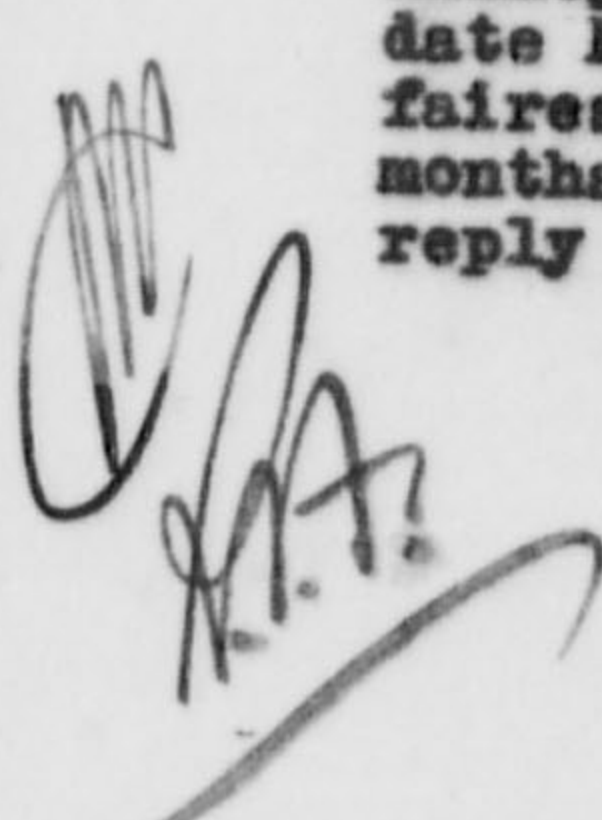

It is noted that this return is signed by Rev. Samuel Kinley and states that he took charge of the school on May 13th. In preparing the return, he states that the school was open for thirty-three (33) days during the quarter and it would, therefore, appear that the return that has been forwarded only covers the period during which Rev. Mr. Kinley has been in charge of the school. As you will note from official letter of April 10th, last, the Department understood that Rev. Mr. Flores would continue in charge at Gitladamicks until June 1st, on which date he would be succeeded by Rev. Mr. Kinley.

Please let me know for what length of time Rev. Mr. Flores conducted the Gitladamicks School during the June quarter in order that the amount due both Mr. Flores and Mr. Kinley may be paid. If Mr. Flores was in charge until the date Mr. Kinley apparently arrived, it would appear that the fairest way to divide the salary would be to pay one and a half months to each. No payment will be made, however, until your reply is received.

Your obedient servant,

Russell T. Ferrier.

Sir:-

I beg to acknowledge receipt of your letter of July 23rd, relative to the June Quarter of the Gitlakdamix Indian Day, and in reply would state that the day school was closed on March 27th and was not opened again until May 13th by the Rev. Mr. Kinley who had then taken charge succeeding Rev. Mr. Flores as missionary.

I would recommend that the 33 days during which the school was open in the quarter be made payable to Rev. Mr. Kinley.

Re: Citlakdamix Indian Day
School, No. 810.

The Department has appointed Miss Louise Jane Brunton as teacher of the above school at a salary of \$100.00 a teaching month, effective November 10, 1943.

I enclose copy of letter of appointment, also staff questionnaire, but it may be some time before I can give you the T.D. 1 form and cost-of-living bonus form, as mail from Citlakdamix is very uncertain. I trust, however, that you can place her name on the pay-list, in order to ensure that she will obtain her salary as soon as possible.

Sir,

I have the honor to enclose to you for the consideration of the Department an application from Mr. J. B.M's Cullagh, a worthy missionary and a successful Teacher amongst the only loyal band of Indians on the Upper Naas River. This application after being delayed on the way down the river has ben mislaid at my office for some months.

I am very anxious that the Government should in some way assist this band of Indians living in the midst of the most disloyal of the heathen Indians in British Columbia.

Their Chief Abraham assisted by Mr. M's Cullagh continues to maintain the cause of the Government against the combined influence of disloyal bands on every side of them. The old log house built by Mr. M's Cullagh and the Indians was accidentally burned down last winter. I trust that you can recommend the assistance and recognition of these Indians by a donation of at least half the amount asked as sufficient to build a suitable school house.

Sir,

I beg to submit for your consideration this an application for a monetary grant to enable me to build a school house on this , the Gitlakdamiks Indian Reserve.

The Church Missionary Society's School, which had been for a number of years at this place, was last winter destroyed by fire: there is, therefore, now no school on the reserve. In asking for this grant I would invite attention to the fact , that up to the present the C. M. S. has borne all the expense connected with the secular education of these Indians: no assistance having yet been rendered by the Govern - ment.

I hope therefore , that this application may be favorably entertained . A suitable building could be erected for five hundred dollars.

Before taking any decided action in the matter the Dept thought it well to have some particulars from Agent Todd. That officer states that the number of scholars attending the Aiyansh school is 31 & that the school is distant from the nearest Methodist school about -

Sir,

Reverting to your letter of the 29th. of August last I have the honor to enclose herewith Voucher No. 790, ^{in duplicate} with supporting Vouchers of Receipt, shewing the expenditure of \$500.00 accountable advance made for the erection of the Gitlakdamicks School building near Aiyansh Mission. Upon the receipt of your letter above quoted Mr. Todd, the Agent for the district, had to be communicated with who in turn made known to the Reverend J. B. McCullagh - the Missionary in charge of the work - the regulations required to be observed

I have the honor to be

Sir,

Your Ob'dt. Servant,

Indian Superintendent.

The Deputy Supt. General

In April last I wrote to His Lordship Bishop Du Vernet asking for plans etc for the schools as per request contained in letter No 325,8,5, dated Decr 21st, 1909, from Mr Supt Vowell, and addressed to Mr Mc Intosh, newly appointed Indian Agent for the Naas District, with the result that the Bishop replied saying he had written to the Ven Archdeacon Collison and Rev Mr M'Cullagh for the information required, since when nothing has been heard, and I have written again to the Bishop to know the cause of delay, as I am anxious to carry the Departments wish into effect.

I have the honor to acknowledge receipt of your letter dated April 7th ultimo No 299590/I relative to the arrangement between the Department and Chief James Ksidiydwug of the Kitladamiks Band.

In reply I beg to say that I met an Indian, Wm Russ, of Kitlakdamiks, when at the Naas River. He told me that the planer provided was a second-hand one and was not in working order. He said the people want several lengths of leather belting and that he thought the Indians could fix it up if the Department would supply the belting.

Just now, however, the people are away at the fishing stations. I shall be going up to all the settlements as soon as they return and I will then get an idea as to the quantity required.

As to the matter of the school house I would ask you in connection to peruse my letters to you dated May 14th re the attitude of Indians at this point, and of yesterdays date in the form of a report on the schools of this Agency and which accompanied my annual report.

I have the honour to enclose herewith a letter dated the 6th inst. received from Mr. Agent Lorenz stating that new Indian Day School buildings are required at Aiyansh and Kitlaodamax. Mr. Lorenz points out that the Reserves of these two Bands of Indians adjoin one another and that one school situated at the boundary line, which is about 1 mile distant, from each village, would serve for the children of both Bands and that the Bishop of Caledonia, with whom he states he discussed the school question, favoured the suggestion. The Indians it seems, from what the Agent states, were in October last in favour of one school for the two villages and he does not anticipate any difficulty with the Indians in securing the necessary land to erect a Day school building and from my own observation it may be added that when at the above places last Spring the matter was discussed between the Indians and myself and they decided that one school, as suggested between the two Reserves, would be acceptable.

I have the honor to advise you that new Indian day school buildings are required at Aiyansh and Kitlaodamax.

In connection I beg to state that the Reserves of these two bands of Indians are adjoining one another, and that one school situated at the boundary line, which is about one mile distant from each village, would serve for the children of both bands.

The Right Rev. F.H. Du Vernet, Bishop of Galedonia, with whom I discussed the school question, is favoring my suggestion, adding that an improved day school, as outlined by the Honorable the Superintendent General, be supplied, and in this instance a mid-day meal would meet the difficulty.

The Indians at Aiyansh and Kitlaodamax, who I visited last October, were then in favor of one school for the two villages, and I do not expect that any difficulty will arise with the Indians in securing the necessary land to erect the Day School building.

Trusting that you and the Department will favorably consider the erection of one day school building for the two villages,

I have the honor to be,

Sir,

Referring to my recent trip to the Naas River and my interview with the Chief and principal men of the Kitlacadamax reserve, I may state that on that occasion they mentioned their desire for a school, and a teacher, so that their children might be educated, etc.; they also informed me of their being at the time engaged in constructing a saw mill for the purpose of improving their village by erecting more commodious and modern houses. They asked that I procure aid from the Department for them which I promised at the same time advising them to forward to me a written request embodying what they were particularly in need of. I am now in receipt of two communications, dated 15th instant, one from Chief James Ksidiyawug, and one from the Rev. J.B. McCullagh, who has done so much as Missionary amongst them during the past eighteen years, or so, copies of which are herewith enclosed. A perusal of these two letters will, I think, be pleasing to the Department and I have no hesitation in strongly recommending that the not unreasonable request of the Kitlacadamax Indians be acceded to.

We had already mentioned the matter of the school to Mr. Green, the Inspector of Indian Schools, who stated that if we were able and willing to erect such a building the Department might possibly make us a grant of the material and fittings necessary for the completion of such a building. Since your visit we have been thinking about these things and have concluded among ourselves to ask the Indian Department to make us a grant of a Planer for our saw mill in lieu of the lumber necessary for the school. This would help us in every way. We could then produce the building material for the school free of any further expense to the Department, with the exception of nails, windows, doors, shingles and other fittings.

Right Reverend Sir,

I have the honour to refer Your Lordship to previous correspondence in connection with the erection of a new school building for the Kitladamax Indian reserve. The Department has lately heard with much regret of the destruction of the building on the Alvanah reserve and it is thought that this might be an opportune time to again give careful consideration to the question of a union school for these two villages. A building which could be erected on the boundary between the two reserves would only be one mile from each of the villages. The Department would be prepared to erect a suitable building and provide an adequate salary for a qualified teacher. It ~~may~~ might also be deemed expedient to furnish the children with a light mid-day lunch.

Mr. Perry, the Agent, has been asked to go more carefully into this matter and I should be pleased if Your Lordship also would take it up with the resident Missionary and obtain the views of all those interested including the Indians. Building operations cannot be undertaken now till next spring, but it would be well to have everything ~~a~~ in

readiness for an early start. The Department would be pleased to hear from Your Lordship in reference to this matter.

Sir,

In official letter of the 29th ultimo in reference to the erection of a day school building at Kittladamax it was stated that it might be well for you to look into the matter of erecting a union school. This was again referred to in a letter of recent date following the receipt of the information that the Aiyansh building had been destroyed.

In view of the difficulty in securing competent teachers for these schools it is thought that a union school at a point equally distant from each of the villages would, in some respects at least, best serve the interest of these people. The distant would not be too great as a central point would be about a mile from each of the villages. If the Indians are agreeable the Department would be prepared to pay for the services of a properly qualified teacher and it might also be deemed expedient, under the circumstances, to provide a mid-day lunch for the children. As nothing can be done before next spring this matter ought to be very carefully looked into and the opinion of the Indians obtained. In the meantime the Department will write to His Lordship the Bishop of Caledonia.

Your obedient servant.

I have to acknowledge the receipt of your letter of the 10th instant in further reference to the erection of day school buildings at Kitladamax and Lakalsap.

In reply I beg to say that the Department would have liked very much to ~~have~~ erected the Lakalsap building this season and when the plans and information asked for are received, if it is not too late, the necessary authority will be given you to proceed with the work.

In reference to the Kitladamax school it might be well for you to again go into the matter of erecting a union school.

LETTER NO. S.K.

METLAKATLA. B. C. September 10th, 1910.

Sir,-

371834

Referring further to your letter dated July 25th, last, No 67340/5, in connection with the Indian Day Schools for the Kitladamiks village and Aiyansh, I have the honor to inform you that Kitladamiks, Aiyansh and Lak-kalsap, are three separate villages, and unless they are dealt with with this understanding there is likely to be confusion.

The first mentioned two villages are only two miles apart, and in conference with Bishop Du Vernet some months ago it was thought that one school erected between the two villages would be the best thing, on account of the difficulty in securing teachers for the schools already existing. But it was evident that the Indians of the two villages were not able to agree to this proposal because of the promises made by Mr Vowell and Mr A.E. Green, that there would be a school for each village, therefore there has been an element of dubiousness as to the working of either plan. This was one of my reasons for asking that Inspector Neelands and Inspector Green accompany me to these villages this month.

The plans for the school are nearly ready. The delay is to be regretted, but it takes some time to communicate with these villages.

Before anything can possibly be done it will be necessary to find out just what to do in settling the matter of a school at these places.

Your letter to me dated June 16th, last No 299590 /I, stated that the Department had decided that the matter of a school for Kitladamiks should stand over till next season for reasons assigned therein.

I have the honor to be,

Sir,

Ottawa, November 22, 1910.

Sir,

S.S.

I have to acknowledge the receipt of your letter of the 5th instant, and in reply I beg to say that, in view of your report upon the existing conditions at Aliyash and Kittadama, it is considered that a school building should be provided in each of these villages. The Department will be prepared next year to erect a building in the Aliyash village on the plans of the one recently completed at Port Wessington at a cost of approximately \$1800.00 and you will be good enough to submit a sketch plan of a building you think would be suitable for Kittadama to cost about \$1000.00, giving details as to materials, prices, etc.

The appropriation provided by Parliament for Indian education during the current fiscal year is sufficient to meet the cost of both these schools, but it is too late now to proceed with the work. The Department would like to know, however, if it would be possible before March 31st, next, to purchase either all or a large portion of the necessary material for construction, in order that it can be paid for out of this year's vote leaving only the labour to be provided for next year. If this material can be purchased at Prince Rupert it might be stored till next spring, provided there is a suitable place available where it could be safely cared for. The Department will be glad to hear from you in reference to this proposition at an early date.

I have the honor to acknowledge receipt of your communication in reference to the erection of an Indian Day school for the village of Gitlakdamikw, for which the sum of \$1000.00 will be available from the appropriation of this year for Indian education. (No 673 40/5).

In reply I beg to say that I will have plans and specifications made at the earliest opportunity. In the meantime it would be well for the Department to forward an accountable cheque for the sum mentioned, and the same can be placed to the credit of the Department in a local bank. The materials could then be purchased and stored until the Spring, and there would be a balance ready to meet the cost of labour.

See
Sir,-

In reply to your letter No 67340/5, dated November 22nd last re the new Indian Day school for the village of Git-la-damiks, Naas River, I beg to say that I have taken the matter up by personal interview with the Bishop of Caledonia, and with his approval beg to submit a plan of a proposed school, with bill of quantities and specification and estimate of cost of material stored at Prince Rupert. ~~The rough~~ lumber will be supplied by the Indians from their own sawmill, but finished work will have to be freighted up the river in the spring when navigation opens. The cost of material for this school will be \$726.95, inclusive of the necessary furniture and fixtures, and will be ordered upon my receiving instructions from the Department.

As to a suitable site-this was selected on my last trip to that village, and should be satisfactory in every detail. Provided Indian labor can be secured I shall endeavour to have this school under way before the close of the canning season.

Sir:-

In reply to your letter No. 299590/5, dated the 10th instant relative to the progress being made in the erection of the Indian school building at Kitladamiks Indian Reserve, Naas river, I beg to inform you that I am today in receipt of a letter from Mr. J. W. Wiseman who is to undertake the construction of the building with the assistance of the Indians, in which he states that he is proceeding to the Naas river either on the 24th instant or on the 31st.

The work of building this school will commence after the completion of the schools at Lak-kalzap and Aiyansh.

So far it has not been possible to ship lumber up to this point on account of the high water. Moreover the Indians, who have a mill, have not been able to turn out the lumber, and considerable delay has been caused through waiting for their decision as to whether they would be able to cut it or not before obtaining the lumber elsewhere.

It is hoped that it may be possible to erect the three schools before the cold weather sets in.

My dear Mr. Perry,--The Indians here and at Gitlakdamiks
had an united meeting yesterday for the purpose of discussing the
school question, particularly as regards the erection of the school
buildings now about to be put up at Aiyansh and Gitlakdamiks. A depu-
tation from the meeting waited upon me afterward with a request that I
write to you immediately as follows:--

1. The Indians unitedly ask that no buildings shall be erected
until after their claims for an entire and final settlement be heard
and adjusted. They set forth that the continual reception of Govern-
ment financial assistance is inconsistent with the position they have
taken up at the present time, and that such a course on their part is
likely to prejudice their case or obscure the issue in its final consi-
deration.

2. They have definite ideas regarding education and look forward
to the acquisition of special facilities in this regard when a final
settlement is made with them regarding their land &c. They claim that
the government day school does not meet their requirements and does not
produce results commensurate with the expenditure involved. They assert
that the two villages being only two miles apart it would be more effi-
cient if a common school were built on the boundary line between the
two villages, and the separate school grants now made devoted to the
payment of a duly qualified teacher.

3. They request that if it is too late now to stop the work, that
the material for the separate schools now assembled and awaiting
transportation up river be incorporated into one building on the bound-
ary line. But they would deem it a special favour from the Department if
the whole thing were held in abeyance for a time.

The canoe is starting immediately and this is all I am able
to say at present.

Yours sincerely,

Indian Affairs. (RG 10, Volume 6390, File 810-5, part 1)

Sir,
I have the honor to inclose you herewith a copy of a letter received today from the Rev. J.B. Mc Cullagh, missionary to the Indians at Aiyansh, Naas River, in relation to the schools proposed to be erected on the Naas River.

The school at Lak-kalzap is now being erected, and it was my intention to proceed with the Aiyansh and Gitlakdamiks schools immediately upon the completion of the former school, but for reasons assigned in the letter the Indians are stated to require the cessation of the work pending the final settlement of their land grievances by the Imperial authorities.

I would remind the Department that in September of last year I met the Indians both at Aiyansh and at Gitlakdamiks to discuss the school situation. At that time they protested strongly against the idea of a joint school, and were delighted at the prospect of having separate schools.

While on the Naas River in June last taking the Indian Census I discussed the matter fully with the Rev. Mr. Mc Cullagh, and afterwards selected the site for the new building in the village of Aiyansh, while the same site had been decided upon before. Mr. Mc Cullagh was pleased with this arrangement.

Since that time, however, the matter appears to have been reconsidered, and the Indians, through Mr. Mc Cullagh, request that the matter of building be held in abeyance.

The idea that the Indians have definite ideas of education etc., seems to be absurd, to say the least. They do not know their own minds. At the same time I can understand the discontent of the Indians in the matter of the Day school at

Aiyansh. They have never had a proper building to hold school in, therefore they do not know anything about a properly conducted and equipped school.

I would further state that, since the adjustment of their land grievances has been deferred pending the conclusion of the Coronation function, and further held over until after the general election (as they have been told) the Indians have taken for granted that the Government is trying to shuffle the issue, and they do not want any concessions or favours from the Government until this-the business of all businesses with them- has been settled.

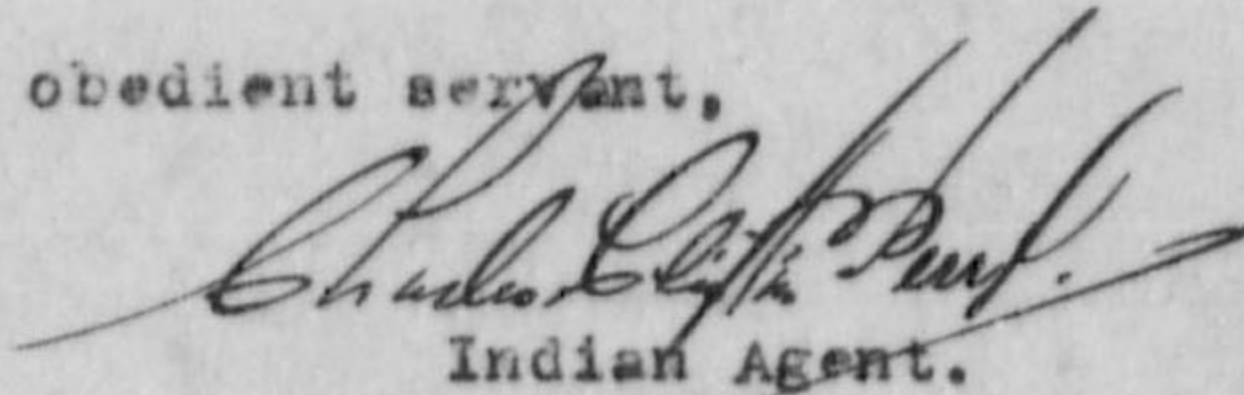

The Department will know that in April of this year the Naas Indians were offered a gift of new lumber in order to replace old and unsanitary camping shacks at Fishery Bay, and they refused to consider the matter on the grounds of their impression that the Government only wanted to put them up new houses so that it could afterwards claim a right to the land on which the houses stood.

I think that if the material now at Lak-kalzap and awaiting favourable water conditions for shipment by canoe to Aiyansh and Gitlakdamiks when the Lak-kalzap school is finished were carefully stored and placed in charge of the Lak-kalzap council until the spring of next year, the Indians might then be willing to have the schools built. Awaiting your instructions,

I have the honor to be,

Sir,

S.A.G.

I have to acknowledge the receipt of your letter of the 21st ultimo reporting the opposition of the Indians of Aliyansh and Kitladamax to the erection at the present time of school buildings on the reserves.

In reply I beg to say that, in view of the attitude of the Indians, it is considered wise to defer building operations, but in this connection I would ask you to state whether all the material previously purchased by you for the erection of these two buildings is still stored at Lakalsap. You will recollect that arrangements were made to store this material at Prince Rupert and presumably it was moved from there to Lakalsap in the spring. I would also ask you to state whether you kept the material for the three schools on the Nass River separate.

In reply to your letter No.299590/5, dated the 10th October ultimo which has been held in abeyance during my absence from home, and relating to the materials for the Aiyansh and Gitlakdamiks school buildings, I beg to say that the materials were shipped to Lak-kalzap just before the commencement of the work on the building at Lak-kalzap.

The material having been shipped all together that for Aiyansh and Gitlakdamiks was not kept separate, but would have been delivered separately had not the Indians held up the work.

As it now stands I gave instructions to Mr. Wiseman, in whose charge the materials were, to leave the Naas river, but before doing so to see that the materials were carefully stored and a receipt taken therefor from the person or persons in whose care he left the materials.

I have written Mr. Wiseman respecting the materials, and as soon as he is heard from I will again write the Department.

400266

Dear Sir:-

I have carried out your instructions in connection with the Naas River schools, and have closed all school work.

The school at Lak-kalzap is complete, and ready for use.

The materials for Aiyansh and Gitlakdamiks schools already sent up river are stored at Aiyansh, as the people at Gitlakdamiks objected to the landing of school materials at their village, the chief objector being Jimmy Woods I understand.

The materials are in charge of John Davis, of Aiyansh; The remainder of the materials are stored at Lak-kalzap, in charge of Samuel Mc Kay, the destructable material is stored in his house, and the lumber under a canvas cover in safe protection from the weather.

I have forwarded to you all receipts, in duplicate, hoping they have reached you safely.

You can understand that this work on the river has caused me to advance quite an amount of money on behalf of the Department to enable the work to be carried through thus far successfully, and that I have given up my contract work for the best six months in the year to be able to carry this school work to a satisfactory conclusion, and now the work has been stopped my position is one, I think, which entitles me to some compensation for the loss of at least 4 month's business. I should be much obliged if you will lay my case before the Department, pointing out that I have given up my work elsewhere to carry out the Naas work; and now that it has closed so soon I stand at a considerable loss. It can easily be understood that I, a contractor, could not afford to give up my contract work to go up the Naas for a period of only two months on a wage of only five dollars per day.

The work I was engaged to carry out was at least six months' work, so I ask that, as compensation, the Department pay me for two month's work at the rate of five dollars a day, making a sum of \$250.

I will be much obliged if an early settlement of the accounts already in could be made, as the delay will cause me further loss, and hamper my endeavour to make good the loss I must suffer under the circumstances of this alteration of arrangements.

I am, Sir,

Yours truly,

J.W. Wiseman.

400266

Sir:-

I have conferred with Archdeacen Collisen with whom I arrived at Kincelith last night, on the matter of coming to Lak-kalzap, to see the school and wind up the work of school construction for the present year.

I am informed that the Indians are engaging in a big petlatch tomorrow, preparations for which are in progress today. In consequence I do not deem it advisable to visit Lak-lakzap just now, as it would be impossible to arrange a meeting of the Indians, and my presence at Lak-kalzap just now would belittle my influence, the Indians being quite likely to suspect that I was there to watch their movements. I thought of sending you a letter by specially chartered launch today, but on second thought that the Indians might suppose that by this message that I had deputed your party to act as spies or special constables, and decided to send it by Archdeacen Collisen at the best and earliest opportunity.

I beg to request that you will kindly see that the material on hand for the construction of the Aiyansh and Gitlakdamiks schools are carefully stored and in charge of safe parties. I would suggest that the materials now on the bank near Gitlakdamiks, as also that at Lak-kalzap, be covered securely with a lumber covering where it stands to protect it during the winter.

Alfred Mc Kay could be asked to keep an eye on the goods at Lak-kalzap and James Smythe these at Git-lak-damiks, or other reliable men. You could tell these men that, when the materials are removed, the Government will give them five dollars apiece for their trouble. ✓

To save the nails, etc, from getting rusty these could be taken to the homes of Mc. Kay and Smythe or other reliable men.

I shall also thank you to find out and report to me the name of the Indian who ordered the materials not to be landed at Gitlakdamiks or Aiyansh; also the names of the men engaged to convey the materials to these points. ✓

I would suggest that you make no reference to schools to the Indians, and that you pack up and leave the river as soon as things are in order as above. ✓

Your accounts could be forwarded to me for payment, and I could see you at Prince Rupert on your way down.

Very truly yours,

Charles Clifton Perry,

Indian Agent.

Sir,

I beg to enclose you herewith voucher No. 180 for the payment to Messrs Weight & Wiseman for advances made in connection with the construction of the Aiyansh and Gitlakdamiks Indian Day schools. These schools being within two miles of each other I regret that conditions on the river resulted in the materials getting mixed up together, and consequently the joint treatment of the accounts.

I beg also to supplement the petition recently sent in this connection from the Aiyansh people with copies of correspondence between the foreman engaged to supervise the construction and myself. This is enclosed herewith and will be self-explanatory.

I would urge that the Department give the representations of Mr. Wiseman its earnest consideration, as the non-erection of schools will mean all he says it will, and I think the firm is entitled to compensation as suggested.

I further enclose receipts for the payment of wages, in connection with which you will see that receipts from the foreman are for payment at the rate of \$5.50 per day, the extra 50 cents being charged in lieu of provisions which the Department has stated it will not allow. Hence the alteration by me in the pay-list.

Dear Sir,-

I am very much put out with the statement that the Department is not willing to allow for provisions while our work was in progress at the Lak-kalzap school buildings.

It will be remembered that our original arrangement with the Department through you was to supply all materials for this school, in return for which patronage the firm was prepared to undertake the personal supervision of the building, the foreman (myself) to receive wages at the rate of five dollars per day as a working unit.

It was then thought that the system prevailing with the Provincial Government of providing provisions where work was in progress beyond the reaches of ordinary civilization would apply in this case, and it was with this in view that the firm undertook the work for the Indian Department, although this was not expressly stipulated at the time of making the arrangement.

Nor was it stipulated that the firm should advance from its own funds the wages due to the workers, but this was done voluntarily to expedite the work, and should not be overlooked by the Department.

It is thought that the least the Department can do is to kindly reconsider this matter, and consent to the payment of the extra 50 cents per day during the time work was in progress at Lak-kalzap.

I beg to remain, Sir,

Yours truly,

Sir,—

Referring to your letter of the 15th December last, No. 299890-A, I beg to inform you that I communicated the contents of the said letter to Mr. J. W. Wiseman, of the firm of Messrs Weight & Wiseman. In reply I received a letter, a copy of which I beg to enclose herewith. Mr. Wiseman does not appear to be satisfied with the Department's views in respect to their account.

I have talked the matter over with Mr. School Inspector Greep, for whose visit I have held the letter in abeyance, and now beg to enclose herewith correspondence which will show the Department what led up to the rendering of the Labor Returns showing the foreman's wages at \$5.50 per day, the extra 50 cents being in lieu of provisions.

I may say that, at the time of this firm taking up the matter of provisions, I gave Mr. Wiseman to understand that, while the purchase of provisions by the Department had not been authorized, the Department may or may not approve of the payment of an extra 50 cents per day in lieu of provisions; and that, if such an item were inserted in the Labor Return, an explanation could be furnished the Department, and a request made for payment.

GENERAL REMARKS.

The school buildings of the Neas Agency are
for the most part good substantial structures and kept in
excellent condition both inside and out. They are well
supplied with the necessary furnishings and other school
equipment. The children appear to be bright and healthy
and clean and comfortably clothed. Their progress in the
different lines of work is for the most part satisfactory.

The different villages of this agency all
brought before the Royal Commission the question of the
establishing of Industrial schools somewhere in the Neas.
At each village where the meetings were held, they offered
to give a site for the establishment of such an insti-
tution wherever the Department might select.

At Aiyansh, Gitladamike and Gwinaha they are
most anxious to have day schools established. In the past
the Indians of these villages have opposed this on the
grounds that they would not have the schools established
until the land question had been settled, but as the Com-
missioners informed them that the establishment of the schools
would in no way effect their aboriginal title, and as the
Land Committee has apparently failed, these Indians are now
desirous that schools be established as soon as possible.
They seem to realize that the education of their children
is a step in the right direction. I would respectfully sug-
gest to the Department that teachers be appointed to these
villages as soon as practicable.

Sir:-

I have the honour to inform you that the Rev, J.B. Mc Gullagh, has secured a white teacher for the Aiyanih Nass River Indian school, and writes me asking to be supplied with the following school furnishings.

I Axe, 2 Brooms, I Kettle, 2 Water Pails, 10 lbs Soap, 10 yards Towelling, 2 Wash Basins, $\frac{1}{2}$ doz Scrub Brushes, I Large Wood Stove and pipe for same, with elbows, I Chair and I school Cupboard.

The above including transportation charges to destination will not exceed in cost \$60.00, and I beg to recommend that same be furnished at the earliest possible moment, as the river will soon be closing, and it will be more difficult to get the supplies up river.

As Mr McGullagh at very large expense has met the wishes of the Department, to have competent white teachers in the schools, I am anxious to see every encouragement given him, therefore I trust the Department may be able to meet his request.

LETTER NO. S.A.

METLAKATLA, B. C.,

October 7th,

Sir,—

373704

I am enclosing you for your perusal a clipping from the Victoria Daily Times touching a disastrous fire which has recently swept the mission premises, and that used for Indian Day school work by Mr A.F. Priestly, of the village of Aiyansh, Naas River.

I have just returned from that distant settlement where I have seen the damage wrought, and find that there is now no school premises available, with the exception of an old building once used for that purpose by the missionaries.

As at this time of the year mail does not reach Aiyansh for several months unless some kindly disposed traveller carries it for them, and in consideration of the existence of a sawmill at Aiyansh where rough lumber can be obtained, and ~~that~~ the old building can be patched up for a time until the proposed new school building is erected in the Spring of next year, also that the teacher now supplied with school material is anxious to carry ~~on~~ the work of teaching (a lot of children being in the village) at the request of the Rev Mr Mc Cullagh I have authorised the purchase of a small quantity of lumber for the above mentioned purpose, so that the matter of a school shall not be seriously hampered through the unfortunate fire.

I trust that this action on my part will meet with the approval of the Department. I may add that, if the Department so wishes, the lumber referred to may be pulled down again and used for the building proposed to be erected at Aiyansh in the Spring.

Sir, —

I regret to have to inform you that the entire block of mission buildings on this reservation was destroyed by fire on the 7th Instant. Practically little property was salvaged—a little bedding, a few articles of clothing, a sewing machine and a typewriter form the principal items. The loss sustained by ourselves and the mission amounts to \$8,089.00, while Mr. Priestley the school teacher lost \$650.00.

The Chapel-school in which the Indian day school has been held for some years is gone, and I now write to suggest that, in order to carry on school here on the return of the Indians from the canneries, it will be necessary to incur some expense in putting another building into shape for school purposes.

Therefore
I beg to make application for a grant of \$150 in order to put into proper repair a building formerly used as a school but which has been recently stripped of lining &c it having been found too cold *& abandoned.* in winter time. With the above expenditure and the stoves already

FLAMES DESTROY NORTHERN MISSION

Rev. Mr. McCullough and Family
Been Left Des-
titute 1910.

Port Simpson, Sept. 15.—Prospectors who arrived here from the upper waters of the Naas river brought news that the Alyansh Mission, sixty miles up the Naas, was totally destroyed by fire. According to the report a pioneer missionary, Rev. McCullough, and his family, have been left destitute.

While their reports of the occurrence are meager, it was stated that the fire started from a spark from the chimney. The roof caught fire and the wooden building was soon blazing fiercely.

It had gained great headway before it was discovered, and, although an alarm was sent out to the neighboring Indian village, and the villagers made every effort, the building was consumed with all its contents, including the supplies and the clothing of the missionary and his family. According to the men who brought the news here, Mr. McCullough was left in sorry plight, dependent temporarily on his Indian flock.

The Alyansh mission was built by Rev. Mr. McCullough twenty-five years ago, and since that time the missionary has made his home at this lonely outpost among the Indian tribes of the north. Communication with the place is difficult, but steps will be taken here to relieve the distress of the destitute family.

granted a very comfortable and healthy school room could be materialized until such time as the Department thinks it advisable to proceed with the new projected school.

The necessary lumber can be obtained from the saw mill here, and I can find Indian carpenters to do the work.

I cannot very well call upon the people themselves to make the provision suggested as they will be considerably overburdened as it is in furthering the erection of new mission buildings.

Sir,-

I have to acknowledge receipt of your letter of the 7th instant advising the Department of the destruction by fire of the school-house and other buildings at the Aiyansh Reserve. In reply I beg to say that the Department regrets to learn of this occurrence and approves of your action in authorising the purchase of a small quantity of lumber to fix up a temporary school room.

In your letter you refer to the proposed new school to be erected next Spring. It is presumed that you have reference to a building on the Kitladamix Reserve. This would appear to be an opportune time to take carefully into consideration the erection of a school that would serve both Villages, and a full report should be forwarded by you. In the meantime the Department will take up the matter with His Lordship the Bishop of Caledonia.

Ottawa, October 25, 1910.

Sir,

In official letter of the 29th ultimo in reference to the erection of a day school building at Kitladnamax it was stated that it might be well for you to look into the matter of erecting a union school. This was again referred to in a letter of recent date following the receipt of the information that the Aiyansh building had been destroyed.

In view of the difficulty in securing competent teachers for these schools it is thought that a union school at a point equally distant from each of the villages would, in some respects at least, best serve the interest of these people. The distant would not be too great as a central point would be about a mile from each of the villages. If the Indians are agreeable the Department would be prepared to pay for the services of a properly qualified teacher and it might also be deemed expedient, under the circumstances, to provide a mid-day lunch for the children. As nothing can be done before next spring this matter ought to be very carefully looked into and the opinion of the Indians obtained. In the meantime the Department will write to His Lordship the Bishop of Caledonia.

Right Reverend Sir,

I have the honour to refer Your Lordship to previous correspondence in connection with the erection of a new school building for the Kitladamax Indian reserve. The Department has lately heard with much regret of the destruction of the building on the Aiyansh reserve and it is thought that this might be an opportune time to again give careful consideration to the question of a union school for these two villages. A building which could be erected on the boundary between the two reserves would only be one mile from each of the villages. The Department would be prepared to erect a suitable building and provide an adequate salary for a qualified teacher. It may also be deemed expedient to furnish the children with a light mid-day lunch.

Mr. Perry, the Agent, has been asked to go more carefully into this matter and I should be pleased if Your Lordship also would take it up with the resident Missionary and obtain the views of all those interested including the Indians. Building operations cannot be undertaken now till next spring, but it would be well to have everything in

to warrant the erection of a sepearte school.

Gitlakdamiks is another kind of place altogether. It is composed of nearly half old Indian houses, and the people seem to be just merging from the most primitive conditions.

There are fewer children, and I should say that if a good and substantial building were erected at Aiyansh, and a less expensive school put up at Gitlakdamiks the needs of the both villages would be fully met.

I would suggest that a building on the Port Essington plan, a little better finished, for the village of Aiyansh would meet the need there. This would cost about \$1800.00.

A building costing about a thousand dollars would meet the need at Gitlakdamiks.

Referring to your letter No 67,340-5, dated Oct 20th ult. re the matter of a school for the villages of Aiyansh and Gitlakdamiks, I have the honor to state that I have recently returned from these settlements, where I examined the ground proposed to be covered if a joint school were erected.

I would point out that the matter of a joint school has been a bone of contention since the last visit of Mr Supt Vowell to Gitlakdamiks and Aiyansh, when the Indians ~~##~~ were, at both places, promised a separate school. Mr Inspector ^{Green} has also told the Indians (so they tell me) that the Department would likely build two schools; and it would appear that both Mr Vowell and Mr Green went so far as to look into the matter of a site at both places.

If it were decided by the Department to erect a joint school between the two villages which are about one and a half to two miles apart it would be necessary for the scholars to walk over deep snow the half distance throughout a long and bitter winter, and in my opinion the school would be very poorly attended.

It is evident that both Mr Vowell and Mr Green felt that separate schools would be best, at the same time they may not have taken into consideration the difficulty in securing teachers for these remote settlements.

I may say that Aiyansh is one of the neatest and well ordered villages on the Naas river. It has some of the most creditably built and designed houses to be seen in the North. Streets have been made, houses have been erected on surveyed blocks, and the people appear to be industrious. There are enough children at Aiyansh

Sir,

S.G.

I have to acknowledge the receipt of your letter of the 5th instant, and in reply I beg to say that, in view of your report upon the existing conditions at Aiyansh and Kitladamax, it is considered that a school building should be provided in each of these villages. The Department will be prepared next year to erect a building in the Aiyansh village on the plans of the one recently completed at Port Essington at a cost of approximately \$1800.00 and you will be good enough to submit a sketch plan of a building you think would be suitable for Kitladamax to cost about \$1000.00, giving details as to materials, prices, etc.

The appropriation provided by Parliament for Indian education during the current fiscal year is sufficient to meet the cost of both these schools, but it is too late now to proceed with the work. The Department would like to know, however, if it would be possible before March 31st, next, to purchase either all or a large portion of the necessary material for construction, in order that it can be paid for out of this year's vote leaving only the labour to be provided for next year. If this material can be purchased at Prince Rupert it might be stored till next spring, provided there is a suitable place available where it could be safely cared for. The Department will be glad to hear from you in reference to this proposition at an early date.

I am in receipt of your letter of the 8th instant, in regard to building operations at the Aiyansh, Naas River Indian Day School, and in reply I beg to say that it is not evident to the Department that it is necessary that an advance be made to pay for material in connection with the building of the said school. If accounts are forwarded promptly, payment will be made without delay provided, of course, that the said accounts are satisfactory. The Department will have until the 30th of April next to pay expenditure incurred during the fiscal year 1910-11. If the accounts in connection with the above mentioned school cannot be forwarded before the 31st March, you should advise the Department to that effect.

Referring to your letter No I2I237/5, dated December 28th last, relative to the new Indian Day school for Aiyansh, Naas River, I have the honor to say that I have had an interview with His Lordship the Bishop of Caledonia as suggested in your letter referred to.

I herewith beg to submit a plan and specification for this building (which is an improvement on the one recently submitted for the Essington school).

On the authority of letter No I18532/5ty, dated December 7th last, I have purchased the necessary material to be stored at Prince Rupert until the spring. As the accounts were not sent to this office in duplicate form, the firm supplying the material has been written to in this regard, and the accounts will be forwarded to you without unnecessary delay. Should any delay, however, be occasioned in the transmission of these accounts causing inconvenience in fiscal reckonings for the current year, I would point out that the material secured, inclusive of the necessary desks and fixtures, amounts to the sum of \$959.75, and an accountable cheque for that amount could be sent to this office, from which amount there would be no unexpended balance.

Sir,—

I beg to enclose herewith returns of
the Aiyansh Indian school for the quarter ended December 31st, 1910.

The delay in transmission of same may be explained by
reference to the long distance of Aiyansh from the coast and the
poor means of transit.

Your kind attention is called to the remarks column, in
which the Rev J.B. Mc Cullagh—the resident missionary—states that
suitable premises were temporarily secured, which he thought to be
cheaper than the expenditure ~~which~~ ^{which} with Mr Mc Cullagh upon his
application after the fire, with the approval of the Department by
letter dated October 20th last, No 67340-5 ^{it was considered} would be in the best in-
terests of the children and also the teacher, and for the rental of
which the reverend gentleman appears to require the Department to
pay the sum of ten dollars per month instead of the sum of \$100.00
or \$150.00 approved, as aforesaid, for the temporary repair of the old
schoolhouse, the lumber for the use of which could afterwards be uti-
lized in the construction of the new school.

By the same mail as that by which the returns were re-
ceived came a letter from Mr Priestly—the teacher—who states con-
cerning the room now in use for school purposes, as follows:—

"The school is a great disadvantage just now as the room is
also used as courthouse, feast hall and council room, and so is upset
every evening. The attendance is very poor this quarter and consists
of just those who want to or are willing to learn".

The use of a building that is in continuous use for
other purposes such as is mentioned above is most unsuitable and
undesirable, and the greatest possible encouragement of tubercular
disease that could be imagined by any one who is familiar with

the way in which these public halls of the Indians are kept unless under strict supervision. I was surprised at Mr Mc Cullagh's action in consideration of the fact that theoretically he is an advocate of healthy sanitary conditions.

I cannot, therefore, recommend the payment by the Department of the rent asked for, and as five months have elapsed since authority was given for the temporary repair of the old building for school purposes, and in anticipation of the early erection of the new school, for which material has been purchased, also that from now on most of the children will be away from the village to the fishing camps with their parents, it would seem advisable to discountenance the repair mentioned above, and to advise Mr Mc Cullagh accordingly.

Sir,

I beg to acknowledge the receipt of your letter of the 11th instant, with which you forwarded a voucher from Messrs Weight & Wiseman for material supplied for the construction and partial equipment of the Indian Day School at Aliyash, Naas River; and in reply I have to inform you that in view of the fact that there is a charge of \$18.00 in the account for 6500 feet B.M. Rough Lumber the Department fails to understand your remark that the articles supplied will be stored at Prince Rupert "with the exception of the rough lumber which will be supplied from the Indians' own mills, and which has been purchased by arrangement with the firm supplying the material, who will take the responsibility of storage and supply the lumber at sawmill prices".

If Messrs Weight & Wiseman did not supply the 6500 feet rough lumber you should not have allowed the charge to stand in the account, and if the rough lumber required for the building is purchased from the Indians a voucher in their favour should be submitted for payment after delivery has been made. A full explanation in this connection is desired.

The arrangement to have Mr Wiseman act as working foreman in connection with the construction of the building is quite satisfactory to the Department.

Cheque No 2830 for for \$971.75 is being sent forward to you in payment of the account from Messrs Weight & Wiseman.

Sir,-

I have the honor to enclose you

voucher No 97, for the payment of the sum of \$971.75, to
Messrs Weight and Wiseman, for material supplied for the
construction and partial equipment of the Indian day school
at Aiyansh, Neas River, details of which may be seen in the
accounts attached to the voucher.

I beg to say that these articles will be stored at
Prince Rupert, with the exception of the rough lumber which
will be supplied from the Indian's own sawmills, and which
has been purchased by arrangement with the firm supplying the
other material who will take the responsibility of storage and
supply the lumber at sawmill prices.

I am hoping that present arrangements will be
effected, by which Mr J.W. Wiseman, of the firm of Weight &
Wiseman, will undertake the personal supervision of the erect-
-ion of the three schools on the river as working foreman,
on condition that his firm be given the order for material.
Mr Wiseman undertook the building of the Kinkolith
Indian day school, of which workmanship the Venerable Arch-
deacon Collison speaks in the highest terms; moreover I know
of no one who is better entitled to the patronage of the
Department than this firm. Mr Wiseman was the Agent of Dr W.
T. Kergin, Ex M.P.P., during the recent Provincial campaign. He
also thoroughly understands the Indians and has no difficulty
in getting a crew together and work with them.

We shall be fortunate in securing the

service referred to, as few men will spend any length of time on the Naas river in the summer on account of the mosquitoes which are terrifying in the hot weather, and as the cost of living on the river is much higher than on the coast because of the difficult navigation, and wages offered by the Department, ie-\$5.00 per day for working foremen-no higher than that obtainable in the coast cities.

I trust that this arrangement will be in every way satisfactory to the Department. I do not know of any arrangements that could possibly be more satisfactory, and it is hoped that the three buildings will be completed before the winter comes again.

I am enclosing herewith the school returns for quarter ending 31st March 1911, and trust they are correct; also a small requisition for a few necessary things.

I am also enclosing two receipts one for \$2.00, carriage on slates, pencils etc which were brought up over the ice and the other for \$3.60 for books I had to get from Prince Rupert owing to the Primers being quite beyond the beginners, which I shall be glad if you can forward. There has been no attendance for 2 or 3 weeks since the Indians went to Fishery Bay. There are only a few children left & these are either too busy or think they are to attend.

I remain,

Sir,-

I have the honor to submit two small accounts⁶ which reached me with the returns of the Aiyansh Indian day School for the March quarter.

The one marked with the office stamp covers the transit of slates, recently purchased and sent prepaid to Kinkolith, carried up the river by canoe by Timothy Derrick, and is in order. The second, covering the purchase of books from Messrs Allen & Co, of Prince Rupert, was contracted by the teacher without the approval of the Department. In the latter Mr Priestly does not wish the Department to pay for the Prayer-Book, but asks for the sum of \$3.60 to cover cost of two dozen school primers which he states were needed for the school.

I am inclosing a voucher for payment in case the Department is willing to grant Mr Priestly's request, together with the latter's letter of explanation.

Dear Sir, — I am in receipt of yours dated 8th March, Victoria, and have just had an interview with the saw mill manager here to whom I read and explained your order. In the first place, I have to say that there are no logs and no lumber on hand at the mill. In the second, it is doubtful if the mill can be put in running order before May or June. ~~Three~~ new tubes have to be put in the boiler, and these are not even ordered yet. Of course, I am trying to encourage them as much as possible, for I want to get on with my own house. I have now a party of men out logging to whom I have given a contract for 80,000 feet, and I told them that very likely you would be wanting logs for the building of the school so they had better go up to 100,000 feet. But at the very best pace this will only give you green lumber for all purposes. I reckon it will take 2 seasons for me to get through my house. All this is very indefinite for you but you can take it as quite definite that the lumber you require could not possibly materialise by June. Better have the lumber cut and dried this year & build next.

Yours very sincerely
 James B. Tully

cannot supply the lumber this year. The order was given four months ago, for the rough lumber. This also applies to Git-ladamiks, which school ~~XXXX~~ would have been supplied from the Aiyansh mill.

Some time since a planer was asked for by the Lak-kalzap Indians, but as the Department had given no reply the Indians made a purchase of a plainer in Vancouver, in the delivery of which there has been delay, resulting in the inability of the Indians to prepare the lumber in time to have it dry for the building this spring. It is understood the planer has just arrived, but the lumber will not, if cut by the Indians, be dry soon enough to be suitable for building ~~this~~ spring. The Indians will probable be able to furnish the rough lumber, and the remainder will be shipped to Lak-kalzap.

The river will not be navigable for scows of lumber until the end of July. Everything will be got ready by then, and the Indians will be on hand to ship the material up the river on their return from the fishing camps.

The Naas river is a very difficult country for transportation. If you will please refer to the pamphlet in reference to this district, which accompanied my letter to you on ^{School} ~~General~~ matters-dated July 7th last, No C.M.C., you will realize a few of the difficulties attending the prosecution of the work of building the schools on the Naas.

Sir,

In reply to your letter No 67340/5,

dated 10th April, with reference to the remark contained in my letter to you on the subject of the lumber for the Schools on the Naas River, I have the honor to inform you that the sentence to which you refer in the same was, I regret, incomplete. To it should have been added " in the event of the Indians being unable to turn out the lumber." I think this will be clearer to the Department.

I would point out that the Indians here will not under any circumstances get out timber from the woods until they are certain that the money is on hand to pay them for their labor and for the lumber. This being so it was necessary to safeguard the Department against the possibility of the Indians not being able to supply the lumber through lack of ready payment, and the item for lumber was included by the arrangement referred to in the account of the firm supplying the other material.

The wisdom of this course is now proven by the fact that when on the river with Mr Green, Inspector of schools, I found that the Indians had not even cut down a tree to be turned into lumber at their sawmill, and the arrangement with Messrs Weight & Wiseman will find the lumber supplied and shipped at sawmill prices.

I am enclosing a copy of a letter received from the Rev. J. B. Mc Cullagh, of Aiyansh, in which it is stated that the mill is under repair, and that the Indians

Dear Sir Re Nass schools

In regard to purchase of materials from Nass River sawmills, I may say that I received my order back again from Rev. McCullough of Anaham stating that the mill is out of action and no lumber will be obtainable for the erection of the schools.

But as I had previously guaranteed to supply the same I have obtained the lumber elsewhere and stored it together with all materials necessary for the three Nass school, at Prince Rupert as I agreed to do.

Everything is now in readiness to commence work as soon as the River is navigable.

As you will know the River rises in June & July owing to the snow melting on the mountains and becomes ~~and~~ dangerous, and the Canyon ~~practically~~ impassable especially with a loaded canoe.

So it will be far better to wait until the end of July

Sir,-

I have the honor to transmit herewith voucher No. 820 attached to which are receipts of Dominion Constable Phillipson taken by him for expenditures incurred in the installation of two teachers and a field matron for the villages of Aiyansh and Gitlakdamiks, at the head of the Nass River.

The account is submitted in connection with the Aiyansh Indian Day School, although it will be seen that part of the freight charged belonged to goods shipped to Gitlakdamiks. The tonnage included groceries, personal effects, furniture, books, and supplies ordered by the Inspector of Agencies, Mr. A.M. Tyson.

Concerning the last item of this account, I beg to inform you that Mr. Phillipson was instructed to go to the Indian in whose care the school desks are which were purchased in 1911 for the Aiyansh school, and to get the desks from him with his account for storage to date. But because the Constable had not the money wherewith to meet the Indian's bill for storage, he was refused access to the desks and was obliged to have some desks made. I would inform you, however, that there will be need for these other desks when the proposed new school is open.

MEMORANDUM.

Mr. Scott, -

With reference to the personal request made to you by two of the Nass Indians, who were here today, for compensation for an Indian who is said to have conducted school at Aiyansh for short periods during the years 1913-14 and 1914-15 I beg to say that the Aiyansh School was closed at the end of the March quarter, 1911. No returns have been received since then until the December quarter, 1915.

Mr. Inspector Tyson in his report on the schools in the Nass Agency for the year 1914 states as follows, - "At Aiyansh and Gitladamicks conditions are very unsatisfactory. The new schools which were to be erected at these places have, as yet, not been built, owing to the fact that the Indians want industrial schools established in place of the ordinary day schools, and although part of the lumber and other materials have been provided for the new schools work has not been commenced." Again, when he visited the schools with the Royal Commission, in speaking of Aiyansh he states that "Visited the 9th of October. School has been conducted here by an Indian named Mercer, who

who receives a small remuneration from the Indian people. They are, however, very anxious to have a qualified teacher appointed and ask that if it is possible to have one sent in at once, arrangements will be made to secure a temporary school building."

Judging by Mr. Tyson's report there was no school conducted during the year 1913-14, but you will see from his second report that an Indian named Mercer had been conducting a school there and received a small remuneration from the Indians. This Indian never received any authority to open the school from the Department and no returns were sent in and the Department had no knowledge of it until Mr. Tyson's report was received in November of last year. As the school was apparently not in operation no notice was taken of this report. The Department does not know how much the Indians paid Mr. Mercer, what benefit the children received from his teaching or how long he conducted the school and the only way to find out would be to obtain a report from Mr. Agent Perry.

We have no reports from either the Agent or the School Inspector regarding this school since it was closed. Rev. Mr. Green, late School Inspector, visited Aiyansh in May, 1912, in company with Agent Perry, and found the school closed and he recommended that it be not re-opened until there was a proper understanding with the Indians in regard

regard to school matters and until the church authorities obtained a qualified and suitable teacher approved by the Department.

Nothing was done about re-opening the school until late last fall, when Miss Vera A. Chasteney was appointed teacher. The school was again opened at the end of December, last.

I agree with you that the accounts for the transport of the teachers and field matrons to the Upper Naas River are pretty high, but the country is difficult of access. It was thought advisable to send in these teachers before the close of navigation, principally to meet a special request of the Indians. Of course, we should not pay the accounts without question if they are not in every way satisfactory.

In reply to your letter, No. 67340-7, dated October 19th, I have the honor to transmit herewith vouchers Nos. Hays, Indian Day School teacher, Aiyansh, who were delayed en route to their stations on the Nass River.

Accompanying these accounts is a report received from Miss Hays giving an account of the circumstances under which she was unable to proceed to her school.

I have taken up the matter with the local steamship agent, who has informed me that his Company is in no way responsible for the accident to the steamer, and therefore cannot pay the account.

I am personally of the opinion that these accounts should be paid by the Department, particularly in view of the fact that Miss Hays' appointment was somewhat irregular, having been made through a teachers' agency, instead of in the ordinary way.

Dear Sir,—

I received your letter last night. I'm sorry there is any trouble about my stay in Prince Rupert. I had no wish to get off the boat, (after sitting up until one o'clock in the morning) and go out into the black night in the pouring rain, at Prince Rupert. But my last directions, when leaving Vancouver were,— "If Mr. and Mrs. Johnston do not meet the boat at Prince Rupert, get off and wait for them." — That's what I did, there were many things I was not aware of one was, that every boat doesn't call at Mill Bay.

I intended asking Mr. Cairns quite a number of questions the night I sailed from Vancouver, but he sent a message

Sir,-

I have the honor to transmit herewith voucher No.B.55, attached to which are receipts taken by Dominion Constable Phillipson for expenditures in connection with the installation of a new teacher at the Indian Day School, Aiyansh, Nass River.

I would inform you that it has been necessary to have these expenditures made as the Indians of the river are averse to doing work and performing services for payment of which the cash is not on hand. Moreover, the river was expected to freeze over at any time and it was thought best in the interests of the school to make the expenditures thus made.

I have the honor to be,

Sir,

Sir:

Referring to that portion of your report on your Agency for the month of October, last, regarding the providing of a new building for day school purposes at Gitlakdamix, I have to say that the Department has no funds this year to provide any expense in connection with the getting out of logs and cutting the necessary lumber for this building. We can hold out no promise as to when funds for the purpose can be provided. In the meantime, the school work will have to be carried out under existing conditions. The need of a new building will be kept in mind and an effort will be made to obtain the funds necessary at the first opportunity.

Your obedient servant,

Prince Rupert, B.C., Nov. 17th, 1932.

Sir:

I have the honor to submit the following report
for the month of October.

x x x

During our stay at Gitlakdamix, I was fully occupied with interviews and sundry matters brought to my attention. An inspection of the day school was carried out by Capt. Barry. The pupils were medically examined and vaccinated by Dr. MacDonald who was also kept busy attending to the needs of sick Indians in the village.

In the evening of the 5th inst. accompanied by Capt. Barry, I attended a public meeting. Numerous matters were brought up for discussion. A strong request was made for the construction of a proper school building, and the appointment of a qualified teacher. School is held at present in a large room in the mission house, and is taught by the Rev. S. Kinley, Anglican Missionary at the village. The room is very unsuitable as a classroom, the light conditions being bad and accommodation quite inadequate when all the pupils attend.

If funds are available, I would strongly recommend that favorable consideration be given to the request of the Indians in this matter, and that the preparation of plans and specifications for an up-to-date building, be authorized at the earliest possible time. I would point out that this is the only village in the agency without a school building.

Some years ago, the Department provided a small sawmill for Gitlakdamix, and it was then understood that in the event of a school being constructed for the village, the lumber would be supplied without charge by the Indians. In view however, of present conditions and the fact that the Indians at Gitlakdamix are badly off this year, I would recommend that the building be put up as a relief undertaking at the charge of the department. I would further suggest should it be decided to provide the school, that the Indians be authorized to get logs and cut the necessary lumber this winter so that it may be well seasoned and ready for construction purposes next year.

We the undersigned members of the Nishga Nation of Indians resident on the Nass River in Northern British Columbia, feel that there is a great necessity for a Residential Industrial School in this neighbourhood.

We submit the following reasons as being likely to help you to realise our position:-

1. We suggest Prince Rupert as the site for the School, being the most central location in a good environment, and what is most important, near a well equipped Hospital.
2. It would provide greater opportunities for parents for visiting their children in cases of severe illness.
3. It is our greatest wish that our ^{children} should have the opportunity of attending High School, and possibly to become apprentices in the various trades of the city.
4. We submit that there would be a great reduction in travelling expenses of the children to and from School.
5. By having a central School at Prince Rupert it would enable the Nishgas, Tsimshians, Haidas, and Kitsheans to send their children and while we have in the past request for a School for the Nass River people we are prepared to waive our claim to this and to have a central School in Prince Rupert.

Trusting that this Petition will have your careful consideration and assuring you of our eagerness to co-operate with the other Tribes.

Ottawa, February 20, 1934.

Sir:

I beg to acknowledge receipt of your letter of the 12th instant, with reference to the request of the Right Rev. G. A. Rix, Bishop of Caledonia, Prince Rupert, for rent for the room used for school purposes at Gitladamix.

The Department understands that a room in the mission house is used for the Gitladamix school, and it is presumed that the Rev. S. Kinley, who is the teacher and also the missionary on the Reserve, occupies the balance of this house. Under these circumstances, it is considered that \$10 a month is rather high rental.

The Department would be prepared to allow \$5 a month and, if this is satisfactory, you may submit a voucher at the end of March for the amount due for January, February and March, 1934.

Your obedient servant,

A. F. MacKenzie,

Sir:-

I beg to inform the Department that a request has been received from the Right Reverend Bishop G.A.Rix of Prince Rupert, asking that a small rental be paid for the use of part of the Anglican mission house at Gitlakdamix for day school purposes.

As the Department is aware, there is no school building at Gitlakdamix and school has been held for several years past in the mission house.

In view of the fact that rental is being paid in other parts of the agency for school accommodation, I would recommend payment of \$10.00 per month from January 1st. last.

I would also state that provision was made for this expenditure in the yearly estimates of this agency. A copy of the Bishop's letter is enclosed herewith.

Dear Mr.Collison:-

May I draw to the attention of the Indian Department to the fact that for several years it has been using a part of the Anglican church mission house at Aiyansh as a school room. I believe it is the policy to pay a rental for such accommodation, in fact this is being done in other parts of the Diocese of Caledonia. I believe a fair rental would be ten dollars per month.

I would be pleased if this matter could be taken up at your convenience.

Trusting that you will be able to send me a favorable reply, I am

Yours faithfully,

RECORDED

Sir:-

I beg to transmit herewith, account received from Mr. H. Gray, General Store, at Aliyansh, for axe handle and soap supplied to the Gitlakdamix Indian Day School, amounting to \$1.45. Purchase of these articles was authorized by the Department in letter dated Nov. 4th, 1932. 168-32A-4. but the forwarding of the account was overlooked by the storekeeper at the time.

I would recommend payment of the account.

During my recent visit to the upper Nass, it was brought to my notice by the teacher, Rev. S. Kinley, that he had obtained a new desk for the school to replace the very dilapidated one formerly in use, at a cost of \$15.00. I personally inspected the desk which was particularly well made, having two drawers and well varnished. The cost is much less than would have been paid for a similar piece of furniture obtained from Prince Rupert or Vancouver. I would recommend that the cost be defrayed by the Department, and am attaching herewith, Vo. 5718 in favor of Charles Morven, subject to the Department's approval.

I beg to transmit herewith, petitions received from the Gitlakdamix Indian Council. The petitions will be self-explanatory.

With regard to the request of the Indians for a proper day school, I would state that there is a great need for such a building, as Gitlakdamix is the only Village in the Agency not yet provided with a separate school building.

As the Department is aware, school is carried on at the present time in a room in the mission house under conditions which are not altogether satisfactory both as regards accommodation and situation.

The population of Gitlakdamix is 245, with a school enrollment of 35.

This matter was brought to the Department's attention in my report for October 1932. The sum of \$3000.00 has also been provided in the Estimates covering this project.

I would strongly endorse the petition regarding the day school, and hope when funds are available a suitable building will be provided.

Prince Rupert B.C.

APR 18 1935

Sir:-

I have in previous reports, called the attention of the Department to the great need of a school building for the Gitlakdamix village on the upper Nass river.

In April 1934, a petition was forwarded from the Indians in connection with the same matter. This village, with a school enrollment of about 37 children is the only village in the agency without a proper building.

At present, school is carried on in a room in the mission house which is not large enough, or suitable for the purpose.

A sum of \$3000.00 was placed in the 1934-35 Estimates, also in the 1935-36 Estimates increased to \$4000.00, and I would strongly recommend that the Department authorize the construction of a suitable building at the earliest possible date.

There are other places in the agency where new schools are needed, but I consider a school for Gitlakdamix should receive first consideration.

Your obedient servant

Sir:

I have your letter of the 11th instant, regarding the need for the erection of a new school building for the Gitlakdamix Village, on the Upper Nass River.

In this connection I have to say that owing to the many demands for new buildings, repairs, and equipment at other schools, it was not found possible to provide the funds in our Appropriation for the current fiscal year to erect a new school at Gitlakdamix.

The Department is aware of the need for a new school building at this point. The matter will be kept in mind and an effort will be made to obtain, if possible, the necessary funds in our next year's appropriation.

Sir:-

I beg to transmit herewith, my report for
the month of May, as follows:-

x x x

GITLAKDAMIX

At the present time school is carried on in
a room in the mission house under conditions which
are not entirely satisfactory both as regards
accommodation and location. The present teacher,
Rev. S. Kinley is not a trained teacher, and whilst
he does his best to instruct the children, the
school is not making the progress it should, with
the result that the Indians are dissatisfied,
especially as they know other villages on the river
have fully trained teachers in charge of the schools.

I would strongly recommend, as I have done in
previous reports, that a suitable school building be
put up at the earliest opportunity, and that a fully
trained teacher be appointed.

A married man would be preferable, especially
if his wife were a trained nurse capable of dispensing
simple drugs, and attending to the needs of the sick
in the village. Being cut off completely from the
outside from November to April in each year on account
of the winter freeze-up, the people of Gitlakdamix have
a special plea in this regard, and the appointment of a
nurse or field matron would go far in solving the problem
of medical service for the Indians on the upper Nass.

Dear Sir:-

I am, as you will see by the letterhead, in Montreal a long way from my western Diocese and as mails are very uncertain to and from the Telegraph Creek region so that I can not well communicate with you through your agent there. I am therefore bringing the following matters directly to your attention.

3.

In the village of Aiyansh or sometimes called Gitlakdamics, there never has been a building for an Indian Day School. A large room in the Mission House being used for this purpose. This is not as suitable as it should be, by any means, which fact is agreed to both by the Inspector of Indians Schools, the Church, and the natives themselves. The Indian Agent, Mr. W.E. Collison, agrees with this also. May, I, therefore, urge your department to take this matter under advisement and I trust you will find it advisable to provide a good school for this somewhat important village in the near future.

I am enclosing herewith requisition for school material for the Gitlakdamix Indian Day School.

In addition the teacher has asked for two gallons of paint for painting the floor, walls and ceiling of the classroom. The room is badly lighted and a coat of white paint on the walls would considerably improve matters. If funds are available I would recommend that this work be done during the summer vacation, and the total cost should not exceed \$15.00.

Dear Sir:-

I am forwarding herewith a letter No. 9E-11887 dated 18th June, received from Mr. Indian Agent Collison, with regard to the need for an Indian Day School building and teacher's residence at Gitlakdamix, on the upper Nass.

This matter has been discussed with Inspector Barry, who states that he has strongly recommended in his reports on the present Gitlakdamix Indian Day School during the past few years that a suitable school building with classroom accommodation for at least 40 children, and accommodation for a married teacher, should be erected at the earliest possible date. A teacher whose wife can dispense simple drugs and look after minor ailments would be of great advantage in this Village. The nearest Medical Officer is Dr. McDonald at Kincolith, and it is pointed out that during the winter months, boat travel is impossible as the river is blocked with ice.

Capt. Barry is further of the opinion that little or no progress can be hoped for in the way of the education of the Indian children under the present conditions. The room in the Mission House now being used as a classroom is in many ways inadequate, but the real reason for the lack of progress in this Village is the fact that the teacher, Rev. S. Kinley, the local Missionary, is entirely untrained and unsuitable for the work he is attempting to do in the classroom.

While Capt. Barry has on several occasions reported to the Department that he was not entirely satisfied with Mr. Kinley's work, and while the Department itself has suggested

to the Right Rev. G. Rix, Archbishop of the Diocese of Caledonia, Prince Rupert, that a change of teachers at this point would have to be made, the fact remains that, owing to the lack of a proper school building and residence for a married teacher, the actual employment of a new teacher is a most difficult matter to arrange. Inspector Barry is well aware of these facts and wishes to give any assistance he can to Mr. Hoey in the matter.

I would recommend that, as the sum of \$5,000.00 was placed in the Estimates for the present fiscal year, the Department authorize the construction of a suitable combined school and residence at the earliest possible date. I wish to draw the attention of the Department to the great difficulty which would be experienced in freighting lumber and material up the Nass River from Kincolith or Mill Bay, the nearest ports of call by Union Steamships, to Gitlakdamix. The distance between Kincolith and Gitlakdamix is almost 70 miles. Small shallow-draught river boats, which are the only ones that can go upstream, have to pass through three rapids on their way to Gitlakdamix.

I am in agreement with Mr. Indian Agent Collison when he suggests that the common lumber and heavy framing required for the proposed school be sawn at the Indian Sawmill at Aiyansh, a mile or two below Gitlakdamix. If this is approved, it will be necessary to notify the Indians at an early date as they will have to obtain the necessary logs.

In conclusion, I may say that Inspector Barry considers the matter a most urgent one, and that while a building consisting of one large classroom, and accommodation for a married teacher asked for by the Indian Agent, is the present minimum, it would be far better when designing the school to allow for two good-sized classrooms, each capable of accommodating from 35 to 40 pupils. Even if the second classroom was not absolutely necessary during the first year, the Inspector points out that the room could be made use of for Vocational instruction, and further suggests that as at

present there are a number of children attending the Indian Residential Schools at Alert Bay and Coqualeetza who, in the event of the erection of a suitable school at Gitlakdamix, could be accommodated in their home Village, at great saving to the Department in the matter of per capita fees. The enlarged Day School would be from a financial point of view, the better investment.

Dear Sir:

I am in receipt of your letter of the 30th ultimo in which you point out the necessity of erecting a combined school and teacher's residence at Gitlakdamix on the upper Nass river.

As no provision was made in our current year's appropriation for a new school at this point, I therefore regret that at the present time it is not possible to favourably consider your recommendation.

However, we are making a special note of your suggestion and will endeavour to secure the necessary funds in our appropriation for the fiscal year 1939-40.

Dear Sir:

I beg to report as follows for the month of

October:

x

x

Gitlakdamix

In the event of a building (day school) being put up, I would suggest that suitable quarters be provided for the teacher and a trained nurse. The appointment of a nurse has been advocated in previous reports, and I would again emphasize this need.

The village of Gitlakdamix with a native population of 251 is entirely cut off from the outside during the winter freeze-up and medical help cannot be obtained in emergencies and cases of serious illness. The usual government drug supplies are dispensed by the resident missionary, who does his best, but having no medical training is unable to deal with any serious illness.

EXD.

Dear Sir:

In your report for the month of October you again mention the need of a nurse, and suggest that accommodation be provided for such an employee in the event of a day school being erected in your Agency.

 I regret to say that our financial position for the coming year will not be what we had hoped it would be, and many new economies will have to be practised in our present service. It is only by the savings so effected that any tuberculosis work can be carried out. In view of this fact it is impossible to make any plans for the extension of our services.

Yours truly,

Dear Sir:

In preparing our appropriation for the fiscal year 1939-40 provision was made for the erection of a new school at Gitlakdamix. The funds at our disposal will permit the erection of a class room with accommodation for one teacher only. I presume that such a building will meet the requirements at Gitlakdamix.

I enclose building data form which you should complete and return to me at the earliest possible date. Please answer all the questions asked on the form. You should also let me know the number of children for whom accommodation should be provided in the class room.

Under Section 3 you should state from what source water is obtained and whether or not it will be necessary to dig a well. It is not our intention to pipe the water into the school as this increases the cost.

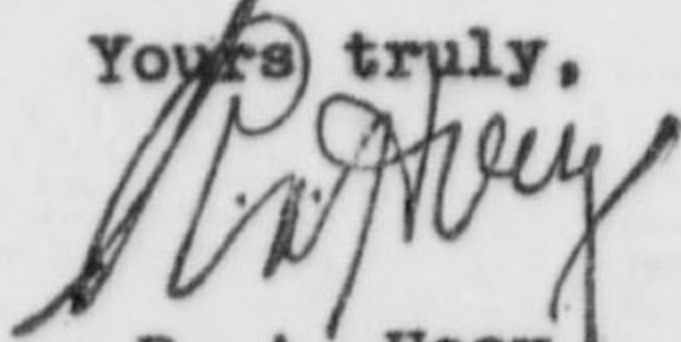

Under Section 4 it should be understood that no expensive sewage system will be installed at a day school.

Very complete information should be supplied under Section 8 and you will also note that you are requested to state whether you consider the school should be built by day labour or contract.

Do you consider that it would be advisable to provide a full basement under the building in order that vocational training could be given?

Dear Sir:

I beg to report as follows for the month of
October.

x x x

At Gitlakdamix, the Indians at a special meeting which was attended by Inspector Barry and myself again urged the erection of a day school for the village. As in my previous reports, I would heartily endorse the request of the people and recommend the construction of a suitable school building and teacher's residence at the earliest possible date. Under present conditions, very little progress is made by the children attending school, as will be seen by Inspector Barry's latest report.

In the event of a building being put up, I would suggest that suitable quarters be provided for the teacher and a trained nurse. The appointment of a nurse has been advocated in previous reports, and I would again emphasize this need.

A Petition

We the Council, parents and people of the Littlekamsic Band humbly petition the Government of Canada through the Honorable the Minister of Mines and Resources to establish an Indian Day School in our Village.

We ask for a modern school building to accommodate at least fifty children with a teachers residence attached. We wish to have a trained teacher who has been at normal school in British Columbia and has a certificate in the province. If possible we should like a married man whose wife is a trained nurse who could look after the health of the village, particularly of the women and children, the nearest doctor being at Hazelton 47 miles away.

We have a small Saw Mill established with the help of the Department

Dear Sir: Re File 168-32A-5.

I wish to refer to Mr. Hoey's letter of February 10th regarding the proposed Indian Day School at Gitlakdamix.

This matter has been further reviewed with Inspector Barry, a copy of whose report is enclosed herewith. I have also discussed the probable costs of such a school with Mr. C.E. Webb, District Chief Engineer, Dominion Water and Power Bureau.

The school at Gitlakdamix should be along the lines of the Bella Bella Indian Day School, now in course of construction, but could be somewhat smaller. I understand the contract price of the Bella Bella Day School was \$7,907. Some \$1400 of this amount was provided for electric lighting and cement work. Having these costs in mind, I doubt if we could build the same school at Gitlakdamix, with cement foundation and full basement, for \$6400. I feel, however, that the building should rest on cement pillars, instead of cedar posts as suggested, or on heavy cedar posts resting on foundational cement blocks. Capt. Barry has informed me that a suitable dry sloping site is available. The use of such a site would reduce excavation costs considerably and would provide the space required for a heating plant. In such a site the length of the foundation pillars, either cement or wood, would of course be governed by the slope of the ground. The building should be heated by a good wood-burning furnace and the warm air conveyed to the various rooms of the building by asbestos covered pipes. The fire box of such a furnace should be sufficiently large to take 4-foot lengths of wood.

Indian Affairs Branch,
Department of Mines and Resources,

A cement foundation with full basement, similar to the Bella Bella School, is of course very desirable, but I feel it is out of the question considering \$6400 to be the maximum available. I should say, however, that we could build a two-room school at Gitlakdamix along the plan of the Bella Bella School utilizing to the fullest extent the lumber produced by the local Indian sawmill for \$6000, leaving \$400 to go towards the costs of equipment. As the Indians are very much interested in the provision of a suitable school for their children, we could count on their wholehearted co-operation, both in the production of such lumber as could be sawn at the local mill and the provision of the necessary Indian labor. It might also be possible to secure a reasonable reduction in river transportation rates on the building materials brought in from outside.

Until it will be necessary to provide a separate room for vocational training, provision for which could eventually be made in the basement, the second classroom should be used for this purpose, as the proposed school would have accommodation for about 70 pupils and the most that would be available to attend during the first two years of the school's life would not likely exceed 50.

I am inclined to agree with the Agent's suggestion that the school be built by Indian labor under the supervision of an experienced and responsible white carpenter-builder. I should like to suggest that the Architect's Branch provide a rough draft plan of the school along the lines suggested and forward same here for examination and the views of Capt. Barry and myself before the final plan is agreed upon. The suggestion of Mr. Indian Agent Collison regarding making early arrangements for the production of the rough lumber required, so that the Indians can proceed to get out the necessary logs, is approved.

Major D. M. MacKay,

Dear Major MacKay:-

With reference to the proposed Indian Day School at Gitlakdamix on the Nass River, Skeena River Agency, which you have asked me to briefly report on, I may say that the provision of a cement basement is in my opinion out of the question, no matter how advantageous. The cost of transporting materials up the Nass River through three rapids makes it necessary to use as far as possible the lumber which can be prepared in the local Indian saw mill.

I agree with your observations as contained in the last paragraph of your letter 15/8/4048 of June 30th 1938 addressed to the Department. The provision of two good sized classrooms would be a great advantage. One of these could at first be mainly used for Vocational Work and Arts and Crafts. It would not be long before it was required as a classroom when the local Indians understand how much a trained teacher can do for their children.

While provision should be made for a married teacher it might be well to have at least one extra bed room for an assistant teacher, for I feel certain that two teachers will be required within the first three years of the school's life. Mr Hoey is of course quite correct in his opinion that 50 pupils are too many for one teacher. In B.C. we try to have a second teacher when the attendance is over 35 and certainly when over 40

A school with the above accommodation and in addition a small room for the usual "Drugs" which could be used as a dispensary, if placed on cedar post foundations leaving room in the basement for a simple Manual Training Shop lined with shiplap lumber, should not cost more in my opinion than around \$5,000.00 leaving the balance available for the complete furnishing of the two classrooms with desks blackboards etc.

I do not agree with Indian Agent Collison that the plan used at Kitselas should be followed. You have I believe a plan of a good two room Provincial Day School prepared by the Provincial Architect, while the Department has lately erected two schools of the type required, one at Port Simpson and one at Bella Bella.

I agree with Mr Collison that the order for all rough lumber should be placed with the local Indians at as early a date as possible. These Indians will have to get the necessary logs to their saw mill.

While the building of schools by contract is as a rule the best method, the peculiar circumstances of this village may incline the Department to follow the Indian Agent's advice. While many of the Indians build quite well there would of course be the need for a responsible "white" carpenter builder, who could supervise and take part in the erection and remain at Gitlakdamix till the school was completed and painted. I know nothing of the man suggested by Mr Collison.

Yours very truly,

Gerald H. Barry.

Ottawa,
February 10, 1939.

Dear Sir:

In the appropriation for the fiscal year 1939-40 an amount of \$6400.00 was provided for a new school at Gitlakdamix.

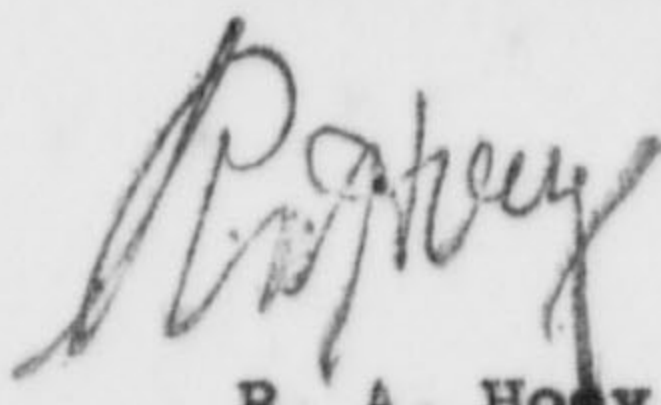

Recently Indian Agent Collison was written for the information which is required by the Surveys & Engineering Branch before plans can be prepared. For your information I enclose a copy of his reply. I should appreciate receiving any comments that you care to make in connection with the Agent's letter. I might add that I have also read your letter of June 30 last in connection with the erection of a school at this point.

Is it possible for you to let me have an estimate of the probable cost of erecting a school at Gitlakdamix? As noted above the amount of \$6400.00 is provided and under no circumstances does the Department wish this amount exceeded.

We would prefer to place a cement basement under the building and use the basement for vocational training purposes. Owing to the high freight rates it would appear that Indian Agent Collison does not consider this advisable. What is your opinion of the matter? If a basement cannot be provided possibly it would be preferable to build a two-roomed school. I do not favour a class room large enough to accommodate 50 pupils as this number is really too large for one teacher to handle.

Prince Rupert B.C.
Jan. 28th 1939

Dear Sir:-

I have to acknowledge receipt of your letter of Jan. 10th 168-32A-5 enclosing Building Data form relative to the construction of the proposed day school building at Gitlakdamix on the upper Nass river.

As you may already be aware, the Indian village of Gitlakdamix is situated about 67 miles distant up the Nass river from Mill Bay Cannery which is the nearest point of steamer call. From this point freight is transported up river by Indian motor boats. The usual charge for river freight is $1\frac{1}{2}$ ¢ per lb. and for lumber from \$25. to \$30. per thousand feet.

Some years ago, the Department supplied the Gitlakdamix Indians with a small sawmill with a capacity of 5,000 feet per day. This mill cuts for local needs when required. From this it will be seen that the cost of transporting lumber and material from the Coast to Gitlakdamix reserve will be a heavy item in connection with the construction of the proposed school.

I would suggest if possible, all rough lumber and heavy framing might be cut at the local sawmill leaving the hardwood flooring and other dressed lumber to be shipped from the coast.

The Indians have a small planer in connection with the mill and might be able to supply the ship lap lumber required for the building, but not the siding.

In order to make this possible, it will be necessary to place the order for lumber required with the mill at Gitlakdamix at the earliest opportunity, giving quantities, dimensions etc. so that the Indians may have ample time to get out the logs and proceed with sawing, particularly as the lumber should be dried before it is

used on the work.

With a few minor changes including increased class-room accommodation for 50 pupils, I would suggest that the plan of the Kitselas day school and teacher's residence might be suitable for Gitlakdamix. The cost of river freighting being so high, I would also recommend that a cedar post foundation be put in instead of cement.

Due to the location and conditions of transportation, building by contract will probably be very expensive, and I would suggest that the work be carried out by day labor under the supervision of a responsible builder who should remain on the ground until the work is completed. In this connection I would suggest that the work be placed in the hands of Mr. J.R. Mitchell of Prince Rupert who has had considerable experience in the construction of day schools for the Department at Massett and Kitselas.

It would be advisable to employ Indians of the village, many of whom have a working knowledge of carpentry. This would give needed employment.

Owing to the distance and expense of travel, it will be impossible for me to give frequent supervision to the work as I was able to in the case of the Kitselas day school.

The data required by the Department has been supplied as far as possible in the form attached.

Yours faithfully

Dear Sir:- Re new school at Gitlakdamix

There is no information on file here concerning the rate of wages the Department will allow the foreman, Mr. J. R. Mitchell, during the construction of the new school.

When the Kitselas Indian school was built in 1937, the foreman was paid $87\frac{1}{2}$ ¢ per hour. At the Bella Coola school 75¢ per hour was paid, and the Department stated that the foreman's wages were not to exceed \$1.00 per hour.

Mr. Mitchell has asked for \$1.25 per hour or \$10.00 per day. He claims that he has always been paid this amount for similar work. Taking into consideration the out-of-the-way conditions of the place etc. I would recommend that Mr. Mitchell be allowed \$10.00 per working day.

I have been up the Nass River and made arrangements with the Manager of the Mill Bay Cannery for storage space for the material which will be delivered there by the fortnightly steamer on July 24th. I have also contacted several Indians who would transport the material up the river beginning July 28th. I will be at Mill Bay on this date and will then go on to Gitlakdamix taking Mr. Mitchell as well.

Yours faithfully,

Mr. Jackson

With reference to Dr. McGill's memorandum of the 31st ultimo, file 168-32A-5, and his recommendations regarding purchases for the proposed new Indian school at Gitlakdamix, Skeena Agency, B.C., I may state as follows:-

- (a) Labour. I note that it will be satisfactory to employ Indian labour, under the direction of J.R. Mitchell, of Prince Rupert, B.C.
- (b) Lumber. I recommend that the lumber be procured from the sawmill owned and operated by the Gitlakdamix Indians.
- (c) Other building material, millwork and hardware,- I would suggest that Major MacKay obtain competitive prices from approved sources of supply. If the total cost of these items exceed the maximum amount he is authorized to purchase, he could submit tenders to Ottawa for approval, with his recommendations, and sufficient data to enable this office to place the order.

Memorandum:DEPUTY MINISTER

Re: Proposed new school at Gitlakdamix,
Skeena Agency, British Columbia

May I refer to my memorandum dated March 20 and Mr. Pratt's reply thereto dated March 23, 1939?

A decision has been reached whereby the construction of this school will be undertaken under the direction of Mr. J. R. Mitchell, of Prince Rupert. Indian labour will be employed. The lumber will be secured from a sawmill owned and operated by the Gitlakdamix Indians. In this way the heavy expense of having lumber shipped from Vancouver will be avoided.

Major MacKay, in a letter dated May 26, is anxious to secure the authority necessary to permit him to purchase for the erection of this school any additional supplies that may be necessary, such as window frames, hinges, etc. Major MacKay is anxious to proceed with the construction at the earliest possible date, and I should appreciate a decision from you with respect to the additional purchases.

Dear Sir:

Re File 168-32A-5.

I have to refer to Mr. Hoey's letter of March 27th and subsequent correspondence in the matter of the erection of a new Day School at Gitlakdamix, Skeena River Agency. Plans have been drawn by Mr. Mitchell, the carpenter-foreman engaged, along the lines of the Port Simpson Day School but somewhat smaller and with a few changes in order to bring the costs within the amount authorized, \$6,000.00. Provision has been made for two classrooms, each to accommodate 32 pupils, which should be ample for some years to come.

Instead of cement piers, substantial cedar posts on cement blocks will be put in for the foundation. The present plan provides for one bedroom only, but as two teachers will undoubtedly be required, I have instructed the Agent to make provision for a second bedroom in the attic. Inspector Barry examined the plans in Prince Rupert recently and telegraphed recommending a second bedroom, and additional excavation to provide for a Manual Training room in the basement.

In view of the likelihood that Coqualeetza will be discontinued as a Residential School and the necessity of providing additional Day School accommodation, I consider the additions suggested at Gitlakdamix should be provided. It is not considered that the extra costs involved in making the above-mentioned changes should exceed \$500.00, which, if approved, would bring the total estimate up to \$6,500.00. The Agent has been given very definite instructions with respect to the necessity of keeping within the amount provided. I should appreciate being advised at the earliest possible date if construction may proceed allowing for the additional accommodation herein above referred to.

In the matter of the purchase of materials where the amount involved is in excess of \$50.00, should tenders be submitted to Ottawa for approval before the Purchase Order is placed or may I place Purchase Orders up to \$500.00 on tenders received here without reference to the Department? I should like to be very clear on this point before any purchase is made. It is presumed that for lumber supplied by Indians payment can be made from the cash advance of \$2,000.00.

Memorandum:

Mr. Wardle

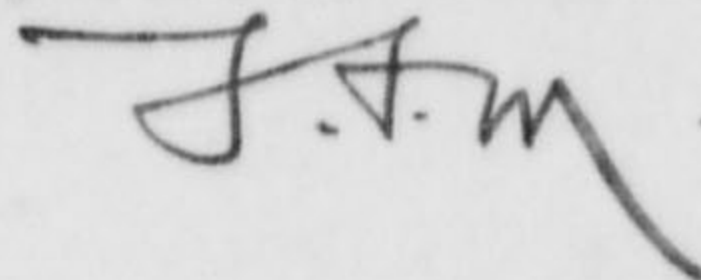

Re: Indian Day Schools.

With regard to your memorandum of the 18th ultimo, regarding the above, it is noted that the Indian Affairs Branch proposed to use the plans of the Bella Bella school for the building at Getladamix, Saskatchewan. As the Bella Bella plans were prepared for particular site conditions, namely, solid rock at two feet below grade, it is felt that these plans would not suit the site conditions at Getladamix. Plans of a similar building with normal depth foundation walls have been prepared for the Maria Indian Reserve school, and it is felt that these plans would be more applicable to building conditions in Saskatchewan. Copies of these plans will be provided for use of the Indian Affairs Branch, if so desired.

In connection with the erection of Indian Schools by Indian Agents, where authority is granted to carry on construction without plans, or where plans of other schools are used without reference to this Service, it is felt that in all cases 4" weeping tile drains should be laid around the building at the level of the wall footings. This drain should be graded to a sump some distance from the building as a precaution against water infiltration through the basement walls or floor.

It is also considered advisable that in all schools erected under the same conditions that toilet accommodation should be provided for teachers, separate from that assigned to the pupils.

Respectfully submitted,

Dear Sir:

I desire to refer to your letter of the 12th ultimo in connection with the erection of the Gitlakdamix Indian day school.

While you suggested that the accountable cheque for wages be forwarded to Mr. Collison I felt that it would be advisable to send this amount to you as you will no doubt desire to arrange for the payment of the lumber which will be secured from the Gitlakdamix Indians. An accountable cheque for wages and the purchase of the lumber amounting to \$2000.00 is being forwarded to you and if further funds are required please let me know.

No doubt it is your intention to proceed with the purchase of the other materials that may be required. When purchasing materials please be guided by the instructions issued to you last December which read in part as follows:

"The original tenders received by Major MacKay and the Purchase Order should be forwarded to the Department, one copy of the Purchase Order together with the tenders received to be sent to the Purchasing Agent, and one copy of the Purchase Order to Chief Treasury Officer."

I desire to direct your special attention to the fact that a copy of the purchase order should be forwarded to the Chief Treasury Officer, Indian Affairs Branch, Ottawa. By complying with this regulation it is a comparatively simple matter for the Department to arrange for payment of the account. The E. R. number is 325.

Dear Sir:

Re Your File 168-32A-5.

I have to refer to Mr. Hoey's letter of March 10th, 1939, regarding the erection of a new school at Gitlakdamix.

It is noted that \$6000 is being made available for this construction, and that the employment of Mr. J.R. Mitchell of Prince Rupert, as carpenter-foreman, has also been authorized.

Plans of the Bella Bella Indian Day School, which were in my possession, are being forwarded to Mr. Collison, and he is being asked to consult Mr. Mitchell and decide on a suitable two-room school, with teachers' residence, smaller than the Bella Bella School and more on the lines of the Port Simpson School, without full cement foundation. Copies of the correspondence which has passed between the Department and this office regarding the construction of a school for Gitlakdamix, are being supplied to Mr. Collison for his information.

RR 4000
The encumbrance requisition and all cash advances required for the payment of labour should be forwarded direct to Mr. Collison, who should be required to render the usual accounting for all expenditures. This was the course followed in connection with the construction of the school at Kitselas and at Bella Coola and as far as is known here was satisfactory to the Department.

Dear Sir:

I desire to refer to your letter of the 2nd instant regarding the erection of a new school at Gitlakdamix.

I note from your letter that you consider that for the sum of \$6,000.00 a two-roomed school can be built at Gitlakdamix somewhat similar to the Bella Bella school by utilizing to the fullest extent the lumber produced by the Indian saw mill.

You may make the necessary arrangements to proceed with the erection of this building as soon as weather conditions are suitable. Mr. J.R. Mitchell of Prince Rupert should be employed as carpenter-foreman and Indian labour should be used.

It is also noted from your letter that it is not your intention to provide a cement basement but that the building will rest on cement pillars or on heavy cedar posts resting on foundational cement blocks.

Plans that we have on hand at the present provide for a cement foundation and as it might delay matters unnecessarily to have plans prepared showing a foundation in the manner which you intend to use I think that the best procedure to follow is to use one of the plans that you can secure from the Provincial Department of Education.

Funds for the erection of this building will be available early in the new fiscal year and any time after April 15 you can apply for an accountable advance

DEPUTY MINISTERRe: Proposed New Gitlakdamix School

In the main estimates for the fiscal year 1939-40 an amount of \$6400.00 has been provided for the above building.

I have been in communication with Indian Commissioner MacKay with a view to determining the best manner in which to erect this building.

As you are aware Gitlakdamix is situated near Aiyansh, B.C. on the Skeena River and due to the location and conditions of transportation erection of the building by contract would probably be very expensive. Indian Commissioner MacKay recommends that the work be carried out by day labour employing Indians under the supervision of a competent carpenter-foreman. In this connection Commissioner MacKay mentions the name of Mr. J. R. Mitchell of Prince Rupert who has had considerable experience in the erection of schools in this vicinity.

The Gitlakdamix Indians have a small saw mill and all the rough lumber and heavy framing required could be cut at this saw mill and thus avoid the heavy expense of having it shipped from Vancouver.

Commissioner Mackay considers that the school can be erected by day labour in charge of a competent carpenter-foreman for an amount not exceeding \$6000.00 which would leave \$400.00 to provide necessary equipment for the building.

It would be appreciated if the Honourable the Minister would concur in the Commissioner's recommendation and in that event please let me know the name and address of the person who is to be employed as carpenter-foreman.

As stated in the telegram, my reply on the 28th Jan. to official letter 168-32-A. of Jan. 10th was forwarded together with data requested by the Department.

It is just possible that the names "Gitlakdamix" and "Aiyansh" have caused some confusion, as Gitlakdamix is the name of the Indian village and school; and Aiyansh $1\frac{1}{2}$ miles distant, is the post office address. Frequently mail for Gitlakdamix is addressed to Aiyansh.

Dear Sir:-

I have to acknowledge receipt of your letter of Jan. 10th 168-32A-5 enclosing Building Data form relative to the construction of the proposed day school building at Gitlakdamix on the upper Nass river.

As you may already be aware, the Indian village of Gitlakdamix is situated about 67 miles distant up the Nass river from Mill Bay Cannery which is the nearest port of steamer call. From this point freight is transported up river by Indian motor boats. The usual charge for river freight is $1\frac{1}{2}$ ¢ per lb. and for lumber from \$25. to \$30. per thousand feet.

Some years ago, the Department supplied the Gitlakdamix Indians with a small sawmill with a capacity of 5,000 feet per day. This mill cuts for local needs when required. From this it will be seen that the cost of transporting lumber and material from the Coast to Gitlakdamix reserve will be a heavy item in connection with the construction of the proposed school.

I would suggest if possible, all rough lumber and heavy framing might be cut at the local sawmill leaving the hardwood flooring and other dressed lumber to be shipped from the coast.

The Indians have a small planer in connection with the mill and might be able to supply the shiplap lumber required for the building, but not the siding.

In order to make this possible, it will be necessary to place the order for lumber required with the mill at Gitlakdamix at the earliest opportunity, giving quantities, dimensions etc. so that the Indians may have ample time to get out the logs and proceed with sawing, particularly as the lumber should be dried before it is

used on the work.

With a few minor changes including increased classroom accommodation for 50 pupils, I would suggest that the plan of the Kitselas day school and teacher's residence might be suitable for Gitlakdamix. The cost of river freighting being so high, I would also recommend that a cedar post foundation be put in instead of cement.

Due to the location and conditions of transportation, building by contract will probably be very expensive, and I would suggest that the work be carried out by day labor under the supervision of a responsible builder who should remain on the ground until the work is completed. In this connection I would suggest that the work be placed in the hands of Mr. J. R. Mitchell of Prince Rupert who has had considerable experience in the construction of day schools for the Department at Massett and Kitselas.

It would be advisable to employ Indians of the village, many of whom have a working knowledge of carpentry. This would give needed employment.

Owing to the distance and and expense of travel, it will be impossible for me to give frequent supervision to the work as I was able to in the case of the Kitselas day school.

The data required by the Department has been supplied as far as possible in the form attached.

Yours faithfully

Nearest shipping point Mill Bay Cannery at mouth of Nass river

Distance Mill Bay to Gitiakdamix approximately 67 miles. River transportation Mill Bay to Gitiakdamix by Indian motor boats. Recommend tenders be invited for river freighting.

Owing to location, distance and conditions of river transportation by contract will probably cost more. Recommend work be carried out by day labor under supervision of capable foreman builder undertaking all responsibility and authorized to employ Indian labor, and services of one white carpenter if necessary.

AIRMAIL

Dear Sir:

Your File 168-32A-5.
New Indian Day School, Gitlakdamix

I have to confirm the following telegram despatched
to you this day:-

"REFERENCE MY AIRMAIL APPLICATION SEPTEMBER
THIRTEENTH FOR EIGHT HUNDRED DOLLARS TO COVER
LABOR NEW SCHOOL GITLAKDAMIX (STOP) THIS
SHOULD HAVE BEEN FOR EIGHTEEN HUNDRED DOLLARS
(STOP) PLEASE ARRANGE TO FORWARD THIS LATTER
AMOUNT AT EARLY DATE."

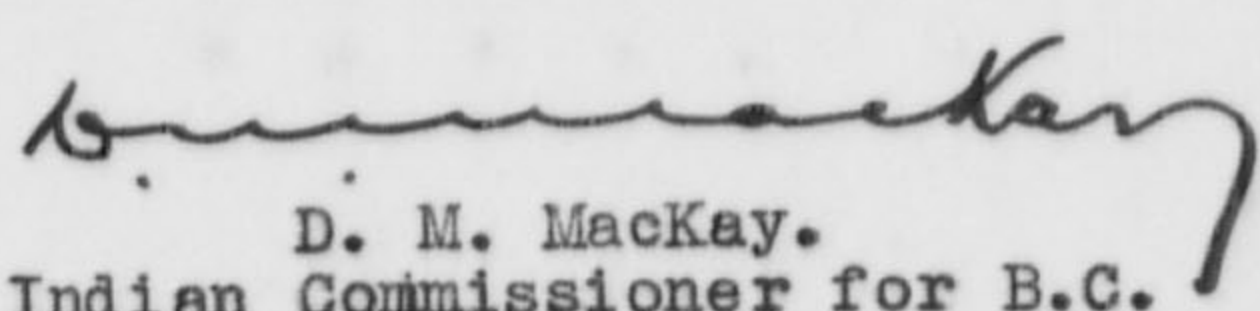

It is regretted that in preparing the above mentioned
letter, the amount stated therein was based on the assumption
that an advance of \$3000 had been received from the Department
for labor and payment of lumber purchased from Indians, but
our records disclose that only \$2000 has been received to date.
An advance of \$1800 will fully adjust matters and when received
will make a total of \$3800 advanced by the Department to meet
the costs of labour and purchase of Indian lumber.

This adjustment will not affect the total cost of con-
struction, which will be within the estimate of \$6,500.

The error is regretted and I trust that it will not
cause the Branch any inconvenience.

Yours faithfully,

/AC

AIRMAIL

Dear Sir: Your File 168-32A-5,
New Indian Day School, Gitlakdamix.

With reference to the marginally noted subject
I beg to advise that I have been notified by Mr. Indian Agent
Gillett that the school has now been completed.

In order to meet the full costs of labour, an
additional advance of eight hundred (800) dollars is required.
I should appreciate receipt of this amount as soon as possible
in order that the outstanding accounts in this connection can be
met.

Although I am not in possession of complete details
at the moment, the information to hand would indicate that the
costs of this construction will not exceed \$6500.00.

Yours faithfully,

D. M. MacKay.

Dear Sir:-

I enclose herewith, vouchers 9690, 9691, 9692 and 9693 in favor of various merchants amounting to \$705.50 for material supplied in connection with the construction of the new Indian day school at Gitlakdamix.

The fibreweld roofing paper was used to insulate the earth from the basement wall to prevent the decay of the planks as the Indians supplied spruce instead of cedar as requested. It was difficult to secure cedar in that locality.

The Kaien Hardware supplied raw linseed oil, the kind not being specified on the tender, hence the reason for the return of the oil and the extra cost for the boiled oil. The other items were incidentals unforeseen when the tenders were called.

Yours faithfully,

Dear Sir:-

The new Indian day school at Gitlakdamix was finished September 27th, and was officially opened by a public gathering on the evening of the same day.

The school was well built, and Mr. J.R. Mitchell, the foreman, managed the construction well and completed it in a satisfactory manner with good workmanship.

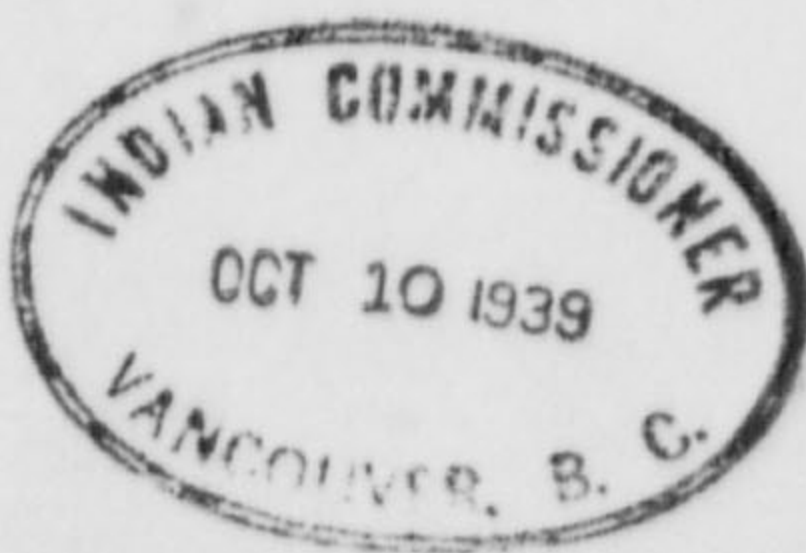

The complete cost including toilets and drain was \$6,419.08. A complete statement will be sent in later together with a snapshot.

29th Nov., 1939.

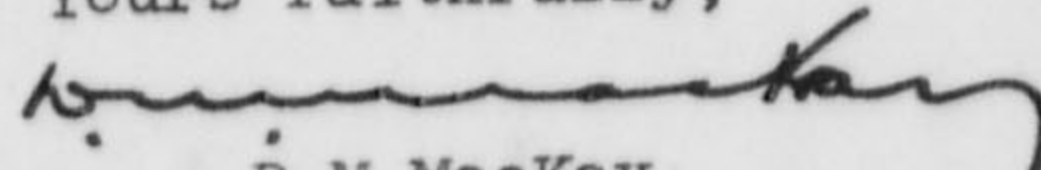

Dear Sir:- Your File 168-32A-5.

On October 19th, Mr. Indian Agent Gillett submitted an account from Mitchell & Currie, Contractors, Prince Rupert, for \$125.00 for the preparation of the plans and specifications in connection with the new Gitlakdamix Indian Day School. I returned the account, advising the Agent that I was not prepared to recommend payment as no authority had been issued from this Office covering the expenditure and, in any case, the charge was excessive. At the same time I informed Mr. Gillett that, under the circumstances, I was prepared to recommend that an amount of \$50.00 be paid for the services rendered by Mitchell & Currie for the preparation of the plans, etc. as this was quite as much as I considered the work was worth. The Contractors were evidently willing to reduce their fee, as I am now in receipt of an amended voucher from the Agent covering their account for \$50.00.

There is on deposit in the B. C. Indian Trust Account a balance of \$75.25 from the cash advance in connection with the Gitlakdamix School construction, from which Mitchell & Currie's account could be paid if it would be in order to do so.

I should appreciate your instructions at an early date in this respect.

Yours faithfully,

D.M. MacKay.

Dear Mr. Gillett:- Your File 9-N-13374.

I have to refer to your letter of October 19th with enclosed Voucher 9738 covering account of Mitchell and Currie, Contractors, for preparation of plans, blue prints and specifications in connection with the construction of the new school at Gitlakdamix.

In this connection I beg to advise that Mr. Collison was not authorized by this Department to employ the firm of Mitchell and Currie to prepare plans and specifications. It was expected that whatever plans were necessary would be based on the plans of that of the Bella Bella Day School and those of Port Simpson and Kitselas which were made available to the Agent. Mr. Collison was asked to consult Mr. Mitchell, who was to be employed as foreman carpenter, vide my letter of April 12, file 15/8/8802, regarding the plan of the building.

It is recognized that plans and specifications were necessary, but a builder usually supplies such information when he tenders or is employed on proposed construction without cost to the Department. Quotations are being asked for from day to day by this office which frequently necessitate plans and specifications which require considerable time and preparation but I can recall no instance where the Department has been called upon to pay for such work. As you know, \$6500 was provided for the Gitlakdamix School with instructions that under no circumstances was this amount to be exceeded. From the returns received, the actual cost is somewhere in the neighbourhood of \$6425, leaving a balance of \$75 of the appropriation unexpended.

Any draughtsman could prepare the rough plans supplied in this case in a matter of three days at the most and the blue prints should not have cost more than \$3.00 per set. The most I would be prepared to do in the matter is to recommend that the Department favorably consider providing a sum not exceeding \$50.00 for the plans and specifications provided. You might therefore discuss the matter with Messrs. Mitchell and Currie, and if this arrangement would be acceptable to them, to have the accounts and vouchers amended accordingly, and please submit same to this office.

Yours faithfully,

"D.M. MacKay."

Dear Sir:-

I submit herewith, for the Department's consideration, Vo. No. 9738, amounting to \$125.00 in favor of Mitchell & Currie, contractors, Prince Rupert, for preparing plans and estimates in connection with Gitlakdamix new school.

While the Department authorized Mr. Collison to secure Mr. Mitchell to draw up the plans, no agreement as to cost was made.

I recommend that the Department pay Mr. Mitchell what is considered fair and just.

Dear Sir:-

I am forwarding herewith, two snaps
of the new school at Gatlakdamix.

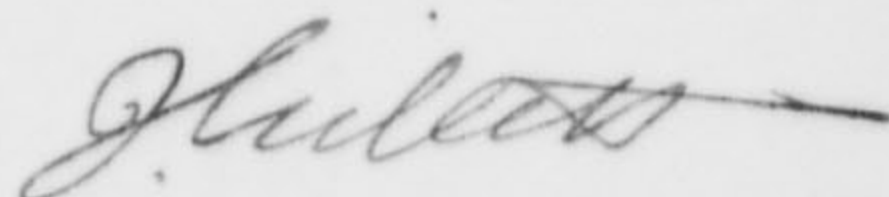

I considered it necessary to make minor
alterations in the residence end, and they are
marked on the blue print. The living room is now
to the front of the building and there is just one
entrance from the school hall to the teacher's
quarters.

The living room can now be entered from
the outside. The veranda at the end is a little
longer than what the plan called for so that it
would cover the entrance to the two doors.

The plans are being returned under separate
cover.

Trusting this will be satisfactory.

Dear Sir:

Your file 168-32A-5.

I am forwarding herewith the balance (\$25.25) cheque No. 33930 of cash advance received for labour, etc., in connection with the construction of the new school at Gitlakdamix.

The building is a 38' x 55' frame structure, with two class rooms and teachers' residence. The basement was subdivided to provide a furnace and fuel room and a manual training room.

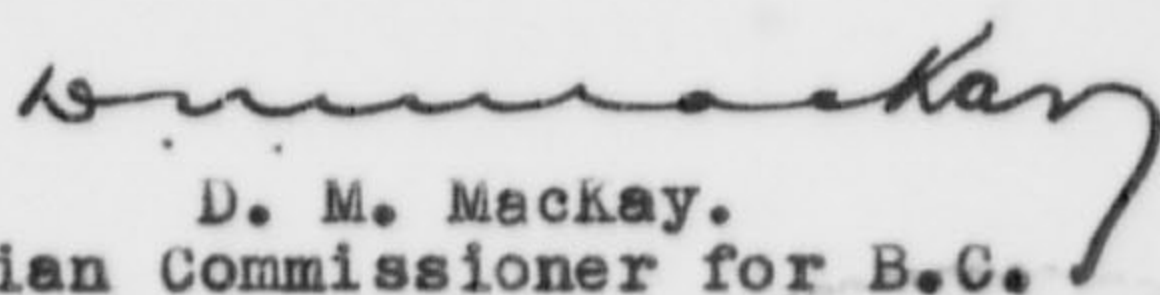

The school was built within the estimate provided (\$6500) and Mr. Gillett has reported that the materials supplied were good and all the work in connection with the construction of the building and the installation of the heating unit was well done.

From reports received I should say that the new school at Gitlakdamix compares very favorably with other schools with similar accommodation constructed for the Department in the past two years.

When the Inspector of Indian Agencies visits the Skeena River Agency, he will arrange to visit this school and make a report. The enclosed snapshot was received from Mr. Gillett and is forwarded herewith together with a copy of his letter of October 19th.

Dear Sir: Your File 168-32A-5.

I have received from Mr. Indian Agent Gillett a list of furnishings required for the teacher's quarters of the new school at Gitlakdamix. The equipment asked for is similar to that supplied for the residence section of the new school at Bella Bella and will cost approximately two hundred and twenty-five (225) dollars f.o.b. Vancouver.

A second teacher has not been thus far secured for Gitlakdamix, and Bishop Rix informed me yesterday that he is continuing to make inquiries for a suitable teacher but at the moment had no one whom he could nominate.

I may say that every effort is being made to secure qualified teachers for the existing vacancies in our Indian Schools, all of which happen to be in the Diocese of Caledonia. The Provincial Department of Education has been asked to assist but owing to the scarcity of fully qualified teachers the province is faced with a similar problem to our own and is not at present, at least, in a position to help.

Reverting to the requisition referred to for furnishings for the teachers' residence, I should appreciate being advised if the Department intends to provide these, and if so, I should like to have your instructions as to purchase.

Dear Sir:

I desire to refer to your letter of the 10th ultimo with reference to the furnishings required for the teacher's quarters at the Gitlakdamix Indian Day School.

As yet we have not received any nomination for a second teacher for this school and I presume that the present teacher, Rev. S. Kinley, is residing in the Missionary's residence and not in the school. If this is correct there is no immediate need for furnishings.

Our funds at the present time are practically all assigned and consequently it is not possible to consider paying for new furnishings for this school. However, if you consider that the teacher's quarters should be furnished either now or at any time within the next month or so you may do so provided you can arrange with the firms supplying the goods to wait for payment of same until our appropriation for the fiscal year 1940-41 is available. In the event of your deciding to make purchase of these furnishings it is understood that the cost will not exceed \$225.00 f.o.b. Vancouver.

Dear Sir:

Your File 168-32A-5.

I have to refer to your letter of February 13 regarding furnishings for the teacher's quarters of the new Indian Day School at Gitlakdamix.

X I may say that it is hoped to obtain a married teacher for this school for the academic year 1940-41, whose wife might look after the health work among the Indians of the local village, but as there are few if any qualified teachers available in British Columbia at the present time and that it is now too late to send a teacher to Gitlakdamix before the end of the current school year, it is not considered necessary to provide furnishings for the teacher's residence until early in the new fiscal year or prior to the opening of the school year in September, next.

Dear Sir:

In your letter of June 5 you enclosed Inspector Barry's report on his inspection of the Citlakdamix Indian Day School and it is noted that he again recommends that the services of the teacher terminate on the 30th instant.

In your covering letter you make no special reference to the Inspector's recommendation but from the information contained in your letters of January 10 and February 19 it is evident that you have been in communication with Rt. Rev. Bishop Rix with a view to securing properly qualified teachers to take charge of this school during the academic year 1940-41.

I should appreciate your advising me as soon as you can conveniently do so what the prospects are for obtaining new teachers as it is apparent from the Inspector's report that Mr. Kinley's services are not very satisfactory.

It is also noted from the Inspector's report that he suggests that this school operate on a seven-month basis only; namely, from October 1 to April 30. This recommendation meets with our approval.

In the event of new teachers being obtained I would refer you to the last paragraph of official letter of February 13 last authorizing an expenditure for the purchase of furnishings for the teacher's quarters.

Dear Sir:

I desire to acknowledge receipt of your letter of the 26th instant, in which you seek authority to purchase the necessary furnishings for the Gitlakdamix Indian Day School, at a cost of approximately \$200.

The files indicate that you were authorized to purchase these furnishings in departmental letter of February 13, 1940, the cost not to exceed \$225. This authority was renewed in the last paragraph of departmental letter of June 25, 1940. It is desirable that the furnishings should be purchased by you and supplied at an early date.

Prince Rupert, B. C.,
August 14th, 1942.

Dear Sir:

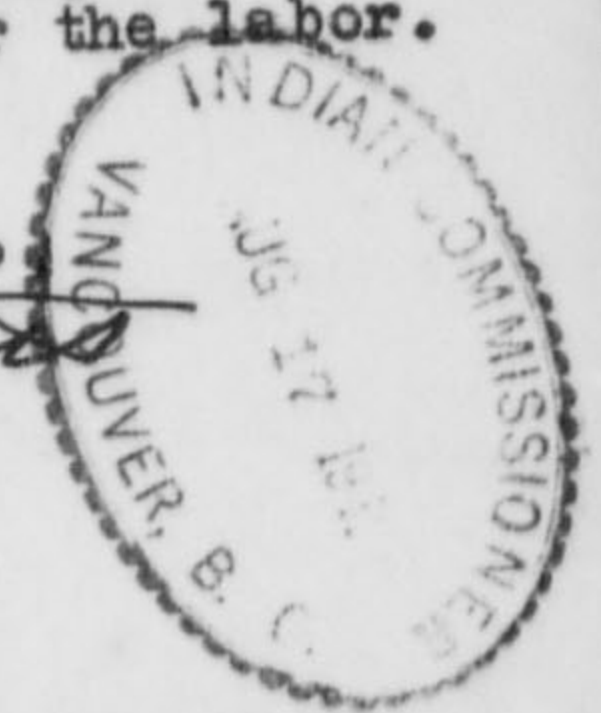

In the estimates of 1941-42, I asked for an appropriation to construct cement walls in the basement of the Gitlakdamix school, to prevent it from flooding. After heavy rains, the floor is covered with water varying in depth from a few inches to a foot.

The basement, which contains the furnace and is used as a store room for the wood, measures 38'x16'x8'. It has a cement floor and board walls which are leaking. It will be necessary to have the walls only one foot above the surrounding ground. A diagram is attached, giving the dimensions of each wall. The total measurement for an 8" wall is 14 cubic yards. The materials required are listed on form 37, which is attached herewith, showing the cost of same, together with a tender from McCaffery's for cement. The lumber can be purchased from the Aiyansh saw mill and the hardware from Gordon's Hardware at Prince Rupert. The approximate cost will be \$475.00, which is much less than the amount shown in the estimates. Mr. Mitchell, the builder of the school figured on a cement wall completely around the school, whereas I consider it necessary to enclose only that portion which is used for the furnace and store room, the remainder of it is not excavated. Indian labor will be available about September 15th. As it should not take any more than one week to complete the job I would go to Gitlakdamix and stay until it was finished, as it is not possible to secure a white foreman. If the Department approves of the above I would recommend that an advance cheque for \$250.00 be forwarded here, so that I may pay for the labor.

Yours faithfully,

J. Gillett,
Indian Agent.

Dear Sir:

I beg to acknowledge receipt of your letter of the 14th ultimo requesting authority to expend \$475.00 for the construction of a concrete basement for the Gitlakdamix School in order to prevent it from being flooded by heavy rains.

In reply I would advise that after discussion of this matter with Mr. Inspector Barry, the item was deleted from your estimates for the current fiscal year. Mr. Inspector Coleman informs me that when he visited the school he found there was a tendency for the ground at the rear of the school to drain towards the building and bring about the condition complained of but that he discussed with you the matter of constructing a drain behind the school to carry away this water to some low ground or a small creek to one side of the building. It appears to me that if this could be done and it would remedy the situation, that it would be far less expensive than the work which you proposed to undertake. It would be appreciated if you would advise me if any attempt was made to construct the drain in question.

Yours faithfully,

D.M. MacKay,
Indian Commissioner for B.C.

Dear Sir:

Re: Gitlakdamix School

With reference to your letter of the 3rd inst., I beg to say that the ditch back of the school was cleared and deepened and it improved the situation as far as preventing water from going through the basement door was concerned, and we had thought this was the only source of the trouble. The winter of 1941 Mrs. Henderson discovered that the chief source of the flooding was through the front wall of the basement. I also verified this in October last.

It is possible that the down pipe on the eave trough which enters the drain pipe near the front wall of the basement is the cause of the trouble. If it is this could be remedied by having another outlet from the drain near the down pipe to the back ditch. This would mean digging a ditch approximately 75 feet long, varying in depth from 2 to 6 feet. I think it would also be necessary to place a board drain in the ditch approximately 6 inches x 4 inches, and it may also be adviseable when we have the ditch open near the school to put an extra lining of boards on the outside wall of the basement, arranging them so they would cover up the seams in the present wall.

450 It will require approximately 300 feet of rough lumber 1x12, 1x6 and 1x4. The approximate cost of the lumber would be \$9.00, and it could be purchased at the Aiyansh saw mill. The labor would cost approximately \$35.00 for this job. Nails and incidentals would amount to about \$6.00.

I will delay my trip to Aiyansh until I receive word whether or not this work can be done.

Yours faithfully,

J. Gillett,
Indian Agent.

I enclose herewith Mr. Indian Agent Gillett's requisition of August 14th for authority to expend \$475.65 for the construction of a concrete basement for the Gitlakdamix Indian Day School, together with copy of my reply of the 3rd instant and Mr. Gillett's further letter of the 11th instant, from which it will be observed that he considers that an expenditure of \$50.00 for labour and material will provide sufficient drainage to keep the school basement dry.

If funds can be provided for the purpose, I would recommend approval of the application.

Major D.M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

I received a wire and a letter from Miss Brunton, teacher at Aiyanash, in which she asks for the articles listed on Form 37.

We cannot purchase the grate and deck chair in Prince Rupert. The bureau and other material can be purchased locally for the prices that are listed. I recommend that all the article be purchased with the exception of the paint which she requires for the ceiling in the schoolroom, to give better light reflection. The ceiling is now oiled. I think this matter could be left until next year when I visit the school and make an investigation and an estimate of the labour. I would recommend that she be supplied with a gas lamp for the schoolroom.

I consider the bedroom bureau necessary as she claims that she has no place to keep her clothes. Unfortunately, there was none supplied with the original list of furnishings.

The deck chair she wishes is to be used as an easy chair. She states that the bottom is broken on the wicker chair which was supplied with the original furniture order. I will see if this can be repaired. It is not a comfortable chair, however, and I notice that Miss Brunton has a deformed back. It may be possible that the deck chair would be more comfortable for her.

I would suggest that the grate and deck chair be shipped care of us as we may be able to contact some party going up to Aiyanash. The next boat connecting with Aiyanash mail service will not be going up until the middle of December.

I beg to forward herewith Mr. Indian Agent Gillett's letter of April 26th and Requisition for materials to construct a cement basement for the Aivansh Indian Day School building.

Provision was made in the Estimates for an expenditure of \$496.15 for this work, and it would be appreciated if you would advise if the funds were made available.

PLEASE QUOTE

Prince Rupert, B.C.
April 26th, 1944.

Major D.M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

I placed an item in 1944-45 estimates for \$490.15 to have cement walls erected around the basement of the Aiyansh Indian Day School. I would recommend that this be done in May of this year before the men leave for the fishing plants.

The cement could be purchased at Albert & McCaffery Ltd., the only local source, for \$4.75 per barrel, f.o.b. Prince Rupert. The lumber can be purchased at Aiyansh, and the nails and tar at Gordon's Hardware, Prince Rupert.

If I am authorized to have this work carried out, I would appreciate an accountable cheque for \$384.00 for wages, lumber and river freight. I would appreciate an early reply so that I can make arrangements to have ten or twelve men remain in the village. I anticipate leaving here for Aiyansh on the 22nd of May.

With reference to your letter of the 2nd instant, the Department approves the expenditure of \$496.15 for labour and material required for constructing a cement basement at the Gitlakdamix Indian Day School. An accountable cheque for \$384 is going forward to the Agent. You may purchase the materials required and when forwarding the account you should attach copy of your purchase order.

I would appreciate a cheque for \$32.63. This will
take care of the \$23.03 over expenditure and two days
wages for the removing of forms after the cement is dry.

I was unable to procure shiplap as expected at the
Aiyanash mill and having to bring it in from elsewhere
involved freight charges of \$30.00. River freight on the
cement was also slightly underestimated, which accounts
for the overexpenditure.

I enclose herewith a letter dated the 19th instant received from Mr. Indian Agent Gillett, together with the vouchers mentioned therein, with reference to expenditures in connection with the construction of a cement basement at Gitlakdamix Indian Day School, Skeena River Agency, B.C. The Department authorized an expenditure of \$496.15 in this connection by letter 168-32A-5 of May 5, 1944.

It will be noted from Mr. Gillett's letter that the freight charges, etc., have been higher than he estimated and that he now requires an additional amount to pay for the labor involved.

I would recommend the Department's approval of Mr. Gillett's request that an accountable cheque for \$32.63 be sent to him to cover the labor charges still unpaid.

I enclose herewith Mr. Indian Agent Gillett's letter of April 24th and requisition covering the supply of five only blinds for the Aiyansh School, and materials and labour required for the construction of a roof over the verandah. Although no specific provision was made in the Estimates for this expenditure it would appear that the roof is necessary as a safety measure and it is recommended that Mr. Gillett be authorized to spend the sum of \$38.21 for the purchase of blinds and material and for the provision of labour.

Attached is a Requisition for material
for Aiyansh School.

Mrs. Henderson states that she needs
blinds, as the sun coming through the windows is too bright
on sunny days.

She also states that there is a danger
of ice coming off the roof and injuring children, as there
is no roof over the verandah. I would suggest that we
put up what might be called a porch roof, so ice coming
off the roof would strike the porch roof and slide down
each side of same, rather than come direct on the verandah
as it does now.

I am in receipt of a request from Mr. Indian Agent Anfield for a bed, mattress, etc. for use of the second teacher at the Gitlakdamix Indian Day School, at cost of \$52.90, f.o.b. Prince Rupert.

As this equipment is considered necessary, I have issued P. O. #6846-A in favour of Gordon and Anderson Ltd., Prince Rupert, B.C. in order that delivery may be made immediately to meet the requirements at the teacherage. I trust that the Department will approve of this expenditure.

Department of Mines & Resources, Indian Affairs Branch, Ottawa.

Your 168-32-5 (Wtl) of August 27th received having reference to voucher no. 290, freight on 130 lbs. of school supplies for the Gitlaadmix Indian Day School.

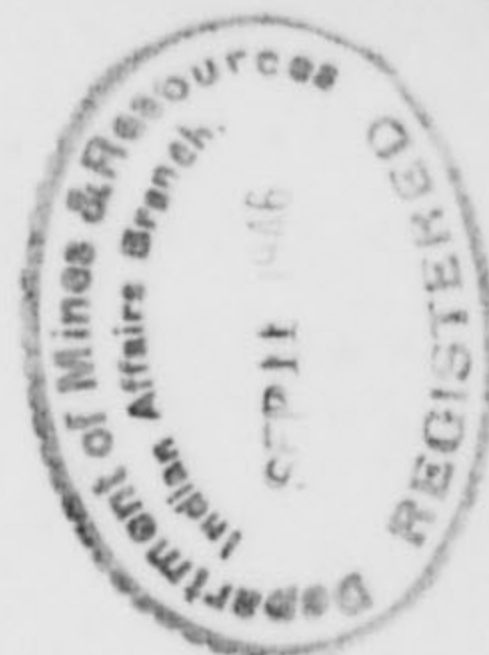

It should be explained that this charge of \$1.95 is for transporting these goods 100 miles up the Naas River by Indian gas boat. The standard rate for all freight on this river is 1 1/2¢ per pound. The item for 75¢ is for delivery at Aliyansh from the dock to the school. It is impossible to obtain freight receipts from Indians as they have no letterheads, neither are they licensed to carry freight. These supplies are taken up as a convenience to the Department by the Indians and their rates are really very reasonable. In view of this explanation, it is recommended that the account be paid.

I am forwarding herewith Mr. Indian Agent Anfield's letter of July 31st requesting authority to carry out repairs, and the construction of a pole fence at the Gitlakdamix Day School.

An amount of \$805.00 has been included in the current year's estimates for this purpose and as the work would appear to be necessary it is recommended that the repairs to the school and the construction of two porches over the outside entrances be authorized.

The construction of the pole fence can be deferred until next year.

MEMORANDUM

To: The Indian Commissioner
From: The School Inspector

I refer to the application from Mr. Indian Agent Anfield for authority to carry out repairs, and the construction of a pole fence around the school, to the Gitlakdamix Indian Day School at Aliyansh, Nass River, B.C.

An amount of \$805.00 has been included in the estimates for repairs to this school, painting interior and exterior, and a new fence. It is felt that the repairs to the school and the building of the two porches over the outside entrances should be undertaken but the construction of a pole fence can be deferred.

Re Voucher #1021 attached, the Department approved the transfer of Mrs. Wishart from Port Edward to the Gitlakdamix Indian Day School at Aiyanash. Her daughter went in as junior teacher. As there is no access to this village in the winter months it was necessary for them to take in a winter's supply of goods and food. I took them to the Naas River entrance on the Agency launch and sent them up river at once. With their freight and supplies the boat was well loaded.

Payment of the account is recommended.

With reference to Superintendent Anfield's letter of December 7th, enclosed, the expenditure involved in wiring the teacherage and two class rooms, at the above-mentioned school, would amount to approximately \$40.00.

I would recommend that the expenditure be approved and an accountable advance of \$25.00 forwarded to Mr. Anfield.

Application is made to extend the wiring in the Gitlakdamix Indian Day School. Attached please find bid on the material required.

At present there is only one light in this teacherage. It is proposed to put lights in the two classrooms, the hallway and one light in each of the bedrooms and kitchen. The work will be done by a local Indian at Aiyansh at a labor cost of \$25.00. If funds are available, purchase of this material is recommended and an accountable advance for labor requested.

At Aiyansh there is a good village lighting plant capable of supplying light to the school and teacherage. The school is very dark; the interior walls and ceiling are finished in v-joint. Light is required in these classrooms most of the winter. While it is admitted that the village plant is not operated much during the daylight hours, I understand that the teacher, Mr. Shaffer, is conducting discussion groups for adults in the evening during which hours these lights would be very useful.

The Department's instructions will be appreciated.

Re: Piano - Gitlakdamix Indian Day School

You will note from Supt. Anfield's letter of December 13th that the teacher at the above mentioned school incurred an expenditure of \$30.00 for repairs to and tuning of the piano, apparently not aware that authority should be secured for such expenditures.

Under the circumstances and inasmuch as Mr. Anfield has advised Mr. Shaffer, the teacher, of the procedure to be followed in such matters I would recommend that the cost be met from appropriation.

Application is made for authority to spend \$30.00 on repairs and tuning of the piano bought by the Department for the Gitlakdamix Indian Day School. This machine is completely out of tune and requires the following replacements:

8	damper felt springs and flanges	4.00
10	Jack springs @ 50¢	5.00
6	Key felts @ 50¢	3.00
2	Key bushings @ 1.00	2.00
1	Action flange @ 1.00	1.00
	Tuning machine, complete	<u>15.00</u>
		\$ 30.00

To be perfectly frank this job has been completed already. A Mr. Hadcock, piano tuner, who was in the Naas River country in November cleaned up all the pianos in Aiyansh. Mr. Shaffer, the teacher, not knowing that these things had to be authorized by the Department, instructed him to repair and tune the school piano. I have written to Mr. Shaffer stating that there is no guarantee that the Department will meet this account and that in future he is not to incur any expenditures of this nature without authority from the Department.

Having in mind that the piano was in dire need of tuning and repair, I would recommend that if possible the account be met and the work authorized.

Re: Gitlakdamix Indian Day School.

Re above mentioned school. Items were included in the estimates for painting the interior and exterior of the school. Both are urgently needed. The exterior in particular, as the original paint job is worn off and the building will deteriorate very quickly unless this work is done. Will you please advise if authority for this work has been passed by the Department through the estimates and if the work can be proceeded with.

An item in the sum of \$365.00 was included for a fence around the school grounds. This job should be done this year. The grounds are open and local cattle and horses roam all over the place, knock the wood piles down and kick in the weeds windows. It is impossible to keep these school grounds in any semblance of tidiness unless there is a proper fence around the premises.

Will you please advise if this item was sanctioned in this year's estimates and if so, may work be undertaken. On receipt of your instructions regarding this matter, detailed requisitions will be forwarded.

We have your two letters of May 20th with reference to repairs which you state are required at the Gitlakdamix Indian Day School.

While the amount appears large, we note that you recommend that an expenditure of \$1,865.00 for material and labour is required for painting both the interior and exterior of the school and also for providing a fence around the school. This expenditure is approved on the understanding that day labour is used, preferably Indians, and that it will not be necessary to award a contract.

We also approve an expenditure of \$350.00 in order to make other necessary repairs at this school. An accountable advance for \$165.00 will be forwarded to Superintendent Anfield.

At Aiyansh last week-end, I made a careful check of seating capacity at the Day School. There are only enough desks in this school to accommodate one room. They are mostly double desks which were moved from the Mission House when the new school was built. They are, however, adequate for a year or two for the senior room.

Attached please find requisition for primary tables and chairs for the junior room. It is considered that the purchase of these is essential for this junior room. Present indications are that 34 children will be in the junior room this fall when they all get back from the canneries and about 31 in the senior room.

It is recommended that these primary tables and chairs be purchased and shipped to this office from where we will make arrangements to have them moved up to Aiyansh.

Reference your 12-11-3 of May 30th, 1949, our file 1-11-3-168, Gitlakdamix Indian Day School repairs. Attached please find requisitions for material. Bids have been obtained from Gordon & Anderson Ltd. and Gordon's Hardware, this city, which prices are the same as Vancouver, less 10%.

It is proposed to paint the roof two coats as it is presently in extremely bad condition. This means a coverage of 6,000 ft. and will take 25 gallons of cedar tone shingle coating. It is recommended that the exterior walls be done with one coat of Martin-Senour undercoater no. 410 and a coat of 100% pure paint, cream. Windows, trim and porches will be done with no. 541 special green.

The interior is presently done in cedar V-joint and the place is dark and gloomy. It is planned to paint the entire interior with on coat of undercoater no. 410; the ceilings and walls with Ivory no. 595 with a cost of golden brown no. 588 on the walls four feet from the floor. The floors will be painted Brazil Green no. 527.

The teacherage will be painted throughout with an undercoat and a finish coat of Ivory with cream walls and a brown base, floors to be painted green.

At prices submitted by Gordon & Anderson Ltd., the material for the roof will cost \$91.25; for the outside \$185.75; for the interior \$170.40 with an extra of \$25.00 for brushes, turps, cleaner, etc. Total material cost \$381.15.

Labour will cost as follows:

Roof	6000 sq. ft. (2 coats) 3 men for 4 days	144.00
	@ \$12.00 per 10 hour day	

Page 2 continued.

Exterior and Interior	3 men for 15 days @ \$12.00 per 10 hour day	540.00
	Freight and delivery of material	30.00
	Scaffolding, nails, cleaning up, etc.	25.00
Total labour cost \$739.00 for which an accountable advance is requested.		

The total cost of a complete job of the interior and exterior will, therefore, cost \$1120.15 which is some \$400.00 less than the contract price of doing the Port Simpson School two years ago. I have already engaged three reliable Indians to do this work in August and the Department's instructions to proceed will be appreciated.

Re: Gitlakdamix Indian Day School
Your File No. 12-11-4 (168)

We have your letter of June 28th with reference to primary tables for the above school.

We are having the primary tables made by the Penitentiary Branch. The size is 3'4" x 4' with masonite top. They can be shipped with the legs detached at the price of \$16.50. As you are probably aware, delivery from the Penitentiary Branch is sometimes uncertain and consequently, we might not be able to secure the 7 tables you request for 3 or 4 months.

This might cause inconvenience to you and consequently local purchase of the 7 tables at the price mentioned on your requisition of June 1st is approved if you feel that it would be preferable to have these tables at the school for September 1st.

If it is possible for you to anticipate your requirements for any further number of these tables we could place the order with the Penitentiary Branch.

Philip Phelan,
Chief, Education Division.

Re: Gitlakdamix Indian Day School
Your 810-5 (E.1) June 22nd

The item "primary tables" included in our requisition for the above mentioned school are tables 4' x 5', approximately 24" high, covered with Masonite tops and are, I believe, sometimes referred to as Kindergarten tables. These tables accommodate six pupils.

We have been equipping a number of our primary rooms with this type of seating accommodation and have found it most satisfactory.

The type of table for which we quoted has detachable legs which facilitate their shipment by small boat up the Naas River to the Gitlakdemix School.

DEPARTMENTAL PURCHASING AGENT.

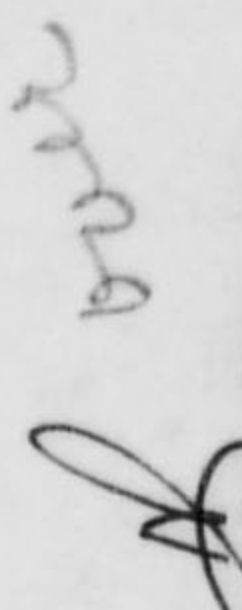

Exterior and Interior Paint Specifications.

Mr. Phelan has just returned from a trip to British Columbia. While there, he discussed with Mr. Indian Commissioner Arneil the prices being paid for paint. As I told you recently, I feel that his purchase orders should be for paint at a lower price than that indicated.

There is also the matter of clearly defining for Mr. Arneil the specifications of the paints as laid down by your regulations.

I would appreciate an extract from your specifications for

- (a) exterior paint,
- (b) interior paint.

Dear Bill:

I have just finished talking over the points raised by you with Phil. on his recent trip to B. C. I will write separate letters on the subjects you discussed with him.

With regard to a specification for paint, I will be glad to obtain this information for you from Mr. Vincent. We were discussing just this thing on Friday evening and I am certain he can give you the details.

Would you please refer to your purchase order 11053 C of June 15, for paint for the Gitlaxemix School. I note that the price is \$6.50 per gallon less 10%. I am quite certain that we can get a lower quotation per gallon for paint as we are buying Sherwin-Williams and Scarfe paints for between four and five dollars a gallon.

I will let you know as soon as I hear from Walter Vincent on this matter.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

E X T R A C T from Inspector Barry's Report
regarding his inspection of the GITLADAMICKS
INDIAN DAY SCHOOL on May 5th, 1937.

R

Original on File 168-32A-6.

I would also recommend that an Indian woman, Mrs. Alice Woods, age about 65, be employed by the teaching month at a monthly salary of some \$5.00 to teach Basket Work. With the cost of the necessary materials the total grant which would be necessary to cover the suggested work in Arts and Crafts would not exceed the sum of \$100.00 per year.

I should like to see the girls working at these baskets on at ~~least~~ least one afternoon per week. When and if an experienced teacher is employed here, some Vocational Training in the form of sewing, Etc., should also be taken up, but this is quite impossible under the present conditions.

The general standing of the school at the present time may be classified as "Poor".

Dear Sir,-

In reporting on his inspection of the Gitladamicks Indian Day School on the 5th ultimo, Inspector Barry writes, as follows:-

"I would also recommend that an Indian woman, Mrs. Alice Woods, age about 65, be employed by the teaching month at a monthly salary of some \$5.00 to teach Basket Work. With the cost of the necessary materials the total grant which would be necessary to cover the suggested work in Arts and Crafts would not exceed the sum of \$100.00 per year.

"I should like to see the girls working at these baskets on at least one afternoon per week. When and if an experienced teacher is employed here, some Vocational Training in the form of sewing, Etc., should also be taken up, but this is quite impossible under the present conditions."

The Department wishes to encourage basketry work and I would appreciate it if you would advise me if Mrs. Woods' services could be secured at the salary mentioned by Mr. Barry. You might also state if you could secure the necessary material at a cost of, approximately, \$50.00.

Yours truly,

Sir:-

I have the honor to enclose herewith a communicationⁿ addressed to me by Miss Evangeline Booth, of Toronto, Ont. in petition for a school grant for the Indian Day School of the village of Glen Vowell, Upper Skeena, B.C.

The statement therein set forth are in every particular in conformity with facts. Ever since the Autumn of 1899, the children of that settlement received the constant attention of Mr Ensign^{J.P.} Thorkildson their teacher, by whom the furniture of the school house, black-boards, maps and so forth were made.

The teacher is fully qualified, and the pupils^s aside of being well looked after in general, are making^d good progress, and can highly recommend the matter under consideration in regard therewith, as well deserving the Department's^s approbation.

I have the honor to be,

Mr. R.E.Loring, Indian Agent, 232400

Hazelton,

Upper Skeena, B.C.

Dear Sir:-

As is known to you, the settlement of Indian Savationists known as Glen Vowell, near Hazelton, was established in 1898, and supplied with an Salvation Army Officer, Ensign Thorkildson, in October in 1899.

He has been very successful both in his missionary work among the Indians, and his educational efforts among the children. There is now a permanent population of 73 poeple in the place, whose behavious has been most exemplary, and Ensign Thorkildson has erected on behalf of the Salvation Army, three buildings-a hall for meeting purposes, a dwelling house, and a school house. He has fully learned the native language during his stay, and has put forth every effort to teach the children. Our educational efforts however are much handicapped for the lack of funds to find books and the necessary material.

There are at present 26 children at the village of which 16 are of school age. On behalf of these children and in view of the commendable results already achieved, I would petition the Indian part of the Government, through you, to allow the Salvation Army at Glen Vowell the annual school grant as given in other missionary schools, and in order to enable our officers to teach the children more effectually in the future.

I have no doubt that this respectful request will be considered only just and in order, and will be dealt with favorably by the Government, and have your sincere endorsement.

I am, dear sir,

Yours very truly,

(Sgd) Evangeline Booth

Commissioner of the Salvation Army

Department of Indian Affairs,

23rd September, 1902

The Secretary:)

As you will see from the correspondence hereunder, Miss Evangeline Booth, Commissioner of the Salvation Army in Canada asks for a grant for a day school which has been carried on by the Army for the past three years at Glen Vowell near Hazelton on the Upper Skeena River. Mr Loring in whose Agency this school is situated, states that the teacher there is fully qualified and that the pupils are doing well and he recommends this case as deserving of the Department's consideration. Mr Supt. Vowell agrees with the Agent and asks permission to place the usual grant for this school in next year's estimates.

The Church of England had a school at Hazelton but as no returns have been received for the past year it is presumed that it has been closed

I am aware that the Salvation Army has been doing missionary work among the Indians and there would appear to be no reason why they should not receive the same consideration as any other denomination carrying on educational work.

Sir,

In view of the very satisfactory work being performed both in the school-room and among the Indians on the reserve by the teacher of the Glen Vowell day school it has been decided to grant an substantial increase in salary to the present teacher and she will be paid at the rate of \$600.00 per annum from the first of the current quarter. You will be good enough to so advise her and make your next voucher for her salary at this increased rate.

Dear Mr Scott,

I have not had the pleasure of meeting you yet, for although I called two or three times at your office on each occasion you were away. Commissioner Coombs, however, has told me of his interview with you, and of his having mentioned my name. The Commissioner told me that you very kindly promised to consider the question of giving us a grant towards our Indian Work.

I had hoped to have been able to come to Ottawa ere this, and to have seen you, but have been kept so busy in different parts of the Dominion that this has not been possible.

I have personally been to see our Indian Work, especially that connected with Glen Vowell. The Salvation Army has spent a considerable amount of money in the laying out of this village and carrying on work among the Indians. We quite understand that it is not possible for you to recoup us the full amount, but I was wondering whether you could arrange for us to have a grant of \$ 1000.00, with some prospect of an annual subsidy. I know you will give this

Sir,

I have to acknowledge the receipt of your letter of the 14th instant in which you request a grant of \$1,000.00 to the Salvation Army for money expended on improvements in the Glen Vowell Indian Village, B.C.

In reply I beg to say that it is regretted that there are no funds from which to make this grant. I may say that the work being performed on this reserve by the teachers and officers of the Army is very much appreciated and as a recognition thereof the salary of the teacher was increased from \$400.00 to \$600.00 per annum. At a recent date it was also arranged to allow Ensign Sharp a grant of \$100.00 per annum to enable him to continue his work in the way of teaching gardening, etc., to the Indians on the reserve. We hope that this will be satisfactory to the officers concerned and that it will prove an incentive to continued good work.

The erection of a new day school building in the near future is also contemplated; it may be possible to undertake this work during the summer of 1912.

Dear Sir:-

Mr. McLeans' kind communication of March 27th. is to hand, for which we thank you very sincerely.

We note what you say in reference to increased salary to the teachers, also the Annual grant of one hundred (100.00) dollars, and we want to assure you we appreciate your kind assistance in this direction very much indeed. You may rely upon us doing our very best for this department of our work. We are at your service to help at any possible time.

establishment of Glen Vowell has entailed to our organization. Having explained the matter to you so fully, we are hopeful that you will be able to do something substantial for us so as to recoup ourselves to some extent.

We are grateful for what you have done in respect to the increase of the teacher's salary and the annual grant towards teaching the Indians farming.

We would remind you of what we talked in regard to having our Ensign & Mrs. Sharp, also resident there, they acting in the capacity of teacher and nurse respectively, also engaging in every phase and feature of work in the interests of the Indians. This costs the Army about Twelve Hundred (\$1200) Dollars per year. We are hoping that you will be able to give us some assistance towards this outlay.

We also appreciate your kind promise to erect a suitable school building and residential quarters for Ensign & Mrs. Sharp and family, and Lieut. Law, the teacher.

I would like to take this opportunity of thanking you for the interview which you granted Commissioner Rees and myself, and we appreciate the deep interest that you take in our work and are encouraged to hope, by your kindly remarks, that you will be able to render us good assistance in reference to the above mentioned.

Thanking you in anticipation, and with best wishes,

Dear Mr. Scott:-

Referring to the interview which Commissioner Rees and myself had the privilege of having with you recently, I beg to send you the particulars regarding the Indian work, in accordance with your request.

On looking up the matter I find that the instalment and working of the Saw Mill, up to the present, has cost the Army Five Thousand (\$5000) Dollars. This Saw Mill was established in the interests of the Indians, in that, not only does it find occupation for them, but also gives them an opportunity of learning this character of work.

Then with regard to the farm, which is a quarter of a section in extent, we have paid One Thousand Six Hundred and Thirty Two (\$1632) Dollars.

As to the establishment of the village, such as the building of houses, laying out of the streets and general improvements, it has cost the Army something like Five Thousand (\$5000) Dollars.

The above will give you an idea of what the

Sir,

I have to acknowledge the receipt of your letter of the 27th ultimo addressed to the Superintendent of Indian Education in regard to certain expenditure incurred by the Salvation Army at the Glen Vowell School.

In reply I beg to say that the Department regrets very much that there are no funds from which it could recoup you for expenditure incurred in the past. Your work, however, is appreciated and the Department is prepared to do ~~legitimate~~ what it can in recognition ~~in a legitimate way~~.

With regard to a residence for the teacher on the Glen Vowell ^{Residence} I would ask you to be good enough to forward to the Department a sketch of a building that you think would be suitable with particulars in regard to construction and means of erection as well as an estimate of the cost. It is understood that Ensign Sharp would be willing to supervise the work. There are no funds at present available and, should it not be possible to find any for this purpose this summer, the matter will be borne in mind and Parliament will be asked to grant an appropriation for the purpose next session. In the meantime it would be well for you to get the information above asked for and submit it to the Department.

It has also been decided to increase the salary of Mr. Rankin, who is at present the teacher at the Andimaul school

Dear Sir:-

Mr. McLean's letter of May 6th has reached me. I have been away in the Old Country attending a Social Congress there which accounts for the delay in sending a reply. Having recently returned, I hasten to acknowledge the communication with thanks.

We appreciate to the full your willingness to assist us in any possible direction. We are especially grateful to you for the increase of the teacher's salary at Andimaul.

I am going into the matter of a sketch of a building as a residence for our teacher at Glen Vowell. It may take us some little time to get the necessary particulars, but as soon as they come to hand I will forward the same to you. Our Officer will be very pleased indeed to supervise the erection of the same. We presume that the Government will also carry out their intention to put up a School House. There is a great need of this.

Again thanking you for all your interest and assistance, and with best wishes,

My dear Sir,-

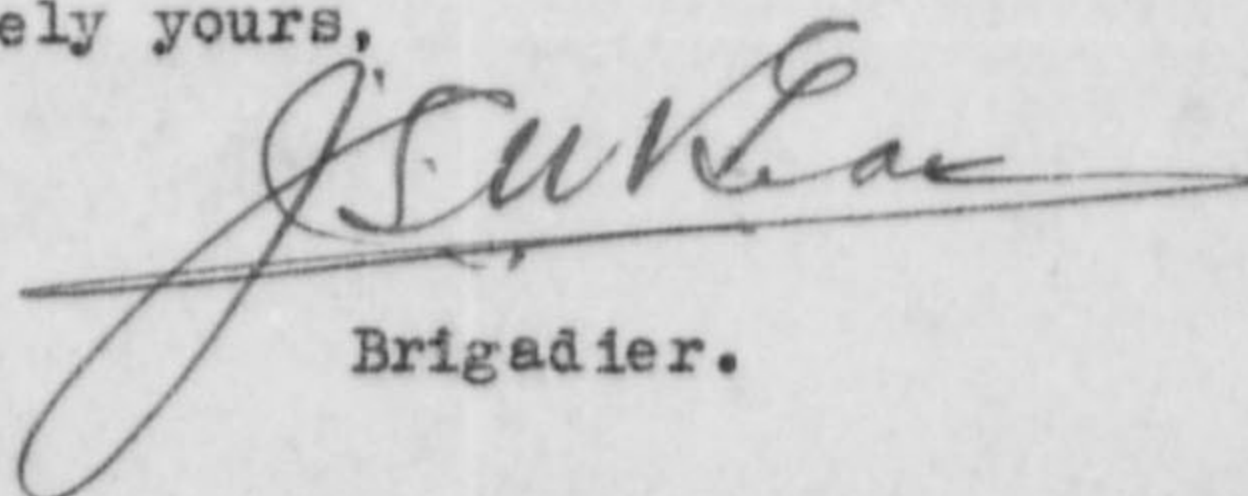

re: Glen Vowell School.

I may say that it is necessary to make some little change in connection with the school teacher at Glen Vowell as Miss Pearl Jackson will not be returning to the school there. I recommend, therefore, that Miss Elsie Jackson be appointed to this position. I was at Glen Vowell a few weeks ago and find that this young woman is conducting the school very satisfactorily indeed, so that I recommend she is appointed for the future as the regular teacher at Glen Vowell, and shall be very glad if you will arrange accordingly.

Thanking you for all your interest in connection with this good work.

I remain,

Sincerely yours,

Sir, -

I have to acknowledge the receipt of your letter of the 19th instant, enclosing a copy of a letter which you received from Miss Florence Goddard, who was recently appointed teacher of the Glen Vowell Indian Day School, in which she states the qualifications she possesses.

In reply I beg to say that the Department will approve of the appointment of Miss Goddard, and will allow her salary at the rate of \$600 per annum; the same as was paid her predecessor. She will also be entitled to receive the bonus during the present fiscal year at the rate of \$150 per annum.

It is noted that she began duties on the 3rd instant.

Hot Lunch for Pupils
Glen Vowell Indian Day School.

Sir,—

574801

On my recent visit to the Glen Vowell Indian Day School, Miss. Bryenton, the Teacher, pointed out that a number of the small children had to walk a considerable distance home for lunch, and in consequence turn up late for the afternoon session, in order to have the pupils commence their studies promptly, she suggested that the Department, provide each child with a cup of hot soup or coffee together with some jam for their biscuit; Miss Bryenton, has kindly offered to prepare the lunch herself if the Department, will supply the necessary cups and saucers, spoons, (six of each) and a small kettle.

As Miss Bryenton, takes a great interest in her work and very sympathetic towards the Indian children, I strongly recommend that the Department, authorize the purchase of the above mentioned articles, and groceries as furnished to the Rocher Deboile and Fort Babine schools, @ \$7.50 per month.

I have to acknowledge the receipt of your letter of the 7th instant, with reference to the furnishing of supplies for a midday meal for the pupils of the Glen Vowell Indian Day School.

In reply I beg to say that the Department will approve of an expenditure not to exceed \$7.50 per month in the purchase of the various articles of food required as supplied in the case of the Rocher Debroule and Fort Babine day schools. You should arrange for the purchase of the supplies of this nature and furnish properly certified vouchers, in duplicate, from time to time covering the expenditure incurred for the purpose.

It is noted that the teacher has agreed to prepare the lunch herself, and it is hoped that, as a result of this lunch being supplied, there will be a more regular attendance at this school.

You may also purchase and have delivered to the teacher 6 cups, 6 saucers, 6 spoons and a small kettle.

A FIERCE storm was raging in a great forest, on the borders of which stood the log hut of a Woodman.

The wind howled and shrieked and the snow hissed upon the small window in sudden gusts. The great trees groaned and creaked under the blast and every now and then the sharp crack of broken branches could be heard as they were torn from the forest giants.

Inside the hut, all was bright and warm and cheerful. The Woodman sat by the fire, resting after his day's work. Ivan, his little boy, sat curled up at his father's feet deep in the adventures of some bad rabbits. From another room came the sound of singing; a sweet girl's voice rose and fell in the lull or rush of the storm.

Presently the door opened and the singer came in. She was a tall, slim girl of twelve years, with curly brown hair and steady grey eyes and lips that smiled readily.

"How the wind blows to-night, father; it's worse at the back. I began to wonder if it would blow the hut down."

Hildegard, as she spoke, set a steaming dish on the small round table that stood near the fire beside her father's chair, then she set chairs for herself and Ivan, her small brown hands moving deftly, though her eyes were large with anxiety.

"No no, child," said the Woodman, laying a hand reassuringly on the girl's shoulder as he turned to the supper table and began ladling out the savory soup into the plates. "This place has weathered many a worst storm than this. The home is safe enough, so don't fear."

"Sis is afraid. She's only a girl," said six-year-old Ivan with fine scorn. "I'm not a bit afraid father—but then I'm a boy, aren't I? I couldn't be."

"Not even of spiders?" asked Hildegard slyly.

"Spiders," said Ivan, reddening, "of course not."

"It's not so very long ago you came begging me to take one off your pillow because you didn't like to go to bed, and I had to take it away," laughed the girl.

"Oh that's different, that's a girl's work," and Ivan raised a spoonful of the delicious soup to his lips.

A silence fell. The silence that comes for a second or two in the midst of the greatest storms when for a moment the wind sweeps away only to return with redoubled fury.

The children had been shouting to each other, for the splitting and tearing sounds in the forest were deafening. Two years ago the children had lost their mother and the Woodman the wife he had loved so well. Since that time little Hildegard had done her best to make her father happy and be a mother to Ivan. She scrubbed and washed and cooked and mended and all day sang about her work. Little Ivan did what he could to help. He gathered sticks for the fire and berries in their season and knew where the birds built and the furry animals lived. The children were seldom lonely though their father was away all day. Sometimes he took them to the nearest town to buy stores and clothes, for though they were poor, they were frugal and had enough.

As the lull came for a moment Ivan pushed

back his plate and spoon, but Hildegard held up her hand.

"Listen!" she said, "what was that?"

"Nothing but the wind, little one," said her father kindly as he picked up a paper and sat down in his chair by the fire. "Best try and forget it."

"But, father, I heard a knock," Hildegard said with startled eyes. "Who can it be—and to-night?"

"You are dreaming, Hill. Let's wash up and forget the outside, it's cosy enough in here," said the little boy, seeing that his sister was really frightened.

"But I'm sure I heard a knock. There it is again," persisted Hildegard.

This time they had all heard it, and the Woodman rose to his feet. "I'll see, but I expect it's only the trees. No one comes here on such a night."

As he spoke, he took down the heavy wooden bar from the door and raised the latch, but the furious wind burst the door open, knocking down little Ivan with its force, and almost hurled into the astonished Woodman's arms a child covered with snow and drenched to the skin.

"Hildegard—Hildegard!" called the man over his shoulder, but though he shouted at the top of his voice, no sound was heard.

But Hildegard, who at first had stood with eyes and mouth wide open, now ran forward and caught the child in her arms as he fell whilst her father struggled with the door. After some difficulty he shut and made it fast again. Then, silent with the effort and astonishment, he stood looking down at the boy who was now kneeling by the fire beside Hildegard, who was rubbing his hands. The snow was melting and little streams of water began to run over the floor in every direction from where he knelt. His golden hair hung uncurled and damp, his face, which was very beautiful, was blue with cold, but even so, not quite so blue as the wonderful eyes under their dark lashes.

"How did you come in the forest on such a night?" asked the Woodman presently. But the child made no answer, his teeth chattered pitifully.

"We must get him to bed, father, he can go in Ivan's and Ivan can sleep with you for the night," said Hildegard who was taking off the wet clothes of the little boy and wrapping a large blanket round him with gentle hands. "Ivan, give me some of the broth, I will feed him and then father can put him to bed."

So, lovingly and carefully, they all waited on the little stranger and then the Woodman carried him in his strong arms to the small bed where Ivan generally slept, warmed and comforted. No sooner was the child's head on the pillow than he was asleep.

"Who is he? Where does he come from, father?" asked Hildegard as the Woodman returned to the fire and stood looking thoughtfully down into it.

"He must have got lost in the forest, though I am puzzled as to who he can be. I know all the people around, and he belongs to none of them. And I've heard tell of no visitors at the Castle. But someone will be in sore trouble to-night, I reckon, over him. When the morning has lessened I will go and find out. Now to bed and sleep if you can."

They all slept at last, worn out by the storm and the excitement of the night. When they awoke it was late and the wind was gone; the sun was shining over the soaking earth, but the little bed in the corner of the Woodman's room was empty.

No trace was to be found of the child who had sought refuge in the hut. The Woodman searched far and wide and made enquiries of all the neighbors poor and rich, but no one knew the child or had heard of any like him in the region of the forest.

Many weeks had passed. Snow and wind and cold had given place to warm days, sunshine and flowers. Hildegard and Ivan often talked of the beautiful and mysterious boy, as they played in the forest or worked at home.

"How did he get out of the hut, Hill," asked Ivan one day for the twentieth time of his sister.

"Oh, the kitchen window," said Hildegard lightly, "you have done that, Ivan, when father has locked the door by mistake."

"Yes, but how could he find out the secret of the catch?"

"Boys know everything, don't they?" returned his sister mischievously. "See, there's father, he will want dinner," and she ran towards home.

"Have you heard any music, children?" asked the Woodman as the panting boy and girl reached his side. He was standing at the door of the hut listening.

"Music? No, where?"

"Hush, Ivan, I hear it," whispered Hildegard, awe-struck. "Listen!"

In the distance exquisite strains of music could be faintly heard—growing more distinct each moment. All eyes turned up the green opening in the forest whence the sounds came, eyes that grew wide in astonishment and bright with wonder, for no music but that of beast or bird ever broke the stillness round the Woodman's hut.

Nearer and louder grew the music and then a procession of richly dressed figures came into sight. They were playing as they walked, and at their head and a little in advance moved the figure of a lovely golden-haired blue-eyed boy. He was dressed all in white, richly embroidered in silver and in one hand he held the branch of a tree.

"Father, it's the boy—the boy who came to us," stammered Hildegard. "What does it mean? Oh father!" The music ceased as the procession came to a stand, and the beautiful boy, advancing alone, came and stood straight and noble before the Woodman and his children—and spoke.

"Sir," he said, and his voice was like an echo of the sweetest music, "I have come to thank you for your goodness to me. I fear you thought me ungrateful, but I could not come before to thank you on behalf of my Father and myself for saving the life of the King's son. To show you how we appreciate your kindness to a stranger I have brought you a gift. Take this branch and plant it, and each year on the anniversary of the day you saved my life this branch will bear golden fruit for you and yours."

A wonderful smile for the moment irradiated his face and fell upon the little group who gazed speechless as he turned away and took up his place at the head of the procession. Amid strains of music the boy and his followers passed out of sight.

Thus did I dream on Christmas eve, and I wouldn't be without that dream

for much gold. If I hope that the reading of it brings to you the same quality of uplift that meditation upon it provides for me, then I am hoping a big hope for you this Christmas-tide.

Amongst THE Redskins

GLAD TIDINGS PROCLAIMED IN NORTHERN BRITISH COLUMBIA AND ALASKA

WHAT a happy task to write of Alaska, Northern British Columbia, and its native peoples. Native? Aye, for here are true natives. We are wont to call citizens of the Southern Republic by the name of "Americans," whereas they are really "Uni-statans." But here, among the sea-girt islets and along the rock-bound coasts of Alaska, are to be found the true Americans.

And, be it known, this specie of the human race has a history and pedigree of which we whites scarce can boast. Long before the intrepid De Soto followed the winding Mississippi northward; long before Balboa first set eye upon the mighty Pacific; yes, and even centuries before the dauntless viking Lief Ericsson set foot upon the new world mainland in the year 1000 A.D., were these dusky-skinned people of Alaska in possession of an unique civilization. Here the proud tribal chiefs smoked their pipes of peace; here conflicting tribes met in death-grip battles, while tom-toms beat and war-whoops shook the stately forests; here these pre-historic redmen tilled the soil and bartered their stuffs; here the black-eyed, lithe-limbed Indian children frolicked among the foothills, chased deer on the sunny slopes, and from skilful hands learned the art of crude native warfare. Yes, and oft the primeval forests were stirred by weird funeral chants, as one by one the proud warriors of their race went to the "Happy Hunting Grounds," where steeds never tire and roebucks numberless enliven the New Land.

They were a great people were these first Americans. True, they had no Christ—yet the inborn instinct of worship that impels the heathen of all climes to believe in the Infinite—led these children of the north-west to bend knee to totem pole, pray to the sun's fiery orb, and suffer tortuous penances to appease imaginary angry spirits.

It was among such a people that, in 1879, the Rev. Robert Tomlinson boldly attempted to establish a Protestant Mission. Not many miles from where the old historic village of Kispiox now stands, this pioneer for Christ sought to establish a distinctly Christian village, where all who would renounce their idols might occupy their claims of land unmolested. As a young bride of seventeen his wife partnered him through journeyings many and perils oft. Mrs. Tomlinson still lives, and it is her delight to narrate of those thrilling early day conquests. It will interest readers to know that two sons of this missionary couple married Salvationist girls, and to-day they help in furthering the splendid work which their parents pioneered.

It was about 1898 that a Salvation Army Captain was first sent to commence operations among the natives. Glen Vowell, which is now nominally a Salvation Army village, was the first point of attack. To-day, after twenty-four years of effort we may boast of a thriving Army of uniformed Salvationists. There is also a creditable group of buildings, including Citadels, Officers' Quarters and School-houses. The acorn has become an oak.

Adjutant Jackson of Regina, who was stationed for a number of years in Alaska, relates a rather romantic story of an heroic Indian maiden who frustrated the murderous schemings of her own people, that they might one day have a "white teacher" sent them.

In a certain village of the upper Skeena River there grew a feeling of the white man's injustice, which led to a plan to march on the nearest "white" village and massacre the people. At the most, there were but a handful of settlers, who could make but little resistance against a surprise attack of infuriated Indians. It so happened that in this village were some who had met with The Salvation Army at the Coast, and among them was a young girl, who resolved to slip away and inform the Indian Agent of the proposed attack. She, with others in her village, desired The Army to send teachers to her people. She realized that any assault upon the white men would make this impossible and would place greater limitations on her tribe. So, leaving the excited crowd, she made her way to the banks of the rushing Skeena, where her canoe was safely fastened, and in the dead of night crossed those perilous waters, then, on foot, trudged her way through the dense wood to the white settlement many miles away.

Only those who are acquainted with the route can fully understand what such a trip would mean, but on went Mary until the early hours of the morning found her at the Agent's door. She soon informed him of the Indian uprising and with all possible haste protective preparations were made. A fort was erected, the "whites" gathered within, and long before the Indian attacking party arrived their scouts had returned to inform them of the armed force of waiting white men; thus, beaten in their purpose they retreated without making further trouble.

It was not long after this uprising that, in response to many earnest appeals, an Officer was sent to these Indians, and he soon gathered round him many who forsook their old sinful customs. However, the new converts met with great persecution from their own people, and in order to maintain rest and order the Government gave a stretch of land, which is now known as Glen Vowell, to the Christian natives who desired to leave their tribe and serve God in peace. This opportunity was gladly embraced and it was thus Glen Vowell came into being. An Army Hall was quickly built, and for many years now a successful work has been carried on among the Kispiox Indians.

The Army work in these northern parts took on a new lease of life when Canada West was favored with its "very own" Territorial Commanders, who were none other than Commissioner and Mrs. Sowton.

In the coffers of valued memories the Commissioners have treasured many happy hours spent among these isolated peoples. Of exceptional interest were the annual Congress gatherings at Port Essington or Glen Vowell when "The Big White Chiefs," as the Commissioners were called, would visit the northern trail and meet their red-skinned Soldiers in Council. These were times of excitement, rejoicing, religious fervor, and soul-winning. The natives for many miles around flocked to the appointed Mecca, for The Army's unusual methods proved a tempting attraction. It is a distinctive mark of Indian character that he has a weakness for "war-paint," so that the scarlet guernsey, the ponderous bass drum, the red Sergeant's stripes, and the shining cornet, proved quite to his liking.

Readers, remember when you pray that, out there towards the sun-setting, is a little Army of happy Blood-and-Fire Salvationists who are tirelessly proclaiming Jesus Christ as the Universal Remedy for all human ills, even as you and I do.

Look at the picture above. Is he not worth saving? He is now a Corps Sergeant-Major, and by blood a Kispiox Indian.

It is worthy of emphasis that Major Robert Smith, who has retired in Victoria, B.C., was the pioneer of Salvation Army work amongst the Indians in Alaska. For thirteen long years he, with his faithful wife, labored for the Salvation of the Redskins, and when this is remembered, it is easy to understand that his name is greatly revered by these peoples of the far North-west.

Staff-Captain and Mrs. Carruthers are now in charge of Salvation Army service in Northern British Columbia and Alaska. With Headquarters at Wrangell they are entrusted with the oversight of one of the most interesting and at the same time one of the most difficult of all Salvation Army missionary enterprises. Then Commandant Bryenton, who lives in the esteem of many Officers not only in the Western part of our great Dominion, but also back here in the East, is looking after The Army's Day School at Glen Vowell, B.C., and by her splendid work and whole-hearted devotion to her sacred charge, she is helping to spread the glad tidings of Him Whose Nativity we are now commemorating.

Sir,—

I beg to inform you that on account of Miss Bryenton's health the Salvation Army Headquarters transferred her to Calgary, at which place she entered the Calgary General Hospital for a serious operation from which she never recovered. Miss Bryenton was a most conscientious teacher and did good work at Glen Vowell.

Commissioner Rich has appointed Captain R. Boyes, as teacher at Glen Vowell. This young man holds a 3rd Class Certificate and taught white children in the city of Saskatoon, Sask., for the past years. I have much pleasure in recommending that his appointment be approved by the Department.

I enclose herewith Captain's Boyes's School Return for the Month of September 1926. I have informed Captain Boyes that the salary of teachers is one which the Department awards according to qualifications and progress of Indian pupils.

Dear Mr Hyde:-

Having received notice of a change of appointment from our Headquarters at Wrangell, I hereby tender my resignation from the position of teacher of Glen Vowell School.

Capt: Kenny has been appointed to fill the position and I have no doubt will prove satisfactory. She will commence on April 2nd so there will be no loss of time.

Thank you for the many kindnesses you, both personally and for the Department, have rendered to me. They were appreciated, I assure you.

Yours sincerely,

Dear Sir,

I beg to advise you of the resignation of Capt: R Boyes, school teacher at Glen Vowell Indian Day School; the copy of whose letter I enclose herewith.

Capt Boyes's successor has been appointed through the Salvation Army Headquarters at Wrangell, in the person of one Capt Alice E Kenny; who is at this date teaching at the above school, pro tem.

I interviewed Capt Kenny and the following were the qualifications given:-

3 years St Georges Residential School B.C.
1 " Coqualeetzu " "
2 " Indian Work in Alaska.

Education. High School.
Graduated Nurse of Winnipeg. Man:

OK
Although Capt: Kenny has had six years experience with Indians, she has not had any school teaching experience. From my interview with her, I judged her as being a sympathetic and capable woman, who should be able to fill the duties of Glen Vowell Indian School.

Sir:

I have your letter of the 4th instant, enclosing the resignation of Capt. R. Boyes as teacher of the Glen Vowell Indian Day School, and informing the Department that the Salvation Army Headquarters have appointed Capt. Alice E. Kenny to succeed him.

In reply I beg to say that the Department will approve of the appointment of Miss Kenny. We note that she commenced duties on the 2nd instant, also that she has had experience in Indian schools. The salary allowed will be at the rate of \$85 per teaching month. Please inform Miss Kenny of the Department's approval of her appointment and the salary allowed. It is hoped that she will meet with every success in the work at Glen Vowell.

Dear Sir,-

I beg to inform you that Miss Kenny, the teacher of Glen Vowell Indian Day School was transferred by the Salvation Army authorities to another section of the country and Captain Varlett acting as teacher during the month of September as you will note in the Quarterly School Return. The appointment as teacher of Lieutenant Ethel G. Brierly, B.A. She secured professional training at Regina Normal School 1923; has had four years experience in Saskatchewan and holds a permanent certificate First Class No. 123-25 and a High School Certificate No. 31-23 and I have no hesitation in recommending to the Department the appointment.

Mr. Scott
Dear Sir

I am writing you in the absence of MR Hyde The Indian Agent on a matter that we are wanting to get under way as soon as possible.

One of our leaders vixited us a few days ago and he is anxious that we do more for our School children in fact all our little ones,

As you are prpbably aware when the parents go away at different times of the year they take the children away from school because there is no place to leave them where they will be taken care of, We have in mind taking a large house in the village which we want to fit up and make a home of it where the children will be left and be taken care of by the teacher also another Army Officer then when the people return the children can go back to the parents, this is only a small thing now but we have in mind a proper Residential School for all Salvation Army children on the Skeena River.

Would you give me the amount thet the Dept allows per child taken into a home or Residential school of this kind, also, if you allow any grant towards the equipment,

We are anxious to do all we can for the Indian Children and we are sure you will do all that lies in your power to help us I am sending a copy of this letter to Mr Hyde so that he will not think that we are writing over his head,

Thanking you for your kind attention

Dear Ensign Yarlett:

I have your letter of the 8th instant, with reference to the establishment of a small boarding school for Salvation Army Indian children at Glen Vowell. It is true that very effective educational work can be carried on when children are taken into residence; but, before the Department sanctions the scheme or gives favourable consideration to a grant for current expenses, we must be satisfied that proper facilities will be provided and that suitable care and supervision will be given. Further, I should state the other churches have found the small boarding school a constant source of expense over and above whatever grant the Department can allow. I therefore wish to urge you and the Army officers to give very careful consideration before undertaking any expenditure.

You should indicate how many children you propose to maintain and you should forward a report concerning the building you would use. It will be necessary to know the size of the children's dormitories, something of the heating, lighting, fire protection, water supply, sewage disposal or other sanitary arrangements. The number and duties of the staff should be indicated. I presume that, at the outset, you intend to look after some of the pupils of the Glen Vowell Indian Day School and that they will take their classes as formerly. I also understand that it would be only for part of the school year that the arrangement would be necessary. The Department does not wish to discourage any improvement in the educational work that you are doing; but the funds at our disposal do not permit us to assist with the establishment and maintenance of small boarding schools, located wherever a few children appear to require residence facilities while attending school.

Yours very truly,

Duncan C. Scott

In reply to your letter No 151-13-1 dated October 14th 1930. I respectfully beg to state that Miss Brierly Indian Day School teacher at Glen Vowell was transferred to Alaska during the summer holidays. It was the intention of the Salvation Army Mission to appoint a suitable teacher in her place, this has now been done, the new teacher Ensign A.F. Parkinson commenced duties on October 1st 1930. Ensign Yarlett was only temporary, for the month of September 1930. No doubt in my mind that Ensign Yarlett was qualified, but he also was transferred to Alberta,

having no data in this office respecting the appointing and transferring of Indian Day School Teachers, may I respectfully suggest that the Department of Indian Affairs supply me with all information in such matters.

Dear Sir:

During the last few months we have been compelled to make some changes in our Officers at our Native station, Glen Vowell, B. C. Ensign and Mrs. Yarlett have served there for between three or four years and at their urgent request we gave them a change of appointment. We have appointed in their stead Ensign and Mrs. Parkinson who will be looking after the station, giving oversight to the School and Farm, and Mrs. Parkinson who has had experience in nursing will very agreeably fill the position of Field Matron. I feel quite certain that these officers will meet the requirements very acceptably. The matter was discussed with Mr. Mortimer, your local representative, who seemed quite satisfied with this arrangement.

We will be glad if you will see that the Grants which we have received in the past will be continued so that we may carry on this work which has been in operation for so many years and which I trust is proving of real permanent good to the Natives in that section of the country.

We are trying to give some special oversight also, to the Natives in the town of Hazelton and trust this will be of value to the Department.

Sir:

I have been directed to acknowledge receipt of your letter of the 26th ultimo, informing the Department of the change in your officers at Glen Vowell, B.C.

In reply I have to say it is noted that Ensign and Mrs. Yarlett terminated their services at the end of September, last, and that, in their stead, Ensign A. F. and Mrs. Parkinson have been appointed. Our local Indian Agent, Mr. G. C. Mortimer, Hazelton, B.C., has been informed of the approval granted for the appointment of Ensign Parkinson as teacher of the Indian day school at Glen Vowell, with salary at the rate of \$85 per teaching month. Mrs. Parkinson is to perform the field matron's duties, and will receive salary at the rate of \$300 per annum.

Relative to the appointment of Ensign Parkinson as farm instructor, I have to say that we are taking this matter up with Mr. Agent Mortimer, and you will, no doubt, be informed by him in due course of the grant that will be allowed for this service.

It is hoped that Ensign and Mrs. Parkinson will meet with every success in their work at Glen Vowell.

Dear Sir:

Yours 151-13-1 of the 10th instant with reference to our Glen Vowell, B. C. Mission Station, is to hand for which please accept our thanks. We are glad to know that you have made the necessary arrangements in regard to the transfer of Ensign and Mrs. Yarlett and have in their stead placed the names of Ensign A.F. and Mrs. Parkinson.

We note that the salary of \$85.00 per teaching month will be granted to Ensign Parkinson but are sorry to note that for the Field Matron's duties the grant has been reduced from \$40.00 to \$25.00 per month. Is it not possible for you to continue the Field Matron's grant on the former basis as we really are in need of it in connection with this work, and in Mrs. Parkinson we have an experienced woman for this work. I will, therefore, appreciate it if you will kindly give the matter further consideration with a view to having the grant restored to the former amount.

We also note that there is no mention of the Farm Grant which was \$25.00 a quarter. Ensign Parkinson is an experienced farmer and in addition to his duties as the school teacher will be able to give considerable help to the Natives in regard to the Farm work. The Ensign having been a farmer in the Province of Saskatchewan is properly qualified for work of this kind as well as being able to take care of the school.

Dear Sir:

Further to our letter of May 15th in reference
to the circular regarding the Indian Day Schools.

We have been in touch with our people on this
matter and they deeply regret there is a possibility the
Indian Schools will not be opened until October 1st.

The enrolment and average attendance at our
Glen Vowell Day School for the month of September since
1932 is as follows:-

<u>Year</u>	<u>Enrolment</u>	<u>Average Attendance</u>
1932	14	13.3
1933	17	17
1934	20	18.5
1935	20	18.2
1936	19	16.8
1937	20	14
1938	19	16.14
1939	20	16.9

Our Officer at Glen Vowell urgently presses
that this matter be reconsidered and that you will look
favorably at the request to open the School on September 4th.

It is our understanding that the schools for the
white children will be opened as usual; is there not a
danger of the native people getting the idea that they are
being treated unjustly?

Furthermore, the Native Schools are more or less
in competition with the White Schools and should have the
same advantages.

Dear Mr. Peacock:

I have your letter of the 22nd instant with reference to the Glen Vowell Indian Day School.

Owing to conditions now confronting us it was only found possible to provide in the current year's appropriation an amount sufficient to pay the salaries of teachers of Indian day schools for a period of nine months during the current fiscal year. This applies to all Indian day schools in Canada.

As a result of the decreased appropriation it was suggested that day schools remain closed during the month of September as in many cases the attendance is smallest during that month. It appears from the information contained in your letter that at Glen Vowell they always have a very regular attendance during that month. Consequently the Department would have no objection to allowing the school to be opened in September. However, it will have to be closed for some other month between September 1 and March 31 as the Department will only have funds for the payment of the teacher's salary for a period of six months between the dates just mentioned.

Dear Sir:

I desire to refer to official letter of the 22nd instant with reference to the Glen Vowell Indian Day School. The Chief Secretary of the Salvation Army has written to this Branch pointing out that the average attendance during the month of September at this school for the last 8 years has been extremely good. It is just possible that it would be preferable to allow this school to operate during the month of September and close for some other month between September 1 and March 31 during which the average attendance would be smaller. I should appreciate your recommendation in this regard.

Dear Mr. Phelan:

This will acknowledge your letter of the 25th instant with reference to the Glen Vowell Indian Day School.

We appreciate very much the arrangement the Department has made that the School may be opened during the month of September, but it is, of course, disappointing that the appropriation covers a period of only nine months instead of ten as in other years. You will realize that the teacher must be carried on just the same if the School is opened or not in September and even if a month has to be taken out in the middle of the year.

We were hoping that the Department could have seen its way clear to extend the payment for ten months seeing our attendance average for September at Glen Vowell is so favourable, and trust that even yet some arrangement can be made. Is it not possible for this to be done?

Dear Mr. Peacock:

I have your letter of the 27th ultimo with further reference to the Glen Vowell Indian Day School.

As I stated in my letter of the 25th ultimo provision was made in the current year's appropriation for an amount sufficient to pay the salaries of teachers of all Indian day schools in Canada for a period of 9 months only during the current fiscal year. As a consequence all Indian day schools will only be operated for a 9 month period instead of a 10 month period during the coming academic year. I regret that no exception can be made in the case of the Glen Vowell School.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir:

Your File 151-13-1.

Replying to your letter of the 26th ultimo in reference to Glen Vowell Indian Day School and the operation of same during September and closing it some other month between October 1st and March 31st, I would advise that it is not very obvious which month would meet the requirements of the Salvation Army as, according to Mr. Inspector Barry's report of the 5th ultimo, there has been a higher average attendance during the other three quarters of the term. Consequently I do not feel justified in recommending any change from the original schedule proposed that it operate from October 1st to June 30th.

Yours faithfully,

James Coleman

Dear Mr Mackay:

With you, we much regret the resignation of Major A.F. Parkinson as teacher of Glen Vowell School and Mrs Parkinson as Field Matron, which becomes effective June 30th. However they have given good service over a period of twelve years and feel that they would now like a change and our Hdqts have agreed to it.

As you say, it has been proposed to appoint Captain and Mrs Frank Watson to the village. Mrs Watson to be the teacher. We recommend her for the position as she has had experience in teaching and holds a Second Class Teacher's Certificate for the Province of Alberta. I trust that this proposal will be agreeable to you and meet with the approval of your Department.

Captain and Mrs Watson will be in Vancouver for several weeks, I believe before proceeded to Glen Vowell, so I have asked them to call and see you, I trust this will be convenient.

Sincerely yours,

J. T. Gillingham

Dear Mr McKay:

Glen Vowell Indian School

I understand from Captain Frank Watson, that he has written you regarding the condition of Mrs Watson at the present time and it looks as if she will not be able to teach for long, after the opening of the School. Of course we knew nothing of this at the time the appointment was made, and our Toronto Headquarters find it difficult, to make other arrangements at the present time.

I am not quite sure of her husband's qualifications, but believe he has High School Education and possibly he would be alright to take the position as teacher during the time that his wife is unable to do so.

I am therefor nominating him for the position and trust that your Department will be agreeable to this arrangement.

I will be in Vancouver the early part of September and will call to see you regarding this matter.

With kind greetings,

Yours sincerely,

Dear Sir:

I would refer to your letter of May 27, 1942, file 151-13-1, advising of the appointment of Mrs. Frank Watson as teacher at Glen Vowell Indian Day School, and would inform you that Mrs. Watson finds that she will now be unable to assume the duties of this position owing to the fact that it has now been established by her Doctor that she may expect a baby in a few months time.

As it is impossible for the Salvation Army authorities to make other arrangements at the present time and it is considered that her husband, Captain Frank Watson, will be able to carry on the duties of teacher at Glen Vowell for the present school year and has been nominated by his Divisional Commander, J.T. Gillingham, as per his enclosed letter, I would recommend approval of this arrangement at the salary of \$85.00 a teaching month plus bonus.

If this meets with your approval I will have Captain Watson complete the necessary forms.

I would refer to your letter of July 17, 1944, File 151-13-1, approving of the appointment of Captain A.S. Hagglund as teacher at Glen Vowell Day School and enclose herewith a letter dated the 25th instant received from Lieut. Colonel Matt. Junker advising that his Headquarters feel it necessary to move Captain Hagglund and replace him by Captain Ethel Brierly. His services have been very satisfactory.

Section 155 (j) of the B.C. Provincial "School Act" provides for a teacher giving thirty days notice of his resignation, which period of notice shall terminate with the close of the school term. I believe the usual penalty is suspension of the teacher's certificate. This provision is, of course, to avoid disturbance of school routine during the term.

In the interests of our educational work, I feel that the Salvation Army authorities should refrain, as much as possible, from removing these teachers during the term. They apparently fail to realize that they are in the employ of the Department while engaged at these day schools and would also be subject as our employees to the requirements of the Selective Service Branch. If there is some urgent necessity for the employment of the teacher's services elsewhere, which, in this case, has not so far been indicated, then the Department is entitled to suitable representations.

It was anticipated that the Salvation Army would nominate Captain Ethel Brierly for the position of teacher at Gwinaha School, which has not yet been filled.

This would, no doubt, be an opportune time to discuss the nature and term of these appointments with Salvation Army Headquarters at Toronto.

I am today in receipt of a letter from Captain
A.S. Hagglund late Teacher of the Glen Vowell Indian
Day School of this Agency, enclosing the attached
cheque in your favour for \$44.23.

Captain Hagglund taught at the above named school
up to and inclusive of October 16th last and the
amount of the enclosed cheque represents the amount
of salary for the untaught portion of October, namely
October 17th to 31st.

Captain Hagglund also informed me that he was
unable to return the Department's salary cheque as
it was sent direct to the Canadian Bank of Commerce,

Re: Glen Vowell Indian Day School
No. 811

In my memorandum of November 22, I notified you regarding the change in teachers at this school and gave dates on which one of the teachers had left and the other had begun duties. A subsequent report from Indian Commissioner Mackay indicates that the dates given in that memorandum were incorrect and consequently I wish to amend it in the following manner:

- 
1. Captain A.S. Hagglund taught the school for the period October 1 to October 17 inclusive. As he received his cheque for the full month of October he has refunded the amount that he has been overpaid.
 2. Captain Ethel Brierly began duties as teacher on October 23, 1944, at a salary of \$95 a teaching month, plus bonus. If she has already received her November cheque she should be paid for the period October 23 to October 31.

I have your letter of December 12th and attached communication from Capt. H. Collard, teacher at the Glen Vowell Indian Day School.

Capt. Collard's letter apparently has reference to her employment as Field Matron prior to the time she assumed duties as teacher. The need for a Field Matron at this point has not been established and the Salvation Army officials were informed some time ago that it was not the intention to continue to employ a Field Matron at Glen Vowell. The matter will be referred to Dr. Tennant for such action as he considers necessary.

With reference to Capt. Collard's employment as teacher, I wrote under date of December 6th forwarding an application form and questionnaire, advising that Miss Collard assumed her duties on October 21st. T.D.1 form is not applicable in this case as Miss Collard is single without dependants.

Your File 1-11-2

Replying to your letter of the 16th inst. advising that the Department evidently intends to make payment of salary to Mrs Griffiths as temporary teacher at Glen Vowell Indian Day School I would advise that this will not be necessary as she was, according to my information, employed and paid by the teacher, Miss Brierly, who wished to proceed to Toronto to attend a convention, expecting to return in the course of a week or so. However, her name is Mrs. W. Griffiths

So far Miss Collard, who took over from Mrs Griffiths, has received no salary and in consequence is finding difficulty in financing her affairs. I wrote the Department in this connection as there seems to have been some delay in payment of teacher's salaries here. Mrs Massey received her cheque for Septemebr, October and November only two days ago following my urgent request of the Department. As you know, it is extremely difficult to secure and hold teachers for this Agency and once they become thoroughly dissatisfied it is almost impossible to induce them to remain.

It would be appreciated if a cheque could be forwarded to Miss H.P. Collard, teacher at Glen Vowell Indian Day School, who has been forced to retire in order to undergo an operation shortly.

According to the files in this office she commenced teaching on October 18th and continued until the school closed for the Christmas holidays on the 20th inst. It is possible that her predecessor, Miss Brierly, was paid to some date subsequent to this but I have no information whether or not she was granted any sick leave as she broke her leg while attending a conference on October 11th at Toronto. She paid her substitute up to the time that Miss Collard took over.

As Miss Collard will not be returning as teacher after her operation I would recommend that no deductions be made for superannuation.

We have your letter of the 3rd instant and arrangements are being made to forward to your office a cheque in favour of Miss Collard for her services at the Glen Vowell School for the period Oct. 7 to Dec. 31.

It appears from Mr. Coleman's letter that he is of the opinion that the delay in paying Miss Collard is due to lack of attention on the part of this office. We are not prepared to agree with that contention as insufficient information was supplied originally. It is realized that this was not due to any oversight on the part of anyone in particular but likely occurred due to the change in the office of Indian agents in the Babine Agency.

Dear Mr Coleman:

I am pleased to inform you, that after careful consideration, it has been decided not to send Miss Brierly back to Glen Vowell.

Our Hdqts in Toronto has now appointed Captain John Cooper (unmarried) to Glen Vowell and I take pleasure in nominating him as the teacher for the school in that Village. The Captain should arrive about January 20th. He has previously been in Nova Scotia and is highly recommended by Lt. Colonel Carruthers, who spent some twenty years as Divisional Commander for Northern British Columbia and Alaska. I am asking Adjutant Rendell to meet him on his arrival at Hazelton and introduce him to you. He will then proceed to Glen Vowell.

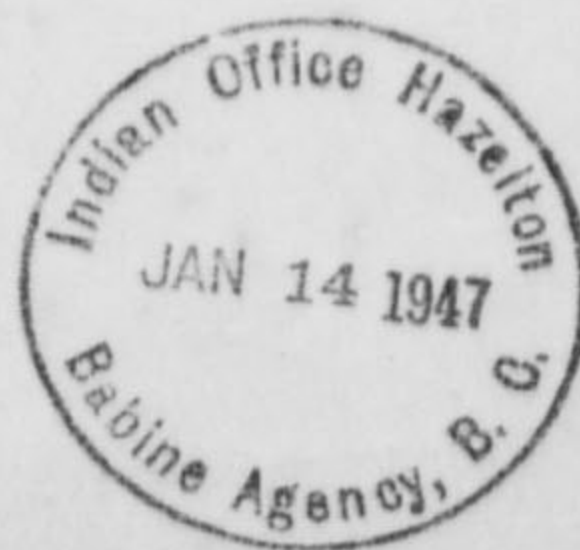

The Captain has not a teachers certificate, but I understand has the equivalent of Senior Matriculation and it is thought he will fit into the requirement quite well.

I am sorry the school is loosing so much time, but it is my fault, I expect, as I was unwilling to re-accept Miss Brierly. I feel sure you will quite understand.

Yours sincerely,

J. T. Gillingham

Major D M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

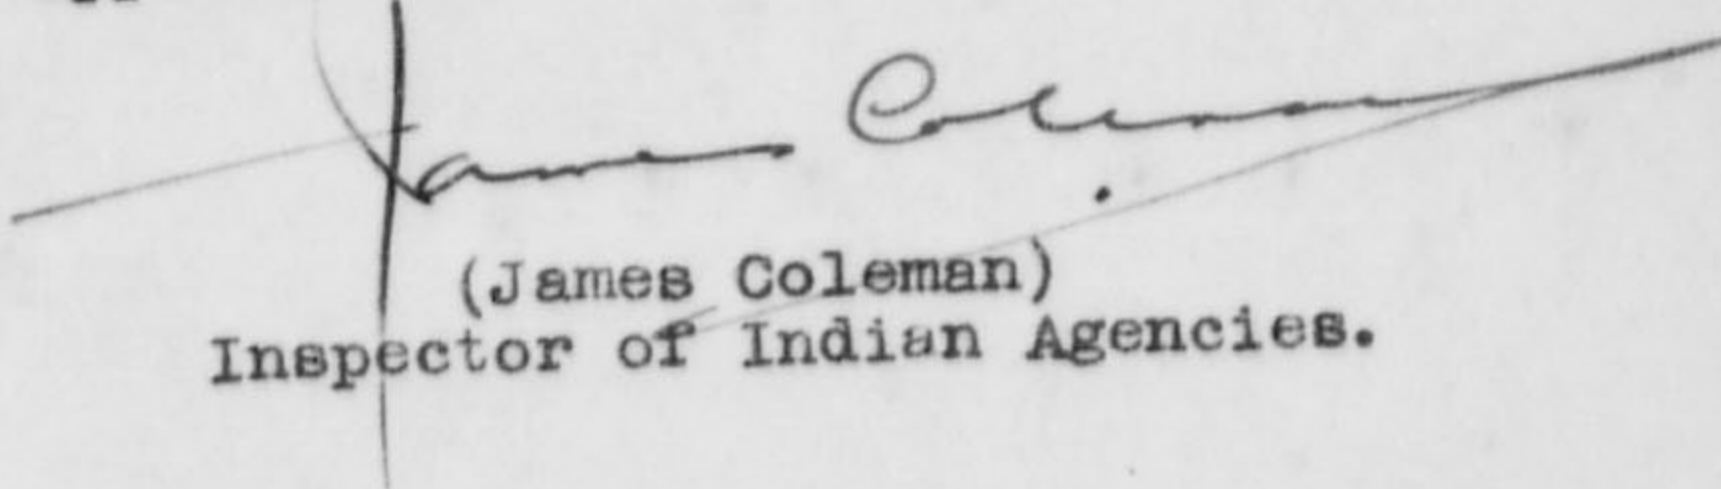

I enclose herewith the nomination of Brigadier J.T. Gillinham, dated 13th inst. of John Orman Cooper as teacher for the Glen Vowell Indian Day School, who has just arrived and submitted enclosed application of the 22nd inst. for the position.

I have interviewed Mr. Cooper and as we are unable to secure a certificated teacher for the position I would recommend his appointment on a temporary basis as he appears very well qualified apart from professional standing. The "temporary" appointment only is recommended as I do not consider we should consider the more or less permanent retention of other than qualified educational personnel.

I am not recommending any salary as I do not have with me a copy of the "Cameron Report". It should be kept in mind, however, that the Salvation Army built the school and teacherage at the own expense and maintained them except for a few minor repairs during the past year or so. I understand these "Army" teachers turn their salaries back into the "Army" work, retaining only their actual needs.

It will be noted that Mr. Copper is single but is engaged to be married as soon as he can secure "Army" consent. In my opinion married status on these Reserves is preferable.

I would recommend his appointment.

Re: Appointment of Mr. J.O. Cooper
to Glen Vowell Indian Day School

I agree with Mr. Coleman with respect to the "temporary" appointment of Mr. Cooper to the Glen Vowell School.

Because Mr. Cooper has no professional training he would receive \$1000 per annum under the B.C. Basic Salary Schedule for Grant Purposes.

In view of the fact that the Salvation Army built both the school and the teacherage and the preference expressed by Mr. Coleman for a married teacher I recommend that the salary of Mr. Cooper be set at \$125. per month.

I am forwarding Mr. Inspector Coleman's letter of January 26th and enclosures referred to therein in connection with the proposed appointment of Mr. J.O. Cooper as teacher of the Glen Vowell Indian Day School.

A copy of School Inspector Davey's memorandum is attached and I would recommend that Mr. Cooper's appointment be approved at a salary of \$125. a teaching month.

At the same time I should like to point out that under the B.C. Basic Salary Schedule Mr. Cooper would receive salary at the rate of \$100. a teaching month, and although it might be preferable to pay him at this rate and allow the Salvation Army a reasonable rental for the use of their buildings at Glen Vowell it is felt that this might complicate the matter and an all inclusive salary of \$125. a month until the end of the current academic year is recommended.

The Department approves the appoint of Mr. J.O. Cooper as teacher of the above Indian Day School at a salary of \$125.00 a teaching month.

It is understood that this salary will include payment to the Salvation Army of a reasonable rental for the use of their building at Glen Vowell for school purposes.

This salary is in excess of that normally paid to unqualified teachers for the reason above stated.

Please find attached application form, T.D.1 form and staff questionnaire form for completion by Mr. Cooper and return to this office as soon as possible. It is understood from the correspondence received that there has been no teacher at this school since the Christmas holidays.

Dear Mr. Boys,

Thank you for your letter of the 21st inst., and also the attached copy of the Indian Commissioner's letter regarding the furnace.

May I draw your attention to the first paragraph of the Commissioner's letter which states, "The teacher's salary is inclusive of rental allowances for the buildings etc."

You will recall that I spoke to you a few weeks ago with reference to the rental and asked that it be paid by a separate cheque. But according to the Commissioner's letter this has not been done. Furthermore, this means that my salary is considerably lower than the lowest grade Welfare Teacher, and I think I am at least entitled to a grade 1 Welfare Teacher's salary.

I received a letter some time ago from Mr. B.F. Neary the Superintendent of Welfare and Training, stating that my salary was \$1250.00 but there was no reference to any rental being included.

As the Salvation Army headquarters has requested a separate cheque covering the rentals for the buildings, and I feel entitled to the amount stated in Mr. Neary's letter in view of the fact that I am doing welfare work here, I shall appreciate it very much if you will have the proper adjustment made.

Thanking you,

Yours sincerely,

(Sgd) John O. Cooper.

I enclose a copy of a letter received from Mr. J.O. Cooper teacher at the Glen Vowell Indian Day School.

The teacher has apparently been paid a salary which included the rental of the Salvation Army buildings at that point, one of which we use as a school and the other, the Mission House, is tenanted by the teacher who in recent years has always been a member of the Salvation Army.

Mr. Cooper has not a teaching Certificate and presumably is receiving the basic salary of \$1,000 per annum. To this is added \$25 a month for rental of buildings and I would suggest that some letter to this effect from your Department be forwarded in order to clarify the situation of Mr. Cooper.

The matter of Welfare Teachers is one which is difficult to settle without reference to the Indian Health Service from whom I have recently requested a decision as to the continued establishment of dispensers at each of several reserves. At the present time some teachers and missionaries are dispensing drugs and rendering some medical assistance to the Indians without any additional remuneration at all and I feel that some provision should be made for a nominal compensation to these persons. This should properly of course be paid by the Department of Health and Welfare.

With reference to Mr. Neary's letter of November 20th regarding the question of salary for Mr. J.O. Cooper, teacher at the Glen Vowell Indian Day School, Mr. Cooper is aware that his present salary of \$125.00 a month includes \$25.00 to cover rental of the buildings used for school purposes at Glen Vowell. It is not clear what further information he requires but it has occurred to me that the method of paying salary and rental in one cheque might lead to some confusion with regard to liability for income tax. I would therefore recommend that commencing with the next payment a separate cheque be sent to Mr. Cooper to cover rental of the buildings. If the Department so desires arrangements could be made with Mr. Boys to voucher for this payment each month.

O. Cooper, teacher at the Glen Vowell Indian Day
School has resigned.

This means that the Glen Vowell School
has not opened during the current academic year.
Please consult the Salvation Army authorities who
have always nominated a teacher for this school with
a view to having them suggest the name of a qualified
teacher who will take charge of this school at the
earliest possible date.

Dear Mr. Cooper:

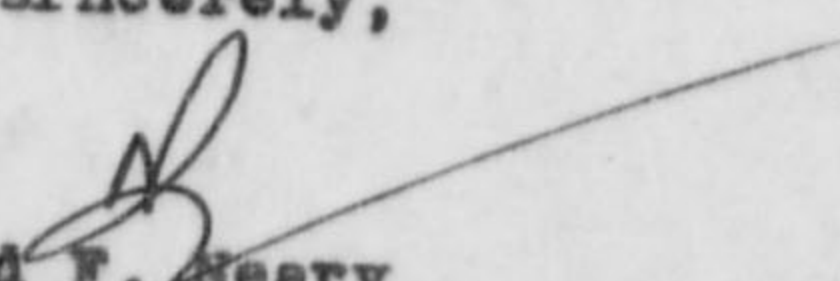

We are today in receipt of a letter from Indian Superintendent Boys advising that he has received a communication from you to the effect that you have not received your Superannuation cheque.

Our file shows a copy of a letter sent to you by the Treasury Branch dated November 1st with which was enclosed cheque No. A46-60069 issued in your favour in the amount of \$93.52 being refund of Retirement Fund Account.

The letter was addressed to you c/o The Salvation Army, 12 Springdale St., St. Johns, Newfoundland which was the address given to us by Superintendent Boys in a letter dated September 9th.

We suggest that you write to the Salvation Army at St. Johns concerning your cheque. If you do not receive it, please let us hear from you.

Yours sincerely,

On September 28 you wrote concerning a replacement for Mr. John O. Cooper, formerly teacher at the above school.

Please find attached Application for Employment forms, Employee Questionnaire forms and Income Tax forms. These forms reached the Department with no covering letter and apparently have lain on a file for some time now. In view of the fact that these have not passed through your office, they are being sent to you for comment.

We note that, unfortunately, Mrs. Jarrett has no teaching experience nor qualifications whatsoever. I would suggest that representations be made to the Salvation Army and that they be advised that the Department is most anxious to have only qualified and experienced teachers in its schools. We feel that Mrs. Jarrett, while willing enough probably, will only be a stop-gap appointment and that the pupils can only make but limited progress under her direction.

I refer to Mr. Neary's letter of November 27th concerning the employment of Mrs. E. W. Jarrett at the above mentioned school.

Although Mrs. Jarrett is not a qualified teacher it will be very difficult for us to replace her at this time due to the present shortage of teachers and the fact that it is now the middle of the school term. It is recommended therefore that Mrs. Jarrett be employed for the remainder of the academic year.

We will inform the Salvation Army authorities that we are not prepared to accept in future the nomination of an untrained teacher. The application, T.D.1 and Employee Questionnaire forms are returned herewith.

IN YOUR REPLY REFER TO
No. 151-13-1
30th Jan. 1923.
DATE OF THIS LETTER

re-Salary, Teacher, Glen Vowell I.R.

Sir,—

I have received a communication from Miss Lily Bryenton, teacher, at the Glen Vowell Indian Day School, stating that for the last school quarter, Sept. last, she received a cheque (No. 2977) for the sum of \$60.00. In Departmental letter 151-13-1 dated 30th, January last, I was advised that Miss Bryenton's salary had been increased from \$600.00 to \$700.00 per annum, of this I advised the teacher. According to your letter 1-1-3, September 17th, 1923, school teachers' salaries are now paid on the basis of ten teaching months in the school year, therefore, it seems that a mistake has been made in Miss Bryenton's salary for September last, amounting to \$10.00.

Your obedient Servant,

Indian Agent.

Ottawa, November 14, 1923

Sir,-

I have to acknowledge the receipt of your letter of the 5th instant, with reference to a balance of salary due Miss Lillie Bryenton, teacher of the Glen Vowell Indian Day School.

On looking up this matter it is found that, although the Department promised to increase Miss Bryenton's salary from \$600.00 to \$700.00 per annum from January 1, 1923, payment has only been made to her from that date through oversight at the rate of \$600.00 per annum. There is, therefore, due her an amount of \$30.00 on the quarter ending March 31st, last; a like amount for the quarter ending June 30th, last, and \$10.00 on the month of September, or a total of \$70.00, a cheque for which amount is being sent her.

Your obedient servant,

Russell T. Ferrier

Ottawa, April 11, 1928.

Sir:

I have your letter of the 4th instant, enclosing the resignation of Capt. R. Boyes as teacher of the Glen Vowell Indian Day School, and informing the Department that the Salvation Army Headquarters have appointed Capt. Alice E. Kenny to succeed him.

In reply I beg to say that the Department will approve of the appointment of Miss Kenny. We note that she commenced duties on the 2nd instant, also that she has had experience in Indian schools. The salary allowed will be at the rate of \$85 per teaching month. Please inform Miss Kenny of the Department's approval of her appointment and the salary allowed. It is hoped that she will meet with every success in the work at Glen Vowell.

Original on File 151-13-1

Ottawa, October 16th, 1929.

Sir,-

The Department is in receipt of the September quarter return of the Glen Vowell Indian Day School and it is noted that it has been signed by Ensign W. Yarlett. The Department has received no previous intimation of the appointment of this teacher and I would appreciate your advising if Capt. Alice E. Kenny has resigned. If so, you should state Ensign Yarlett's age, qualifications and experience. Payment of the salary due for the September quarter will not be made until your reply is received.

Your obedient servant,

J. D. McLean.
Asst. Deputy and Secretary.

MEMO FOR FILE:-

Letter of October 9th, 1929, on File 151-13-1, from Mr. Agent Hyde, advises that, owing to the transfer of Miss Kenny, Ensign W. Yarlett acted as teacher of the Glen Vowell School for the month of September. The appointment of Ethel C. Brierly is being approved from October 1st, 1929. Salary at the rate of \$85 per teaching month is being allowed Miss Brierly.

Sir:

I have your letter of the 20th ultimo, informing the Department that Ensign A. F. Parkinson has been appointed teacher of the Glen Vowell Indian Day School and commenced duties on the 1st ultimo. The Department has no other information regarding the appointment of Ensign Parkinson, and I shall be pleased if you will ascertain the qualifications and experience which he possesses and inform the Department, as the salary allowed will depend entirely upon his qualifications.

It is noted that Ensign Yarlett was only temporarily in charge of the school during the month of September, last. Payment is being made him for one month at the rate of \$85, and cheque is being sent in your care.

March 21st 1910.

Mr R. E. Loring,

Indian Agent, Hazelton, B. C.

Dear Sir, -

Knowing that you have always shown a practical interest in the welfare of Glen Vowell, and that you also are fully acquainted with the progress made from the very beginning of the settlement, so it will not be necessary for me to go into lengthy explanations, I simply desire herewith to lay a matter of very great importance to the Village, before you, and your Department, in the hope that you will be able to help us.

As you are aware, I came to Glen Vowell in the fall of 1899. And the Village - if it could then be called such - was composed of the name, and three temporary log cabins. I shall not enlarge on the hardships in connection with the building up of a new Town, as that can only be understood by those who have had a similar experience. It will suffice to say, that with a lot of unstable people only, at your back, misunderstood by some, doubted as to the final outcome of the undertaking, by more, with no means at my disposal, and practically no outside help - you will understand that I have had to do many things temporarily, that at the time could have been done permanently.

First of all, when arriving here I saw that my hope would lie in educating the children and younger people, to the best of my ability, realizing that failing there, I would fail irretrievably. Consequently I erected a small log-house for a school, even before having a comfortable dwelling myself. In course of time it proved too small, and although

not in a position, from a financial standpoint, to build a better house, yet seeing to wait until I should be, would be disastrous to the work - I did manage to build another frame building, 16' x 24'. Which we have been using as a school building now since 1904.

But now I am confronted by the same difficulty again viz., the building being too small and not properly ventilated, in fact altogether inadequate to accommodate the steady increasing number of children here.

Therefore dear Sir, feeling that personally, I have done all that it was possible for me to do under the circumstances, and fully believing that it is not only your desire; but also the desire of the Department you represent, that the children should have a chance, and be properly taught in a proper building, where health and sanitary conditions would be all that could be expected - I herewith take the liberty to ask for your help and influence to secure a school building for Glen Voell^w, at the earliest possible date.

Respectfully yours,

J. P. Thorkildson

Sir,-

I have the honour to enclose herewith an application, dated the 21st instant, from Mr. J. P. Thorkildson, the Teacher of the Glen Vowell Indian Day School, in regard to a grant from the Department to enable a School House being erected in the village of Glen Vowell, on the Sikedach Indian reserve.

In regard to the same, I would respectfully recommend the measure to be attained on the subject applied for.

The school is one of the very best in the district; it commands about the largest average attendance of any, and the all-round progress made thereat, cannot easily be excelled.

The plans regarding ground floor, elevation and specifications of the School House Building, intended for New Kitsegukla - sent in under date of the 14th ultimo - would likewise easily fit the present occasion.

But here beg leave to add that the material, such as

Rough Lumber, per m.,	has lately risen to	\$23.00

 Sir:-

I have the honor to forward herewith, letter dated 26th March last from Mr. Agent Loring, Babine Agency, covering an application from Mr. J. P. Thorkildson, teacher of the Glen Vowell Indian Day School asking Departmental aid to construct a school house on the Sikedach Indian Reserve.

This application was received by Mr. MacLaughlin, before his illness, and has been held since thinking he might be able to return to the office, ^{any day} when his views regarding it might be embodied in a letter to the Department.

However, as he is not here yet, I thought it best to forward it.

Sir,

I have to acknowledge the receipt of your letter of March 26th, last, addressed to the Superintendent's office at Victoria, B.C., enclosing an application from Mr. J. P. Thorkildson, teacher of the Glen Vowell Indian day school, for a grant for the erection of a school building on the Sikedach Indian reserve.

In reply I beg to say that the Department regrets that it is not in a position to comply with this request at present, as this year's estimates do not provide for the necessary expenditure, but the matter will be taken up next year.

The Department recognizes the good work being done at this school and trusts that it will be able to go on for another year.

Sir,-

I have the honour to enclose herewith Voucher No.37, for \$20.75, in favour of the Hudson's Bay Company, Hazelton Post, for supplying the Glen Vowell Indian Day School with articles of equipment in connection with its needs as per Departmental letter dated the 27th of April last.

- Memo - In regard the foregoing, Mr. Sharp, the new principal of that school, accosted me, whilst conversing with Mr. Inspector T.F. Neelands, and maintained that a buck saw and an extra axe handle were required, and of which I had no recollection of having been on the requisition; and since the stove is a very cheap one, I thought to take it upon myself to accede to the extras. The stoves and piping had not till then come up the river, hence the delay of making the purchase ^{not} sooner.

In regard to your letter, dated May 26th 1910, in reply to mine of the 26th March of that year, addressed to the Superintendent's office at Victoria, B.C., and an enclosed therewith application from Mr. J.P. Thorkildson, for a grant for the erection of a school building on the Sikedach Indian reserve, I have the honour to renew herewith the application as per advice contained in the reply referred to.

In connection therewith, I would recommend that the exact estimates, ground floor (drawn to scale) and elevation (drawn to scale) that were submitted by me regarding a building for that intent for Kitsegukla, under date of the 14th of February 1910, whereon the cost would amount to \$774.31, would answer that purpose, but may somewhat exceed that amount on account of an advance since then in the price of lumber.

Sir,

I have to acknowledge the receipt of your letter of the 27th ultimo addressed to the Superintendent of Indian Education in regard to certain expenditure incurred by the Salvation Army at the Glen Vowell School.

In reply I beg to say that the Department regrets very much that there are no funds from which it could recoup you for expenditure incurred in the past. Your work, however, is appreciated and the Department is prepared to do what it can in recognition, ~~in a legitimate way.~~

With regard to a residence for the teacher on the Glen Vowell, ^{Reserve} I would ask you to be good enough to forward to the Department a sketch of a building that you think would be suitable with particulars in regard to construction and means of erection as well as an estimate of the cost. It is understood that Ensign Sharp would be willing to supervise the work. There are no funds at present available and, should it not be possible to find any for this purpose this summer, the matter will be borne in mind and Parliament will be asked to grant an appropriation for the purpose next session. In the meantime it would be well for you to get the information above asked for and submit it to the Department.

The building here belongs to the Salvation Army and I would respectfully recommend that it be purchased from them and moved down to the front line. The cost of doing this and putting it in proper shape would be approximately \$400. A new stove is also required to make the place comfortable in the cold weather. Miss Law is in charge of the school at present. A new teachers desk and about twenty-four (24) single desks are required also. There are about thirty-three (33) children in the village.

Sir,-

Referring to your recommendation that a new teacher's desk and pupils desks be supplied for the Glen Vowell School I beg to say that you may order a teacher's desk of an inexpensive kind and also twelve double desks, with separate seats if possible. These should be of suitable assorted sizes and should be shipped to the Agent with instructions that he have them placed in position in the school as soon as they arrive. These should be purchased from The Modern Office Supply Company, Limited, 163 Pender St., West, Vancouver.

You may also purchase a suitable stove for this school and have it shipped at the same time.

GLEN VOWELL (Salvation Army)

Visited the 21st December. Miss Jackson the teacher
in charge reports the attendance good and the children
making satisfactory progress. The school building is too
small and to have same enlarged and improved would cost
about \$500. and as this building belongs to the Salvation

I have the honour to state herewith that the teacher of the Glen Vowell Indian Day School, Miss Pearl Jackson, represented to me whilst there, that the play-ground environing that school is much in need of being levelled up.

The same, covering about an acre, I found encumbered with three large stumps, and some of lesser size, and with many knolls and hollows, which could be removed and the ground be made perfectly smooth at the reasonable expense, by contract, of \$15.00; and beg to request that by the Department I may be authorized to expend that amount in order to have remedied all of these defects, and the ground made wholly available for that purpose; and in concluding beg to add that the self-same subject has previously been discussed with Mr. Inspector Tyson, and whereat an assistance in that respect had been promised.

Sirs:

Regarding account for desks shipped to the Hazelton or Babine Agency amounting to \$199.27 in full. Would ask you if the payment has gone forward, as we were advised by Mr Loring that the invoices and vouchers had gone forward for payment some time back, and in view of the fact that recently the Mail Car on this end of G. T. P. line took fire and burned a considerable amount of mail with the registered bags, and if these cheques should have been lost would be obliged to have duplicates issued in their stead. This fire has caused an unusual amount of trouble to the banks and individuals here.

Your reply would be appreciated.

Yours very truly,

Requisition.

Sir,-

I have the honour to state that owing to an overcrowded condition of the Glen Vowell Indian Day School building, owned by the Salvation organization, Brigadier Sowten brought up the subject of having, if possible, the building enlarged by making it wider, but upon my suggestion that it be cheaper by lengthening it he was convinced of this being a good plan.

Ensign H. K. Jackson, the missionary of that locality gave me a letter of the 30th ultimo, and attached thereto an estimate of costs, complete, and which papers I beg to enclose herewith proving the total cost to be \$220.40.

Since the the Glen Vowell school building very much needs remedying in that respect, and the school has all along been and is doing splendid work, and consider the expense to be incurred reasonable, and the work is calculated to be done during the coming holidays, I would respectfully recommend the authority to be granted to the amount as here proposed.

Dear Sir
Our Day School building is much too small for the present requirements - We have an attendance of 25 to 30 children - and the school building is only 29 by 16 ft - we request the addition of 15 feet which if granted would probably meet the requirement for some few years to come

I enclose an estimate of the material necessary for such addition, also cost of labor etc

Hoping that you will be able to put this before the Department. I am

REPORT OF INSPECTOR TYSON ON SCHOOLS IN NORTHERN INSPECTORATE

GLEN VOWELL DAY SCHOOL.

The building here is too small for school purposes and unsuitable for winter weather. In my previous report, I suggested that a new school should be built at this village but as this is not feasible this year on account of financial conditions, I would recommend that the building be lengthened fifteen feet at an estimated expenditure of about \$200 or \$225.

Should this improvement be carried out the building would probably answer the purposes for a year or two. ~~256~~

In adverting to vouchers Nos. 114 and 115, for \$192.00 and \$32.70, respectively = \$225.00; and the work performed in lengthening the Glen Vowell Indian Day School building by fifteen feet, upon a careful inspection, I have the honour to state that I found the results accomplished well in keeping with the amount expended, and that thus that school has become properly fitted for many years to come.

But here find myself impelled to add that corelative the lengthening of the building will make it imperative that another stove will be needed in addition to the one already on hand, which was purchased in 1914, and beg to apply herewith for the necessary authority to procure one exactly of the latter's size and with the attendant requirements of such as pipes, elbows, etc., and would call for a collective outlay of about \$16.00.

Sir,—

- In arrear -

I have the honour to enclose herewith voucher No. 87, for \$8.05, in favour of Mr. R. S. Sargent for having supplied the Glen Vowell Indian Day School with 23 yards of gingham @ .35¢ per yard, upon a requisition sent in by me under the 6th of June last.

- Memo - I here beg to state that I very much regret, that upon enquiry regarding the substitution of gingham for white cotton, I was told that the former article, on having been worked up, would be of better results as to the necessities of Mrs. Julia Jackson in her field matron work; and that the extra three yard composed the roll.

I here beg to add that I very much regret that the supply had not been strictly adhered to as to its original request, the delay occasioned, etc., and have informed the parties concerned to that effect.

Sir,—

With reference to official letter of the 20th instant, remarking that in having submitted vouchers under my letters of the 5th and 6th ultimo and 9th instant, and drawing my attention to the fact that I failed to comply with the instructions contained in circular letter of the 8th of May in regard to obtaining quotation of prices from merchants submitting the lowest price quoted to the Department in each case, and that vouchers above referred to will be held until I submit the statement required in accordance with the provisions of the letter of the 8th of May, and also adverting to the Department's letter of the 19th of June. If there be only one merchant at any of the points where a purchase is made, prices should be obtained from him and submitted in that they are the lowest obtained.

Authority:—

Following are the prices obtained for the stove and piping required for the Glen Vowell Indian Day School:-

Messrs R.S.Sargent, Hazleton.

Second-hand in good condition, takes 23" stick lined inside with sectional iron casting.... \$24.00

14 lengths piping..... \$ 3.35.

Hudson's Bay Co.

New Mc Clary stove, same size as a above, sheet lined..... \$28.50

14 lengths piping..... \$ 3.35.

I beg to report that the stove at present in the School was supplied in 1917 at a cost of \$16.00 but has been overheated and is now burnt right through and is therefore dangerous.

OTTAWA, Oct. 6th, 1921.

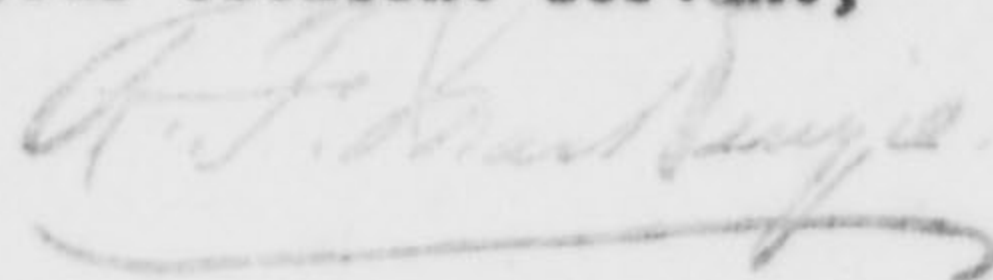

Sir, -

I have to acknowledge the receipt of your letter of the 28th ultimo, quoting the prices obtained by you for the stove and pipe required for the Glen Vowell Indian Day School.

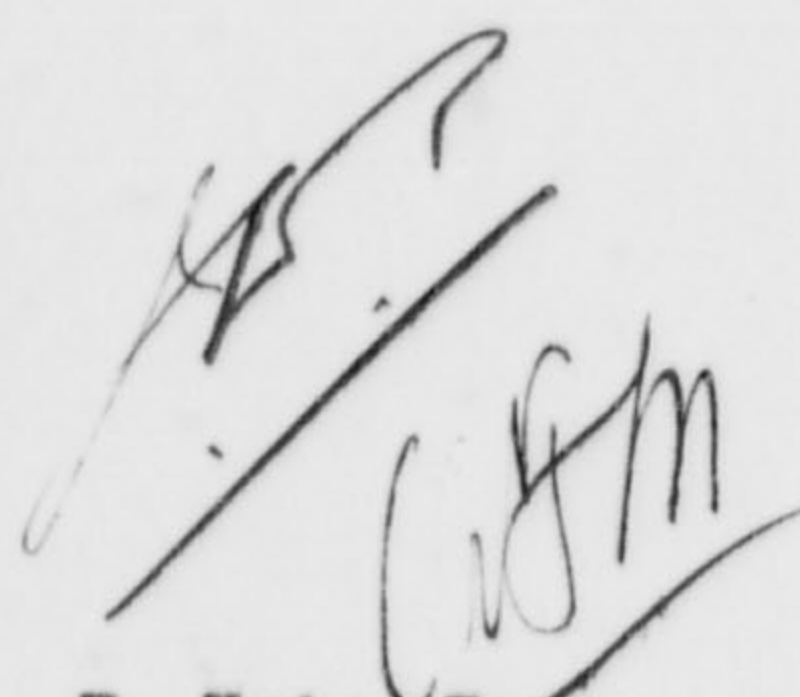

In reply, I beg to say that if you consider the second-hand stove is in good condition, and it will serve the purpose, you may purchase the same, and also the stove pipe required. If, however, you consider this stove would only last a short time, and that it would be preferable to obtain a new stove, you should arrange for the purchase of same, and in that case it would be necessary to obtain competitive prices from a number of firms and the purchase should be made from the firm quoting the lowest price.

The Department will leave this matter in your hands, and if you consider it advisable to purchase the second hand stove you may do so at the price quoted by you.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

The class-room is a mere shell.
It takes two stoves to keep it
warm in winter. A new building
will be an absolute necessity
soon.
